

Mobile, Alabama, Signs \$11 Million SaaS Agreement with Tyler Technologies for Citywide Suite of Solutions

City selects Tyler's Munis ERP suite, Incode court software, EnerGov planning, permitting and licensing solution, and Tyler Public Safety

PLANO, Texas – Jan. 13, 2015 – Tyler Technologies, Inc. (NYSE: TYL) has signed a seven-year [software-as-a-service](#) (SaaS) contract with the city of Mobile, Alabama, for an integrated suite of Tyler software solutions to replace the city's 30-year-old system. The agreement, valued at approximately \$11 million, includes hosting services, related professional services and support.

“Information technology is a critical investment and a strategic asset for the citizens we are here to serve,” said Mobile Mayor Sandy Stimpson. “Our current system no longer met the needs of a 21st century city. Tyler's software is groundbreaking, innovative and puts us on the leading edge of technology.”

After a competitive review and demonstration process, Mobile selected Tyler's [Munis](#)® enterprise resource planning (ERP) solution, [Incode](#)® municipal court solution, [EnerGov](#)™ planning, permitting and licensing solution, and [Tyler Public Safety](#)™ for a complete suite of integrated solutions. The city will benefit from Tyler's evergreen perpetual licensing approach that provides regular and significant, yet manageable, software enhancements without an additional relicensing or service fee, ensuring all systems are using the latest technology.

By selecting cloud-based solutions, Mobile can rely on Tyler to maintain the city's data and security, as well as perform disaster recovery services should the city experience a catastrophic event. More than 3,200 public sector organizations use Tyler's cloud-based systems.

“The city of Mobile is considering the long term and investing wisely by selecting Tyler as the sole vendor for an integrated citywide system. Tyler's singular mission is to provide software and services to cities like Mobile,” said John S. Marr Jr., president and chief executive officer of Tyler. “Our cloud-based solutions will provide significant long-term value for Mobile because Tyler manages the day-to-day maintenance of the system, allowing Mobile's staff to focus on other critical functions. We're pleased to partner with Mobile to help the city provide enhanced services to its constituents.”

The city of Mobile is the state's oldest settlement and the second-largest city. Mobile is also the largest municipality on the Gulf Coast between New Orleans and St. Petersburg, Florida. The city has more than 2,650 employees and a population of 246,000.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America's Best Small Companies” eight times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at www.tylertech.com.
