

City of Green Bay, Wis., Selects Tyler Technologies' ERP Solution to Modernize System Processes Across the Organization

Green Bay signs agreement for Tyler's Munis® enterprise resource planning solution

PLANO, Texas – Nov. 27, 2013 – Tyler Technologies, Inc. (NYSE: TYL) has signed a contract with the city of Green Bay, Wis., to implement Tyler's [Munis](#)® enterprise resource planning (ERP) solution replacing the city's 30-year-old system that does not fully support its current business needs. The agreement includes related software licenses, professional services, training and support.

Munis will help meet the city's long-term vision of moving from a transaction-focused environment to one that utilizes data for analytical purposes and to reduce dependency on paper-driven processes. To achieve its vision, the city will implement multiple Munis software applications, including employee self service, project and grant accounting and content management. The city also selected Tyler Pulse for advanced analytical reporting.

Green Bay has more than 104,000 residents and is Wisconsin's oldest and third-largest city, after Milwaukee and Madison. The city of Madison is also a Tyler client, using Munis ERP and Incode municipal court solutions.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" seven times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at www.tylertech.com.
