

Tyler Technologies Named to Software Magazine's 32nd Annual Software 500

Tyler Technologies rises in rankings as one of the world's largest software companies

PLANO, Texas – Sept. 11, 2014 – For the seventh consecutive year, Tyler Technologies, Inc. (NYSE: TYL) has been included in *Software Magazine's* Software 500 ranking of the world's largest software and service providers, now in its 32nd year.

Tyler Technologies ranks 162 in the 2014 Software 500, with a total software and services revenue of more than \$387 million reported in 2013, rising four ranks from 166 in 2013 based on its 2012 total software and services revenue.

“The Software 500 helps CIOs, senior IT managers, and IT staff research and create the short list of business partners,” said John P. Desmond, editor. “It is a quick reference of vendor viability. And the online version, to be posted soon at www.softwaremag.com, is searchable by category, making it what we call the online catalog to enterprise software.”

“We are honored to be recognized for the seventh straight year by *Software Magazine*,” said John S. Marr Jr., president and chief executive officer of Tyler Technologies. “We have served the public sector with proven software and services for many decades and we are pleased to continue partnering with a growing portfolio of local government and school clients who rely on Tyler to help meet operational goals.”

The Software 500 is a revenue-based ranking of the world's largest software and services suppliers, targeting medium to large enterprises, their IT professionals, software developers, and business managers involved in software and services purchasing.

The ranking is based on total worldwide software and services revenue from the 2013 fiscal year. This includes revenue from software licenses, maintenance and support, training, and software-related services, and consulting. Suppliers are not ranked on total corporate revenue, since many have other lines of business, such as hardware. Financial information is gathered by a survey prepared by Rockport Custom Publishing, LLC. Using public documents and company input. It is published in print as well as posted online at www.softwaremag.com as both a digital edition and searchable database.

About Software Magazine and Rockport Custom Publishing

Software Magazine has been a brand name in the high-tech industry for more than 38 years. Softwaremag.com, its Web counterpart, is the online guide to enterprise software and the home of the Software 500 ranking of the world's largest software and services companies. *Software Magazine* and Softwaremag.com are owned and operated by Rockport Custom Publishing. Rockport Custom Publishing is a leading integrated media company focusing on technology. For more information, visit www.rockportpubs.com.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America's Best Small Companies” seven times and the company has been included
