

## Santa Monica, California, Contracts with Tyler Technologies for ERP Solution

*Southern California city selects Munis to streamline processes and increase access to data*

**PLANO, Texas – March 1, 2016** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with the city of Santa Monica, California, for Tyler’s [Munis](#)® enterprise resource planning (ERP) solution. The agreement includes software licenses, related professional services, maintenance and support.

Santa Monica wanted to replace its legacy financial system with a modernized solution that would deliver new capabilities for staff and residents while increasing operational efficiency by eliminating redundancies, providing robust reporting, and helping to streamline complex payroll processes. Preferring a fully integrated ERP solution, the city selected Munis after completing a competitive review.

The city of Santa Monica chose core Munis applications, including financial, human resources and payroll, general revenues and citizen self-service, and Tyler Content Manager. The integrated nature of Munis will meet the city’s high technology standards, streamline its technology footprint, and meet the increased demands for comprehensive access to financial information.

The city will also benefit from Tyler’s evergreen perpetual licensing approach that provides regular and significant, yet manageable, software enhancements without an additional relicensing fee, ensuring all systems are using the latest technology.

Situated on the Pacific coast, Santa Monica is about 15 miles west of downtown Los Angeles, and has approximately 93,000 residents. Two other Southern California municipalities also recently selected Tyler’s Munis solution to improve business solutions.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 14,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America’s Best Small Companies” eight times and the company has been included six times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at [www.tylertech.com](http://www.tylertech.com).
