

Tennessee's Knox County Public Schools Signs SaaS Contract for Tyler Technologies' ERP Solution

School district selects Munis to streamline payroll and human resources processes

PLANO, Texas – Jan. 26, 2016 – Tyler Technologies, Inc. (NYSE: TYL) has signed a seven-year software-as-a-service (SaaS) contract with Tennessee's Knox County Public Schools for Tyler's [Munis®](#) enterprise resource planning (ERP) solution to replace its legacy human resources and payroll management system. The agreement includes hosting services, related professional services, maintenance and support.

School leaders wanted an easy-to-use human resources and payroll system that could track personnel-related data — from job posting to retirement. Knox County Schools sought a solution that would eliminate duplicate data sources, streamline employee onboarding and improve benefit enrollment processes while increasing reporting and employee self-service capabilities.

After a competitive review, Knox County Public Schools chose to partner with Tyler and selected various Munis applications, including human resources, payroll and content management. Tyler will provide the district with robust reporting functionality to support decision-making for principals and managers.

Knox County Government, which provides financial management services to Knox County Public Schools, also uses Munis, which will further streamline financial integration between the two entities.

Knox County Public Schools has about 9,000 employees serving approximately 60,000 students in 89 schools.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 14,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included six times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at www.tylertech.com.
