

## Henderson, Nevada, Selects Tyler Technologies' EnerGov Planning, Permitting & Licensing Solution

*EnerGov will support the city's goals of becoming more efficient and improving cross-departmental communication*

**PLANO, Texas – May 14, 2014** – Tyler Technologies, Inc. (NYSE: TYL) has signed a contract with the city of Henderson, Nevada, for Tyler's [EnerGov®](#) permitting, licensing and planning solution to replace the city's aging legacy permitting solution and continue to improve efficiencies among departments. The agreement includes software licensing, implementation services, related professionals services, training and support.

Rather than upgrade its legacy permitting system, which had become difficult to support and maintain, the city opted for a competitive market review to find a modern technology system that would better fit staff and residents' needs. Henderson ultimately chose Tyler's fully integrated EnerGov solution.

Henderson is known for being technologically progressive, including adopting market-leading technology systems. The city chose EnerGov because it wanted a solution that would reinforce its sophisticated business practices and help bring city departments together to expedite customer interaction. Tyler's EnerGov solution streamlines the permitting process, improves customer service management and supports citizen and employee online access. As an enterprise-wide system, EnerGov will help Henderson increase interdepartmental collaboration so it can deliver a higher level of customer service.

Additionally, EnerGov met Henderson's requirement for a commercial-off-the-shelf (COTS) system that doesn't require extensive customization. EnerGov's mobile applications will also provide Henderson staff enhanced, real-time accessibility while in the field.

Incorporated in 1953, Henderson is Nevada's second largest city with more than 270,000 residents. Henderson is a progressive and vibrant city committed to maintaining premier amenities and services for residents and visitors alike. Henderson has been ranked in the "Top 100 Best Cities to Live: America's Best Small Cities" by MONEY Magazine three times, most recently in 2012; Henderson was also ranked among "America's 50 Best Cities" by Bloomberg Businessweek in 2011.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" seven times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America.
