

Longmont, Colo., Selects Tyler Technologies' Munis® ERP Solution to Improve Business Processes

Tyler's public sector expertise will aid in implementing best practices at city

DALLAS – Aug. 21, 2013 – Tyler Technologies, Inc. (NYSE: TYL) has signed a contract with the city of Longmont, Colo., for Tyler's Munis® [enterprise resource planning](#) (ERP) solution that will help improve the city's business processes and enhance information accessibility and reliability within a more flexible financial system.

“Longmont chose to replace our core business systems with Munis because it is intuitive and flexible for our employees, delivers more accurate data for better forecasting and analysis, and provides better access to information,” said Longmont's Assistant Finance Director Molly Kostelecky. “We wanted a proven and reliable ERP solution backed by a provider that understands the public sector industry and could share business best practices for us to follow — Tyler has that proven expertise.”

“For more than 30 years, Tyler has been successfully designing, developing, implementing and supporting software solutions exclusively for the public sector,” said Richard E. Peterson Jr., president of Tyler's ERP & School Division. “Our longevity has given us tremendous domain expertise, and in conjunction with input from our clients, we have built public sector functionality into Munis that helps cities like Longmont streamline their most essential back-office tasks.”

The city has invested in a wide array of Munis applications, including financial management, human capital management, content management and employee self service. Longmont is a home rule city located in Boulder County with a population of approximately 87,500.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America's Best Small Companies” five times in the last six years. More information about Dallas-based Tyler Technologies can be found at www.tylertech.com.
