

Tyler Technologies Acquires EnerGov Solutions

DALLAS – Nov. 30, 2012 – Tyler Technologies, Inc. (NYSE: TYL) today announced that it has acquired EnerGov Solutions, a leading provider of enterprise permitting, land management, licensing and regulatory software solutions to government agencies. EnerGov Solutions was founded in 2002 and is headquartered near Atlanta.

As a result of the transaction, Tyler broadens its portfolio of citizen services software solutions by complementing its [Munis](#)® and [Incode](#)® product suites with industry-leading land use and community development solutions. EnerGov was selected in 2009 as the Esri® Worldwide Partner of the Year and received the 2012 Esri Mobile App of the Year Award. EnerGov has clients in 31 states.

“We are pleased to add EnerGov’s products to Tyler’s solutions as EnerGov is competitive in the marketplace and an ideal addition to Tyler’s portfolio,” said Brett Cate, president of Tyler’s Local Government Division. “EnerGov is well known for providing innovative land management solutions and we intend to continue to deliver the level of service and expertise its clients expect.”

EnerGov’s founding partners and key management will join Tyler, along with the company’s entire employee base; and, during the coming months, EnerGov’s technology and services offerings will be integrated into Tyler operations and branding.

“Tyler Technologies is a leader in public sector software solutions and EnerGov is a leader in land management solutions, so this is a great fit,” said Mark Beverly, chief executive officer and chief operating officer at EnerGov. “Tyler and EnerGov share the same level of commitment to providing innovative solutions to the public sector and we look forward to being a part of Tyler’s software offerings.”

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 10,000 local government offices in all 50 states, Canada, the Caribbean and the United Kingdom. Forbes has named Tyler one of “America’s Best Small Companies” five times in the last six years. More information about Dallas-based Tyler Technologies can be found at www.tylertech.com.
