

## City of Lake Elsinore, California, Chooses EnerGov and Incode Solutions from Tyler Technologies

*Tyler solutions to help fast-growing city modernize business processes and broaden citizen services*

**PLANO, Texas – Feb. 18, 2015** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the city of Lake Elsinore, California, for its [EnerGov](#)™ planning, permitting and licensing, and [Incode](#)® financial management software solutions. The agreement includes support, implementation and professional services.

After a competitive review process, the city of Lake Elsinore selected Tyler’s integrated Incode and EnerGov solutions to modernize business operations and improve customer service. The city was impressed with Tyler’s public sector tenure, as well as the solutions’ ease-of-use, which will foster adoption and create efficiencies citywide.

The city of Lake Elsinore, located in Southern California, is experiencing rapid growth, so leadership wanted a proven solution like EnerGov to support their community development efforts. The city will rely on Incode to help modernize and streamline overall operations, including financial management and citizen services.

EnerGov’s mobile applications will provide city staff real-time data access while in the field, and with EnerGov and Incode integrated, the city will also increase data availability across departments. The city will benefit from Tyler’s evergreen perpetual licensing approach that provides regular and significant, yet manageable, software enhancements without an additional relicensing or service fee, ensuring all systems are using the latest technology.

The city of Lake Elsinore is about 60 miles southeast of Los Angeles, and has about 56,000 residents; its namesake, Lake Elsinore, is Southern California’s largest natural freshwater lake.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 11,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America’s Best Small Companies” eight times and the company has been included four times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at [www.tylertech.com](http://www.tylertech.com).
