

Tyler Technologies Announces Release Of Munis® Field Inspector for Windows 8

Munis Field Inspector application to provide permit and code enforcement field crews with mobility

DALLAS – Nov. 14, 2012 – Tyler Technologies, Inc. (NYSE: TYL) today announced it has launched Munis® Field Inspector for Windows 8 and Windows RT, Microsoft’s highly anticipated new version of its Windows operating system.

Tyler’s [Munis](#) Field Inspector application is designed to provide permit and code enforcement field crews with convenient Windows phone or tablet access over a cellular or Wi-Fi connection in order to perform their jobs more efficiently.

“We feel confident that the new design, mobile connectivity, great hardware and solid foundation of Windows 8 will provide a positive experience for clients using Munis Field Inspector,” said Richard E. Peterson Jr., president of Tyler’s ERP & School Division. “Tyler Technologies is excited to launch Munis Field Inspector for Windows 8 and Windows RT.”

Munis Field Inspector will automatically access the day’s schedule and necessary information for the inspector to perform inspections, capture comments and attach photos from anywhere in the field. Results are uploaded to Tyler’s Munis enterprise resource planning (ERP) system automatically when the mobile device has a strong cellular or wireless signal.

“Microsoft app developers have always provided rich software experiences and value for our shared customers,” said John Richards, Windows Business Development Senior Director. “Windows 8 offers a no-compromise experience across PCs, laptops and tablets, enabling our app developers to deliver innovative software.”

Munis Field Inspector leverages Windows 8 and Windows RT features including search, share, snap, semantic zoom, notifications, live tiles, and the design principles of the Windows 8 user interface. Munis Field Inspector can be used with Tyler’s Munis enterprise resource planning solution. Find out more by visiting <http://www.tylertech.com/munis-citizen-services>.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 10,000 local government offices in all 50 states, Canada, the Caribbean and the United Kingdom. Forbes has named Tyler one of “America’s Best Small Companies” five times in the last six years. More information about Dallas-based Tyler Technologies can be found at www.tylertech.com.
