

San Francisco County Transportation Authority Contracts with Tyler Technologies for Microsoft Dynamics AX

Transportation agency signs agreement for Microsoft Dynamics AX ERP solution

PLANO, Texas – June 3, 2014 – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the San Francisco County Transportation Authority in San Francisco, California, to implement Microsoft [Dynamics® AX](#), an enterprise resource planning (ERP) solution with public sector functionality that Tyler Technologies jointly developed with Microsoft®. The contract includes implementation and related professional services, training and support.

Tyler has been successfully designing, developing, implementing and supporting software solutions — exclusively for the public sector — for more than 30 years. As part of the Tyler-Microsoft agreement, Tyler is an authorized reseller of Microsoft Dynamics AX and provides software support and other standard services.

The Transportation Authority selected Microsoft Dynamics AX to replace its legacy financial and accounting software to increase the efficiency of its operations and better support its complex business needs. The Transportation Authority plans to leverage the functionality of Microsoft Dynamics AX and to integrate paperless document management throughout its business processes.

Created in 1989, the Transportation Authority administers the city’s half-cent transportation sales tax and is responsible for long-range transportation planning and coordination of multiple transportation funding sources. In these capacities, the Transportation Authority oversees and assists in the delivery of capital improvements for San Francisco’s roadway and public transportation networks. With more than 830,000 residents, San Francisco is the state’s fourth-largest city and the only county-city consolidation in California.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America’s Best Small Companies” seven times and the company has been included four times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at www.tylertech.com.
