

DeKalb County, Georgia, Selects Imaging and Data Collection Solution from Tyler Technologies

County will use Tyler Verify to perform street-level imaging for thousands of structures

PLANO, Texas – July 12, 2016 – Tyler Technologies, Inc. (NYSE: TYL) signed an agreement with DeKalb County, Georgia, for technology-driven mass appraisal services using Tyler Verify™. Under the agreement, Tyler’s CLT Appraisal Services™ staff will use Tyler Verify software to conduct street-level imaging and data collection services for properties throughout DeKalb County.

Tyler Verify integrates leading-edge database management tools, GIS application, GPS data capture and digital photography to ensure data accuracy and reliability. Tyler appraisal staff will use the software in customized vehicles that will travel through county streets to photograph and verify addresses on approximately 235,000 structures, including residential, office, retail, industrial, and manufacturing facilities. Vehicles will come to a complete stop at every property to capture detailed street-level images and conduct a review and verification of property record data.

The use of Tyler Verify and a unique “stop and compose” approach will provide higher-quality images and ensure consistency and accuracy across properties – and improve efficiencies – for 12 cities within DeKalb County.

Tyler’s CLT Appraisal Services — the country’s only national mass appraisal services company — has appraised more than 30 million parcels across 46 states. Tyler Verify street-level imaging services meets International Association of Assessing Officers (IAAO) standards for desktop review, and is used to collect an average of more than 80,000 parcels every month.

DeKalb County also uses Tyler’s iasWorld® appraisal and tax administration software. DeKalb County has more than 700,000 residents and is Georgia’s third most populous county.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of their constituents. Tyler’s client base includes more than 14,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. In 2016, Forbes ranked Tyler on their “Most Innovative Growth Companies” list, and it has also named Tyler one of “America’s Best Small Companies” eight times. The company has been included six times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at www.tylertech.com.
