

## Texas Cities Choose Tyler Technologies' Munis and EnerGov Solutions

*Cities of Allen and College Station select Tyler's ERP suite; Allen adds permitting solution*

**PLANO, Texas – Aug. 21, 2014** – Tyler Technologies, Inc. (NYSE: TYL) has signed agreements with the city of Allen, Texas, and the city of College Station, Texas, for [Munis](#)® enterprise resource planning (ERP). Allen also chose Tyler's [EnerGov](#)® planning, permitting and licensing solution to improve efficiencies citywide. The agreements include software licenses, related professional services, maintenance and support.

The city of Allen has grown rapidly during the past two decades and needed modern technology to support additional growth and the expectations of an Internet-savvy population. After a competitive review process, Allen chose Tyler's Munis solution to help enhance customer service and enable more efficient operations. The city selected multiple Munis applications, including financial management, human capital management and citizen self-service.

Allen will also implement Tyler's EnerGov solution, which includes permitting, regulatory management, land use planning, GIS mapping and self-service for citizens and employees, as well as a mobile application suite.

The city of College Station chose Munis after reviewing solutions to support business functions including grant management, content management and project accounting, among others. They will implement core Munis applications, including financial management, human capital management, citizen self-service and content management. City leaders saw that the Tyler solution would help improve operational efficiency, enhance inter-departmental communication, and boost public access to city information and online services.

Tyler's integrated Munis ERP and EnerGov permitting solutions are commercial-off-the-shelf (COTS) products that are flexible enough to meet municipalities' current and future needs.

The city of Allen, incorporated in 1953, is approximately 21 miles northeast of Dallas and has about 90,000 residents. The city of College Station has about 100,000 residents, is approximately 80 miles northwest of Houston, and is home to Texas A&M University.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" seven times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at [www.tylertech.com](http://www.tylertech.com).
