

South Carolina's Most Populous County Chooses Tyler Technologies' Munis ERP Solution

Tyler's comprehensive ERP solution to consolidate Greenville County's core functions onto one system

PLANO, Texas – April 13, 2016 – Tyler Technologies, Inc. (NYSE: TYL) today announced that Greenville County, South Carolina, has selected Tyler's [Munis](#)® enterprise resource planning (ERP) solution to replace the county's legacy financial, human resources and procurement systems. The agreement includes software licenses, professional services, training and support.

Previously, the county managed critical business services with disparate solutions, including customized Web-based products and in-house developed systems. Greenville County's goal was to replace those systems with one integrated commercial ERP solution.

After a competitive review, Greenville County chose Munis to provide multiple county divisions, including finance, tax collection, human resources and procurement, with a unified system that has robust reporting capabilities and intuitive navigation.

The county will also benefit from Tyler's evergreen perpetual licensing approach that provides regular and significant, yet manageable, software enhancements without an additional relicensing or service fee, ensuring the county has continued access to evolving technology.

Greenville County has more than 482,000 residents, making it South Carolina's most populous county.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 14,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included six times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at www.tylertech.com.
