

Murfreesboro, Tennessee, Selects ERP and Court Solutions from Tyler Technologies

City chooses Tyler's Munis ERP and Incode municipal court software solutions

PLANO, Texas – Nov. 19, 2014 – Tyler Technologies, Inc. (NYSE: TYL) has signed a contract with the city of Murfreesboro, Tennessee, to implement Tyler's [Munis](#)® enterprise resource planning (ERP) and [Incode](#)® municipal court case management software solutions.

The city of Murfreesboro sought to replace its legacy applications with a modern system that includes financial, human resources, payroll, content management and municipal court functionalities. By updating its technology, the city will provide users with a full range of ERP functionality, enabling them to more effectively plan, control and account for the city's business activities and resources.

With more than 20 city departments, Murfreesboro is a full-service government, delivering a variety of services to residents. Increased demand for automation, data analysis, and operational improvements drove the need for technology changes to support the city's more than 900 employees and system users.

Murfreesboro selected Tyler's Munis solution to more effectively manage all data associated with budgets, expenditures, revenues and services. Munis will support policy and productivity decisions across all departments, including finance and tax, human resources, water and sewer, and fleet services.

Tyler's Incode municipal court management suite will help improve efficiencies for municipal court business processes, providing case management, document processing and cash/bond management, while also implementing internal processes that help eliminate duplicate data entry.

Part of the Nashville metropolitan area and home to Middle Tennessee State University, Murfreesboro has more than 117,000 residents.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" seven times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at www.tylertech.com.
