

City of Stockton Joins More Than 100 California Cities in Choosing Tyler Technologies' Enterprise Resource Planning Solution

City replacing multiple standalone products with single, comprehensive system

PLANO, Texas (May 30, 2019) – [Tyler Technologies Inc.](https://www.tyler-tech.com/) (NYSE: TYL) announced today that it has signed a software-as-a-service (SaaS) agreement with the city of Stockton, California, for the full suite of Tyler's Munis® enterprise resource planning (ERP) solution, including financial, human capital, and revenue management, as well as its ExecuTime™ time and attendance solution, and Socrata Open Finance™ solution.

Following a multi-year evaluation and review process with the city of Stockton, Tyler was selected as the vendor who offered a singular ERP system that was proven in the marketplace, featured an intuitive application design, and was offered on a cloud platform. Tyler's solution will replace several standalone systems, reducing the total cost of ownership for the city.

Tyler's Munis solution will provide the management of core financial, payroll, and human resources information, and its ExecuTime solution will provide time capturing abilities, work schedule and leave requests, and a seamless integration with Munis. The solutions together will help the city of Stockton maximize business process efficiencies and eliminate its current standalone support systems. A singular ERP system will help streamline the flow of information across the organization and allow for better department and executive-level reporting, as well as help reduce unnecessary and redundant data entry by the city's staff.

The addition of Tyler's Socrata Open Finance solution will bring transparency to the city's residents by allowing them to see information in real time. Additionally, having this tool will allow city staff to make better financial and human capital management related decisions.

The city of Stockton is located in the Central Valley of California and is the 13th largest city in the state. Tyler also provides its Versatrans® school transportation solution to Stockton Unified School District.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is the largest and most established provider of integrated software and technology services focused on the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other. By connecting data and processes across disparate systems, Tyler's solutions are transforming how clients gain actionable insights that solve problems in their communities. Tyler has more than 21,000 successful installations across 10,000 sites, with clients in all 50 states, Canada, the Caribbean, Australia, and other international locations. A financially strong company, Tyler has achieved double-digit revenue growth every quarter since 2012. It was also named to Forbes' "Best Midsize Employers" list in 2018 and recognized twice on its "Most Innovative
