

Government of Bermuda Selects EnerGov from Tyler Technologies

EnerGov to increase data access and improve business processes and staff communications

PLANO, Texas – June 30, 2016 – Tyler Technologies, Inc. (NYSE: TYL) has signed a three-year software-as-a-service (SaaS) agreement with the Government of Bermuda Department of Planning for Tyler’s EnerGov™ planning, regulatory and maintenance solution. The agreement includes software licenses, hosting services, project management, training and related professional services.

Following a competitive evaluation, Bermuda leaders identified EnerGov as the superior solution to improve productivity, increase efficiency and enhance customer service across the enterprise.

Bermuda chose several EnerGov applications, including permitting and land management, license and regulatory management, electronic plan review, GIS, and a comprehensive mobile workforce platform. As a modern platform with electronic plan review, EnerGov will provide enterprise wide workflow and increased visibility across ministries and departments to improve staff communication and collaboration.

EnerGov’s mobile capabilities will provide staff with real-time data access in the field while EnerGov’s online self-service component will expand government access for residents and businesses. Government leaders chose to have EnerGov delivered via a software-as-a-service (SaaS) arrangement to leverage the significant investments Tyler has made in its technology infrastructure.

Bermuda is a British territory with approximately 62,000 residents. The 21-square mile island in the Atlantic Ocean is about 700 miles east of Cape Hatteras, North Carolina.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of citizens. Tyler’s client base includes more than 14,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. Forbes has named Tyler one of “America’s Best Small Companies” eight times and the company has been included six times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at www.tylertech.com.
