

Tyler Technologies Launches Data Capture Products for Appraisal and Tax Solutions

Products allow easier citizen access to appraisal and tax offices

PLANO, Texas – Sept. 14, 2015 – Tyler Technologies, Inc. (NYSE: TYL) today introduced new data capture products for its iasWorld® and Orion™ property appraisal and tax administration solutions at the International Association of Assessing Officers (IAAO) annual conference in Indianapolis. [Orion SmartFile](#) and [iasWorld SmartFile](#), previously branded as iasWorld eFile™, are integrated online solutions that allow jurisdictions to share and collect information from constituents without using printed documents or filing paper forms.

The Web-based application integrates with Tyler’s iasWorld and Orion software, which includes functionality for computer-assisted mass appraisal (CAMA) and tax billing and collections. Able to capture virtually any type of content, iasWorld SmartFile and Orion SmartFile can validate and navigate how users input data, eliminating paperwork and redundant manual data entry processes. Additionally, these products streamline constituent communications and notifications, giving taxpayers more opportunities to interact with jurisdictions.

“Tyler is committed to developing solutions that help our clients meet evolving needs, such as moving toward paperless processes,” said Andrew D. Teed, president of Tyler’s Appraisal & Tax Division. “We’re pleased to expand the breadth of our portfolio to include iasWorld SmartFile and Orion SmartFile as new tools that our clients can use to increase efficiency in their appraisal and tax offices.”

Tyler will be at booth #401 at the IAAO annual conference, where attendees can learn, network and share ideas with industry professionals.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 13,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America’s Best Small Companies” eight times and the company has been included six times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Plano-based Tyler Technologies can be found at www.tylertech.com.
