

Tyler Technologies' Student Transportation Solutions Selected for Cooperative Purchasing in Arizona

Tyler's transportation solutions are currently used by 33 clients in the state

PLANO, Texas (May 22, 2018) – [Tyler Technologies, Inc.](#) (NYSE: TYL) announced that its student transportation solutions, including Traversa® and Versatrans®, have been selected for inclusion on Mohave Educational Services Cooperative's list of recommended educational products.

Mohave Educational Services Cooperative helps school districts in Arizona fill statewide bids by managing a list of recommended vendors. By including Tyler on this list, Tyler's transportation solutions will be offered for cooperative purchasing without districts having to go out to bid, eliminating the time-consuming RFP process.

“We are pleased to be recognized by the Mohave Educational Services Cooperative in Arizona for our student transportation software,” said Ted Thien, vice president and general manager of Tyler's transportation solutions. “We look forward to continuing to help Arizona school districts develop and manage routes more efficiently and in a safer way, and we expect to bring these benefits to additional districts because of this cooperative purchasing agreement.”

Tyler's Traversa and Versatrans suites of products deliver intuitive, comprehensive transportation management that is scalable to districts of any size. Tyler Drive™, Tyler's revolutionary vehicle-mounted tablet, enhances Traversa and Versatrans with state-of-the-art features, such as audio and visual driver directions, student ridership management, inspection tracking, and smart rerouting for missed stops.

Through this distinction, Tyler's solutions can be selected to empower Arizona school districts in the following ways:

- Allow for seamless interactions between route, vehicle, and student data to create a continuous user experience
- Offer online and mobile student information portals to keep parents and students informed of bus route changes or other routing alerts
- Provide fleet maintenance reporting to ensure timely vehicle maintenance and avoid breakdowns
- Offer simple, intuitive dashboards to decrease training downtime

Tyler offers a broad portfolio of school solutions in addition to transportation software, including data analytics, document management, incident management, student information, and financial management. Nationwide, Tyler has nearly 2,000 transportation clients.
