

## California's Santa Clara County Chooses Tyler's Eagle Solution

*Eagle solution to automate processes for consolidated county recorder and county clerk offices*

**PLANO, Texas – Aug. 11, 2015** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with Santa Clara County, California, for Tyler's [Eagle™](#) Recorder solution to replace the county's legacy system. The agreement includes related professional services, training and support.

To secure a new solution for its County Clerk-Recorder's Office, the county searched for a system to fully integrate the various and distinct functions of the consolidated department, streamlining workflow and increasing access to data.

Eagle will provide Santa Clara County a technologically advanced platform to simplify land, vital and clerk-record management, provide Web-enabled public access, and help better manage e-recordings.

Santa Clara County selected Tyler's Eagle Recorder after seeing how the solution could improve operational efficiencies through automating numerous recording processes, including cashiering, and document image repository search and retrieval, as well as county clerk functions, such as marriage licenses and fictitious business names.

Santa Clara County is at the southern end of the San Francisco Bay in the heart of Silicon Valley; it's California's fifth-largest county, with approximately 1.8 million residents, and the county has 15,000 employees.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 13,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included six times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at [www.tylertech.com](http://www.tylertech.com).
