

## Superior Court of California, County of Santa Cruz, Selects Tyler Technologies' Odyssey Court Case Management Solution

*Santa Cruz chooses Tyler's Odyssey software solution to meet strategic goals*

**PLANO, Texas – May 15, 2014** – Tyler Technologies, Inc. (NYSE: TYL) today announced that the Superior Court of California, County of Santa Cruz, has selected Tyler's [Odyssey](#)® court case management software system to integrate court case processes and meet strategic goals.

Santa Cruz will implement Odyssey for all case types, including criminal, civil, family and traffic, to meet its strategic goal of providing equal access to the court for all. To date, 14 California superior courts have announced that they have selected Tyler's Odyssey court case management solution.

“We are very excited to implement the Odyssey case management system in the Santa Cruz County Superior Court. The Odyssey system will provide us with the most up-to-date technology to effectively administer justice and better serve our community,” said Honorable Paul M. Marigonda, presiding judge of the Santa Cruz Superior Court.

The court used the state's Master Services Agreement (MSA) that gives California's 58 superior courts the ability to purchase Tyler's Odyssey integrated court case management system at pre-negotiated terms, conditions and pricing outlined in the MSA. The MSA was developed by a group of IT leaders and court managers within the California judicial system as a way for the state's superior courts to efficiently purchase a case management system.

Odyssey has been selected for use by more than 500 counties in 21 states, serving more than 75 million residents. Odyssey has been successfully deployed statewide in Indiana, Minnesota, New Hampshire, New Mexico, North Dakota and South Dakota; statewide implementations in Idaho, Maryland, Oregon, Rhode Island and Washington are currently underway.

Santa Cruz County has a population of approximately 262,000 on the Pacific coast and forms the northern coast of Monterey Bay.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America's Best Small Companies” seven times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America.
