

## Newest Enhancement to Gov2Go Platform from NIC Delivers Passports to Citizens Within Three Business Days

OLATHE, Kan. - [NIC](#), the industry leader in providing innovative technology solutions for government, today introduced the latest addition to its Gov2Go platform. Gov2Go, which simplifies citizens' access to government services, offers conveniences such as vehicle registration renewals, property and license tax reminders, and voter registration -- all from an easy-to-use mobile platform. The latest enhancement, in partnership with technology innovator RushMyPassport, allows U.S. citizens who want to fast-track the processing and issuance of their passports to now get those documents in hand within three business days by using Gov2Go.

Using the convenient, secure Gov2Go platform, U.S. citizens nationwide can choose from a variety of services including new passports, renewals, replacements, name changes, and duplicate passports. Users can select from a range of delivery options, from rushed delivery within three business days to standard delivery, within eight to 10 business days. Upon order completion, users can easily track the status of their passport order from Gov2Go.

"We are excited about the latest addition to the already powerful Gov2Go platform. Building upon the vision of allowing citizens to take care of all their interactions in one convenient place, now they can simply use Gov2Go to not only get their passports much quicker, but also, to see where their passport is until the moment it arrives at their door," said Brian Anderson, NIC's Chief Technology Officer.

To activate Gov2Go and use any of the convenient services available, including the expedited passport processing, U.S. citizens can log in or create an account and find the new services under the "Gov Store" at <https://www.getgov2go.com/>

"When you need your passport fast, you want a service you can trust. With RushMyPassport, we focus on innovative technologies that prevent common mistakes and costly delays," said Mosie Miller, CEO of RushMyPassport. "Gov2Go is the perfect partner for our passport services as they've built a great reputation as the one convenient place to take care of your interactions with the government. Travelers can relax knowing they now have a trusted and secure way to get their passport fast."

### About NIC

[NIC Inc.](#) (Nasdaq: EGOV) launched the digital government industry in 1992, and continues to lead it, providing a secure payment engine and thousands of digital government solutions across a network of more than 6,000 federal, state, and local government agencies. In addition, NIC is a leading provider of outdoor recreation solutions, with one out of six hunting and fishing licenses in the United States sold using an NIC service. The company created the nation's first personal assistant for government and comprehensive mobile platform, [Gov2Go®](#), as well as the innovative, data-driven prescription drug monitoring platform, [RxGov®](#). More information is available at [www.egov.com](http://www.egov.com).

### About RushMyPassport

[RushMyPassport.com](#) was started in 2007 to help travelers get their U.S. passport expedited quickly. More than a decade later, RushMyPassport would emerge as a nationwide leader in expediting U.S. passports. As a technology-forward company, RushMyPassport incorporates smart-form automation and real-time status updates to provide U.S. citizens with peace of mind while their passports are secured in time for upcoming travel. Expedited passport services range from 24-hour service, next-day service, priority service, rush service, standard service, and rush renewal.
