

Superior Court of California, County of Butte, Signs SaaS Agreement with Tyler Technologies

Butte Superior Court selects Tyler's Odyssey court case management solution

PLANO, Texas – June 12, 2014 – Tyler Technologies, Inc. (NYSE: TYL) today announced that the Superior Court of California, County of Butte, has signed a five-year software as a service (SaaS) agreement for Tyler's [Odyssey](#)® court case management software solution to maximize court resources and increase public access to information.

The court will implement e-filing and multiple Odyssey applications for all case types: civil, criminal, traffic, juvenile, family and probate. The court also selected Odyssey SessionWorks® Judge Edition, which presents judges with digital data on the bench via touch-screen technology, and Odyssey ePayment Manager to securely process and manage over-the-counter and online payments.

“Butte Superior Court is pleased to move forward with Tyler to obtain their Odyssey case management system; the contemporary and sophisticated features of this case management solution will allow our court to further realize our goal of enhanced access to justice for the community we serve,” said Butte Superior Court Executive Officer Kimberly Flener. “In particular, our court is enthusiastic about Odyssey's e-filing and document management capabilities, which will provide the public with expeditious access to our services into the future. We also welcome Odyssey's expected gains in efficiency and effectiveness that will allow us to continue to maximize our limited resources.”

The Butte Superior Court used the Master Services Agreement (MSA) that gives California's 58 superior courts the ability to purchase Tyler's Odyssey integrated court case management system at pre-negotiated terms, conditions and pricing outlined in the MSA. The MSA was developed by a group of IT leaders and court managers within the California judicial system as a way for the state's superior courts to efficiently purchase a case management system. To date, 20 California superior courts have announced that they have chosen Tyler's Odyssey court management solution.

“Tyler's cloud-based solutions enable clients like Butte Superior Court to deliver more services to their constituents while increasing efficiencies without a large up-front investment or additional IT resources,” said Bruce Graham, president of Tyler's Courts & Justice Division. “We look forward to working with the court to help them achieve their goals.”

Butte Superior Court processes an average of 42,000 filings per year and has more than 110 employees. Butte County, with a population of 220,000, is located in California's Central Valley, about 70 miles north of Sacramento.

In total, Odyssey serves more than 100 million residents, a third of the U.S. population, in more than 600 counties across 21 states. Odyssey has been successfully deployed statewide in Indiana, Minnesota, New Hampshire, New Mexico, North Dakota and South Dakota; statewide implementations in Idaho, Maryland, Oregon, Rhode Island and Washington are currently underway.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America’s Best Small Companies” seven times and the company has been included four times on the Barron’s 400 Index, a measure of the most promising companies in America.
