

Rhode Island Awards Master Purchasing Agreement to Tyler Technologies for ERP and School Solutions

Tyler solutions available to public schools and municipalities at pre-negotiated prices

PLANO, Texas – Dec. 18, 2014 – Tyler Technologies, Inc. (NYSE: TYL) has been awarded a master purchasing agreement by Rhode Island for Tyler’s [Munis](#)® enterprise resources planning (ERP) and [Infinite Visions](#)® school software solutions. The agreement includes related professional services, training and support.

Tyler’s solutions were chosen to meet the state’s objective of finding a financial system that could generate and send required reports that would enable queries, be compatible with state systems, and be based on the Uniform Chart of Accounts.

The new master purchasing agreement enables Rhode Island school districts and municipalities to license Munis and Infinite Visions directly from Tyler without the costly and time-consuming bid processes; as part of the master purchasing agreement, Munis and Infinite Visions will be available at pre-negotiated prices and terms.

The state chose core Munis applications, including general financial, accounting and human capital management solutions to help employees in public schools and municipalities across multiple levels work more efficiently and effectively.

Infinite Visions is specifically designed for schools and municipalities as a fully integrated solution for financial and personnel management. It offers drill-down capabilities, customized data sorting, and delivers the power of its solutions to employee desktops, supporting multi-user access for all applications.

With more than 142,000 students in its public elementary, middle and high schools, the Rhode Island system of public schools includes 296 schools across 66 public local education agencies and employs approximately 15,000 teachers, administrators and other educators.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America’s Best Small Companies” eight times and the company has been included four times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at www.tylertech.com.
