

West Hartford, Connecticut, Contracts with Tyler Technologies for Microsoft Dynamics AX

West Hartford Public Schools will be first domestic K-12 Microsoft Dynamics AX implementation

PLANO, Texas – Dec. 3, 2014 – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with Connecticut’s town of West Hartford and West Hartford Public Schools to implement [Microsoft Dynamics®](#) AX, an enterprise resource planning (ERP) solution with public sector functionality that Tyler Technologies jointly developed with Microsoft®. The contract includes related professional services, licensing, training and support.

West Hartford selected Tyler Technologies and Microsoft Dynamics after a competitive review process with criteria including experience, technical and functional alignment, implementation approach, product demonstrations and reference checks.

“Being on the leading edge of technology is a core organizational value for the town. We selected Microsoft Dynamics AX as a business solution not only for its support of operational and administrative processes within our organization, but as a platform for future development that will consistently keep us current with state of the art technology,” said Peter Privitera, director of financial services at the town of West Hartford. “Microsoft Dynamics AX will help West Hartford manage finances, procurement, human resources and budget control with increased productivity, more effective workforce management, and improved resource alignment.”

For decades, Tyler has successfully developed, deployed and supported software solutions exclusively for the public sector. As part of the agreement between Tyler and Microsoft, Tyler is an authorized reseller of Microsoft Dynamics AX and delivers software support and other standard services. West Hartford Public Schools will be the first domestic K-12 installation on the Microsoft Dynamics AX platform.

“West Hartford has made a sound investment in selecting Tyler Technologies because of our evergreen philosophy, which provides perpetual software upgrades without additional relicensing fees,” said Jeff Green, senior vice president at Tyler Technologies. “With the deployment of Microsoft Dynamics AX, West Hartford will consolidate disparate applications to a fully integrated solution, allowing for greater efficiency and productivity.”

The town of West Hartford has a population of 63,300 and is located in central Connecticut, adjacent to the city of Hartford, the state’s capital. The town and schools of West Hartford employ approximately 1,930 full-time employees.
