

## Tyler Technologies Named an Atlanta Top Workplace for 2020

*Tyler's Duluth office recognized for the first time as a top employer*

**DULUTH, Georgia** (March 5, 2020) – [Tyler Technologies, Inc.](#) (NYSE: TYL) announced today that it has been awarded a [Top Workplaces 2020](#) award by The Atlanta Journal-Constitution. This is Tyler's first time to be recognized on this list. With nearly 200 employees, the Duluth office was ranked in the midsize category, which includes locations that have between 150-499 employees.

“We are thrilled to be recognized as a top workplace in Atlanta for the first time by The Atlanta Journal-Constitution,” said Greg Savard, general manager for Tyler's civic services business unit, which is based in Duluth. “We're extremely proud of the diversity of our team and work hard to maintain a great culture in our office. We're proud to establish our presence as a top employer in the greater Atlanta area.”

The Atlanta Journal-Constitution's list is based solely on employee feedback gathered through a third-party survey administered by employee engagement technology firm Energage, LLC. The anonymous survey uniquely measures 15 drivers of engaged cultures that are critical to the success of any organization, including alignment, execution, and connection. This year, nearly 3,000 companies were nominated or asked to participate in the awards, and a total of 150 companies were included on this year's list, which represents industries including technology, automotive, education, retail, and banking.

Tyler's Duluth office is home to its civic services business unit and was established in 2009. Tyler has nearly 5,500 employees and 35 offices across the U.S. and Canada.

### **About Tyler Technologies, Inc.**

Tyler Technologies (NYSE: TYL) provides integrated software and technology services to the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other. By connecting data and processes across disparate systems, Tyler's solutions are transforming how clients gain actionable insights that solve problems in their communities. Tyler has more than 26,000 successful installations across more than 10,000 sites, with clients in all 50 states, Canada, the Caribbean, Australia, and other international locations. A financially strong company, Tyler has achieved double-digit revenue growth every quarter since 2012. It was also named to Forbes' "Best Midsize Employers" list in 2019 and recognized twice on its "Most Innovative Growth Companies" list.
