

Albemarle County Service Authority Contracts with Tyler Technologies for Microsoft Dynamics AX

ERP solution specially designed for public sector with functionality from Tyler and Microsoft

PLANO, Texas – Dec. 10, 2014 – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the Albemarle County Service Authority (ACSA) to implement Microsoft [Dynamics](#)® AX, an enterprise resource planning (ERP) solution with public sector functionality that Tyler Technologies jointly developed with Microsoft®. The contract includes implementation and related professional services, support, and training.

Based in Charlottesville, Virginia, the ACSA chose Microsoft Dynamics AX to replace its legacy financial management and payroll system that has been in service for more than 20 years. The ACSA's objective was to find a comprehensive, user-friendly and intuitive ERP system that would help the service authority operate more efficiently and effectively.

After a comprehensive review, which included interviews with existing Tyler clients regarding their experiences implementing Microsoft Dynamics AX, the service authority awarded the contract to Tyler. The ACSA expects operating efficiency and productivity improvements from Microsoft Dynamics AX, which will also provide flexibility that the ACSA needs as it continues to grow.

Tyler has been successfully designing, implementing, and supporting software solutions exclusively for the public sector for decades. As part of the Tyler-Microsoft agreement, Tyler is an authorized reseller of Microsoft Dynamics AX and provides software implementation, support and other services.

Created in 1964 by the County Board of Supervisors, the ACSA provides water distribution and wastewater collection service to more than 18,000 customers across 350 miles of waterlines. Located at the foot of the Blue Ridge Mountains, Albemarle County is approximately 65 miles west of Richmond, Virginia.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at www.tylertech.com.
