

Tyler Technologies Named to Forbes' 'America's Best Midsize Employers' List

Recognition underscores Tyler's reputation as an employer of high quality

PLANO, Texas (April 24, 2019) – [Tyler Technologies Inc.](#) (NYSE: TYL) was recently named by Forbes on its '[America's Best Midsize Employers](#)' list for 2019. This marks the second consecutive year that Tyler was included on this list, moving up from its rank of #363 in 2018 to #159 in 2019.

“We’re proud to once again be recognized by Forbes as a top midsize employer, as we continually strive to create a desirable work environment for our more than 5,000 employees,” said Lynn Moore, president and CEO of Tyler. “In fact, 29% of our employees have been with Tyler for more than 10 years, and the turnover rate for Tyler is nearly half that of the industry benchmarks. We work hard to support our great employees, who in turn work hard to serve the needs of our clients and their communities.”

In collaboration with analytics firm Statista, Forbes selected America's Best Employers based on an independent survey from a vast sample of more than 50,000 U.S. employees working for companies employing at least 1,000 people in their U.S. operations. The surveys were administered in a series of online panels and provide a representative sample of the U.S. workforce.

Tyler was recognized alongside other midsize companies in 25 different industries including financial services, education, healthcare, information technology, professional services, and transportation.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is the largest and most established provider of integrated software and technology services focused on the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other. By connecting data and processes across disparate systems, Tyler's solutions are transforming how clients gain actionable insights that solve problems in their communities. Tyler has more than 21,000 successful installations across 10,000 sites, with clients in all 50 states, Canada, the Caribbean, Australia, and other international locations. A financially strong company, Tyler has achieved double-digit revenue growth every quarter since 2012. It was also named to Forbes' "Best Midsize Employers" list in 2018 and recognized twice on its "Most Innovative Growth Companies" list. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at tylertech.com.
