The State Bar of California is an administrative arm of the California Supreme Court, protecting the public and seeking to improve the justice system. “We look forward to helping The State Bar create efficiencies across their various departments in support of its mission to protect the public through the regulation and discipline of attorneys.” said Bret Dixon, president of Tyler’s Justice Group. “We are excited to enhance the administration of justice across California through our first State Bar deployment.”

“The new case management system at the State Bar will bring greater transparency and accountability to the State Bar’s regulation of attorneys, as well as improving our efforts to track and respond to the growing problem of the unauthorized practice of law,” said Leah Wilson, chief operating officer for The State Bar of California. “We chose a technology that offers the best value to achieve the bar’s public protection mission in the most efficient and effective way.”

Tyler’s footprint in California is substantial and includes large counties such as Orange, Los Angeles, San Diego and San Bernardino. Many of the counties use Odyssey for multiple case types, including civil, family, probate, juvenile, criminal, traffic and adoption. Many of the counties using Odyssey also benefit from Tyler’s e-filing solution, Odyssey File & Serve™ – known in California as eFileCA. Odyssey serves more than 100 million residents, approximately a third of the U.S. population, in more than 900 counties across 24 states.
