

## Superior Court of California, County of San Bernardino, to Expand Use of Tyler Technologies' Odyssey Case Management System

*Court to use Tyler's courts and justice solution to manage additional case types*

**PLANO, Texas – Aug. 20, 2015** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the Superior Court of California, County of San Bernardino, to implement Tyler's [Odyssey](#)® court case management software solution for all of its remaining case types, including civil, family, juvenile and probate. This expansion of Odyssey builds upon the court's initial selection of the solution in 2014 for traffic and criminal case types. The agreement includes related professional services, training and support.

As with its previous Odyssey selection, San Bernardino Superior Court used California's Master Services Agreement (MSA) that allows the state's 58 superior courts to efficiently procure Tyler's Odyssey integrated court case management system through pre-negotiated terms, pricing and conditions. Currently, 25 California superior courts have selected Tyler's Odyssey court management solution to handle a wide variety of case types.

Overall, Odyssey serves more than 100 million residents, a third of the U.S. population, in more than 600 counties across 21 states. With more than 550 full-time employees dedicated to courts and justice solutions, Tyler has the capability to manage dozens of Odyssey client implementations concurrently. In 2014, Tyler staff converted 33 million cases, 64 million parties and almost \$4 billion in payments for clients moving to Odyssey from other systems.

Being the fifth-most populous county in California, San Bernardino County serves more than 2 million residents. With more than 20,000 square miles that include part of the Mojave Desert, the county borders Nevada and Arizona and is the largest county by area in the contiguous United States.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 13,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included six times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at [www.tylertech.com](http://www.tylertech.com).
