

## **Brazos County, Texas, Partners with Tyler Technologies for Integrated Courts and Justice Solution**

*County selects Tyler's Odyssey solution for an integrated, paperless court system*

**PLANO, Texas – April 30, 2015** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with Brazos County, Texas, for its [Odyssey®](#) integrated courts and justice solution. The contract includes software licenses, implementation services and support.

Odyssey will replace the county's legacy system for all case types, helping Brazos County move toward a paperless court system. In addition to Odyssey Case Manager, the county invested in a full suite of integrated Odyssey applications, including financial, jail and attorney management. Odyssey's seamless integration across all of these functions will allow the county to eliminate redundant data entry, improve access to information across county departments, and simplify maintenance and support.

"Brazos County needed to replace outdated justice software and needed newer technology," said Brazos County Chief Information Officer Eric Caldwell. "We wanted to improve operating efficiencies and enhance and enforce data integrity, and Tyler Technologies' Odyssey solution was the only system that fit our needs."

Odyssey is fully integrated with the state's mandated e-filing platform for civil cases, eFileTexas™, for which Tyler is the statewide infrastructure provider. Home to Texas A&M University, Brazos County has a population of more than 204,000.

"Tyler's integrated courts and justice solution will create a chain of efficiencies for Brazos County," said Bruce Graham, president of Tyler's Courts & Justice Division. "Odyssey was designed to provide seamless integration between courts, attorneys, law enforcement and correction agencies, and having unified access to this critical data will help Brazos County meet its current and future operating goals."

In total, Odyssey serves more than 100 million residents, a third of the U.S. population, in more than 600 counties across 21 states. It is used by more than 60 counties in Texas. Odyssey has been successfully deployed statewide in Indiana, Minnesota, New Hampshire, New Mexico, North Dakota and South Dakota; statewide implementations in Idaho, Maryland, Oregon, Rhode Island and Washington are currently underway.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 13,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included six times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at [www.tylertech.com](http://www.tylertech.com).
