

## Washtenaw County, Michigan, Signs Contract with Tyler Technologies for ERP Solution

*Tyler's Munis solution to help county automate processes and improve staff communication*

**PLANO, Texas – April 19, 2016** – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with Washtenaw County, Michigan, for Tyler's [Munis](#)® enterprise resource planning (ERP) solution. The agreement includes implementation, support and related professional services.

County leaders sought an ERP system that would expand its use of automation to eliminate paper-based processes, as well as increase reporting capabilities and support employee decision making. The county also wanted to replace its legacy ERP solution because it was unable to support modern applications needed to provide high-quality customer service and accommodate the county's growth.

After a competitive review, Washtenaw County partnered with Tyler and selected core Munis applications, including financials, human resources and payroll.

Munis will help the southeast Michigan county streamline workflow while enabling better communications across multiple departments through consistent and timely access to data. The flexible nature of Munis will facilitate the strategic expansion of business best practices, enabling staff to work more efficiently as the county continues to grow.

Washtenaw County, home to Ann Arbor and the University of Michigan, has approximately 354,000 residents. The county has an existing partnership with Tyler, having implemented its [Eagle](#)™ recording and property tax assessment solution, as well as Tyler's [Odyssey](#)® court case management solution. Washtenaw County received a 2015 Tyler Public Sector Excellence Award for its rapid Odyssey implementation, replacing paper files within 60 days and providing expanded access within the courthouse and online.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler's client base includes more than 14,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of "America's Best Small Companies" eight times and the company has been included six times on the Barron's 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at [www.tylertech.com](http://www.tylertech.com).
