

Collin County, Texas, Selects Suite of Solutions from Tyler Technologies

Munis and EnerGov will help North Texas county integrate and automate business functions

PLANO, Texas – July 14, 2016 – Tyler Technologies, Inc. (NYSE: TYL) has signed an agreement with Collin County, Texas, for Tyler’s Munis® enterprise resource planning (ERP) solution and EnerGov™ permitting, regulatory and maintenance platform. The agreement includes software licensing, implementation, training and related professional services.

Collin County wanted to replace its legacy financial system with a contemporary ERP solution that would eliminate paper-based processes to streamline business operations and help reduce the time it takes to handle routine information requests. The county also wanted a solution that would integrate multiple departments while being flexible enough to support the county’s future growth.

After a competitive review, the North Texas county chose to partner with Tyler Technologies, selecting core Munis applications, including financial and revenue management, productivity and Tyler Content Manager™.

Tyler’s EnerGov platform will provide the county a web-based permitting and inspections solution, as well as a citizen portal to expand government access and transparency for residents.

With Munis and EnerGov, Collin County will experience better communication across multiple departments, increased automation and modernized processes. The county will also benefit from Tyler’s evergreen perpetual licensing approach that provides regular and significant, yet manageable, software enhancements without an additional relicensing fee, ensuring all systems are using the latest technology.

Collin County, located in the metropolitan Dallas area, has nearly 900,000 residents and is one of the fastest growing counties in America. The county also uses Tyler’s Odyssey® integrated justice solution.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is a leading provider of end-to-end information management solutions and services for local governments. Tyler partners with clients to empower the public sector — cities, counties, schools and other government entities — to become more efficient, more accessible and more responsive to the needs of their constituents. Tyler’s client base includes more than 14,000 local government offices in all 50 states, Canada, the Caribbean, the United Kingdom and other international locations. In 2016, Forbes ranked Tyler on their “Most Innovative Growth Companies” list, and it has also named Tyler one of “America’s Best Small Companies” eight times. The company has been included six times on the Barron’s 400 Index, a measure of the most promising companies in America. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at www.tylertech.com.
