

Tyler Technologies Becomes Largest Provider of School Transportation Management Solutions

120 of the new clients added in past three years are New York school districts

LATHAM, New York (Sept. 9, 2019) – [Tyler Technologies, Inc.](https://www.tyler-tech.com) (NYSE: TYL) is proud to announce it now has more than 2,000 clients using its student transportation management solutions, Versatrans® and Traversa®, making it the largest provider of this technology in the U.S. and Canada.

Commitment to Local Clients

Both Tyler Technologies and its student transportation group have experienced significant and accelerated growth in recent years. Between 2016 and 2018, the group added more than 570 school districts and transportation contractors to its transportation client base, with another 140 having joined so far in 2019. More than 120 of the clients added since 2016 are from the state of New York.

“Tyler is committed both to our local business community in upstate New York and to our student transportation clients across the U.S. and Canada,” said Ted Thien, vice president and general manager of Tyler’s transportation solutions group. “New York’s Capital Region provides the valuable resources we need to continue providing the best client service and the innovative technology that has made us the leader in this industry. We are proud to be contributors to the growth of this region for the past 34 years.”

Based in Latham, New York, Tyler’s student transportation solutions group provides solutions which include:

- Software for efficient routing of school buses
- Student transportation apps for parents
- GPS solutions for school buses
- In-vehicle tablets for school bus navigation, student ridership, and driver time keeping

Commitment to Local Community

Tyler’s Latham office, which is composed of more than 130 employees, prides itself on working closely with other Capital Region leaders to help grow the local business community. Some of the recent activities of this group include:

- Partnering with Saratoga Springs City School District to develop and test its industry-leading Tyler Drive™ tablet, which is uniquely designed to safely guide school bus drivers through their routes and to improve student safety through tracking. This brought a local district to the forefront of the student transportation industry and brought national attention to the tech-forward Capital Region.

Page 2

- Purchasing a 43,000-square-foot office location in Latham to accommodate a growing workforce
- Being a founding partner in the New York Tech Loop, a non-profit organization whose mission is to attract and retain software developers in the Capital Region
- Participating in local events such as the CDPHP Workforce Team Challenge and supporting local charities with annual drives and service days

Tyler has been serving New York districts such as Shenendehowa Central Schools, Bethlehem Central Schools and Saratoga Springs Schools for many years. Nationwide, Tyler recently signed Portland Public Schools, Oregon; Dallas Independent School District, Texas; Orange County Public Schools, Florida; Chesterfield County Public Schools, Virginia; and the Canadian province of British Columbia.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is the largest and most established provider of integrated software and technology services focused on the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other. By connecting data and processes across disparate systems, Tyler's solutions are transforming how clients gain actionable insights that solve problems in their communities. Tyler has more than 21,000 successful installations across 10,000 sites, with clients in all 50 states, Canada, the Caribbean, Australia, and other international locations. A financially strong company, Tyler has achieved double-digit revenue growth every quarter since 2012. It was also named to Forbes' "Best Midsize Employers" list in 2018 and recognized twice on its "Most Innovative Growth Companies" list.
