

City of Pueblo, Colo., Chooses Tyler Technologies' Integrated ERP and Municipal Court Solutions

Pueblo signs contract for Tyler's Munis® ERP and Incode® court case management solutions

DALLAS – Aug. 8, 2013 – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the city of Pueblo, Colo., for Tyler's Munis® [enterprise resource planning](#) (ERP) and Incode® municipal [court case management](#) solutions. Tyler will provide the city with an integrated municipal software system to support the delivery of government services and activities. The city will also benefit from best practices learned from Tyler's experienced staff, and significantly improve the city's customer service and business processes through self service applications.

Tyler's Munis and [Incode](#) solutions will replace the city of Pueblo's antiquated, disparate systems that prevented data sharing across departments and involved burdensome manual processes. To help meet its efficiency goals, the city invested in a wide range of [Munis](#) and Incode applications, including financial management, human capital management, court case management, content management, and citizen and employee self service.

"Tyler's integrated system enables the city to be a one-stop shop for our vendors and citizens to conduct city business, and provides our employees with the functionality needed to do their jobs," said Lori Pinz, Pueblo's director of information technology. "With Tyler's evergreen approach to continually investing in software development, we can rely on the Munis and Incode solutions to be fully supported and keep its robust functionality."

"We are pleased that the city of Pueblo chose Tyler solutions to help meet the needs of multiple functional areas," said Richard E. Peterson Jr., president of Tyler's ERP & School Division. "The city will benefit not only from the integration between the Tyler products, but also the consistencies in implementation methodologies and support processes."

The city of Pueblo is a home-ruled municipality located in southeastern Colorado and has an approximate population of 106,600.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" five times in the last six years. More information about Dallas-based Tyler Technologies can be found at www.tylertech.com.
