

NIC Inc. Names Brian Anderson as Chief Technology Officer

OLATHE, Kan. - NIC Inc. (Nasdaq: EGOV), the nation's largest provider of digital government solutions, has hired Brian Anderson as the Company's Chief Technology Officer. He will report to the Chief Executive Officer and serve as a member of NIC's Senior Leadership team.

"Our entire focus has been and always will be to empower government to use the latest technology to deliver convenience to citizens and businesses," said Harry Herington, NIC CEO and Chairman of the Board. "Brian brings the perfect combination of technology expertise and strategic vision that will continue our long history of strong technology leadership at NIC. He has considerable knowledge implementing solutions that utilize cloud innovation, machine learning, artificial intelligence, and more. I am excited to welcome him as a vital voice within our Company's leadership team."

Mr. Anderson has spent his career as an executive-level technology strategist, as well as the founder of a technology start-up. He successfully led a suite of enterprise software, has considerable merger and acquisition experience, and holds multiple patents.

"I look forward to joining NIC as Chief Technology Officer," said Mr. Anderson. "Few other companies make a positive impact on the lives of millions of Americans the way NIC does. It will be a privilege to build upon the Company's innovative solutions and to lead its technology vision."

Prior to joining NIC, Mr. Anderson served as the Chief Technology Officer of Lexmark, developing and implementing the organization's product strategy, as well as leading the company's Research and Development initiatives. He is also a co-founder of Applogie, LLC, a software business focused on managing and optimizing organizations' Software as a Service (SaaS) expenditures.

About NIC Inc.

NIC Inc. (Nasdaq: EGOV) launched the digital government industry in 1992, and continues to lead it, providing a secure payment engine and thousands of digital government solutions across a network of more than 6,000 federal, state, and local government agencies. In addition, NIC is a leading provider of outdoor recreation solutions, with 1 out of 6 hunting and fishing licenses in the United States sold using an NIC service. The Company launched the nation's first personal assistant for government and comprehensive mobile platform, Gov2Go[®], as well as the innovative, data-driven prescription drug monitoring platform, RxGov[®].
