

## Newport News, Virginia, Chooses Tyler Technologies' Permitting and Land Management Software

*EnerGov solution will help city modernize business processes and increase public access*

**PLANO, Texas – April 1, 2015** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the city of Newport News, Virginia, for Tyler's [EnerGov](#)<sup>TM</sup> permitting and land management software suite, part of Tyler's planning, regulatory and maintenance solutions. The city wanted a modern, fully integrated solution that would improve business processes, as well as provide employees and residents expanded online access.

Tyler's EnerGov solution will help Newport News reduce labor-intensive and redundant procedures through more intuitive and streamlined permitting, planning, land use and code enforcement functions. Also, EnerGov's infused GIS technology will use the city's spatial data to automate and modernize daily operations.

With Web-enabled applications and self-service kiosks, EnerGov will expand the city's public access availability, and its mobile applications will provide staff real-time access to data while in the field. EnerGov offers city stakeholders increased automation while giving residents better operational transparency.

The city will benefit from Tyler's evergreen perpetual licensing approach that provides regular and significant, yet manageable, software enhancements without an additional relicensing or service fee, ensuring all systems are using the latest technology.

About 60 miles southeast of Richmond, Virginia, the city of Newport News has more than 180,000 residents, making it Virginia's fifth most populous city. Newport News is also a client of Tyler's [Munis](#)<sup>®</sup> ERP software suite and [iasWorld](#)<sup>®</sup> appraisal and tax solution.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 13,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included six times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at [www.tylertech.com](http://www.tylertech.com).
