

Gillette, Wyo., Chooses Tyler's Integrated ERP Solution

Gillette selects Tyler's Munis® enterprise resource planning solution to modernize operations

DALLAS – Sept. 19, 2012 – Tyler Technologies, Inc. (NYSE: TYL) has signed a contract with the City of Gillette, Wyo., for its Munis® enterprise resource planning (ERP) solution. After a thorough request for proposal (RFP) process, Gillette selected Tyler's Munis [ERP](#) solution to replace its outdated system to better manage data and service delivery to the city's clients. The agreement includes related software licenses, professional services, training and support.

The City of Gillette selected [Munis](#) because it improves access to information, aids productivity by eliminating duplicate entries, enhances strategic planning and budgeting, and integrates information from multiple departments. Gillette has selected multiple Munis applications, including financial management, human resource management, self service, contract management and utility billing; the contract also includes Tyler Incident Management, Tyler Content Manager and Tyler Cashiering.

Situated in the Powder River Basin, the residents of the City of Gillette help provide over 10 percent of America's electricity with coal that is mined in the Basin. Known as the "Energy Capital of the Nation," Gillette's population of just under 30,000 prides itself with providing the natural resources to power America.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 10,000 local government offices in all 50 states, Canada, the Caribbean and the United Kingdom. *Forbes* has named Tyler one of "America's Best Small Companies" four times in the last five years. More information about Dallas-based Tyler Technologies can be found at www.tylertech.com.
