

Fayette County Board of Education in Georgia Selects ERP System from Tyler Technologies

Board chooses Tyler's Munis solution to integrate and streamline core business functions

PLANO, Texas – Jan. 29, 2015 – Tyler Technologies, Inc. (NYSE: TYL) has signed a seven-year [software-as-a-service](#) (SaaS) contract with the Fayette County Board of Education, in Fayetteville, Georgia, for Tyler's [Munis](#)® enterprise resource planning (ERP) solution. The agreement includes hosting services, support, training and related professional services.

The board of education sought to replace its legacy system with an integrated ERP solution for the collection, processing, reporting and analysis of key administrative information across the district. They wanted a solution that would manage their core operations, including finance, budget, school-level accounting, procurement, human resources and payroll. Additionally, they needed software that would interface with other internal software to ensure consistent data throughout the organization.

The Fayette County Board of Education chose Munis for its modern technology with features such as online, real-time and Web-based access to information along with complete integration throughout the Munis software. Munis also delivered on the board of education's need for a system that is flexible, easy to maintain, reduces paper flow and is cost-effective to operate. Tyler's track record of successful Munis implementations in K-12 school systems also played a key role in the board of education's decision.

The cloud-based Munis solution enhances the board of education's cost-effectiveness by enabling its technical staff to free up their time for other projects across the county. Fayette County will benefit from Tyler's evergreen perpetual licensing approach that provides regular and significant, yet manageable, software enhancements without an additional relicensing or service fee, ensuring all systems are using the latest technology.

With 3,200 employees, the Fayette County Board of Education is the county's largest employer; it serves more than 20,000 students in 24 schools across the communities of Brooks, Fayetteville, Peachtree City, Tyrone, and Woolsey.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included four times on the Barron's 400 Index, a measure of the most promising companies in America.
