

Tyler Technologies Named to Dow Jones Sustainability Index North America

Tyler recognized as a top sustainability performer among the largest U.S. and Canadian companies in the S&P Global Broad Market Index

PLANO, Texas - [Tyler Technologies, Inc.](#) (NYSE: TYL) today announced the company has been named to the [Dow Jones Sustainability Index \(DJSI\) North America](#) in recognition of its commitment to sustainable business practices.

"We are pleased to be included on the DJSI for North America with scores that reflect Tyler's commitment to strong environmental, social, and governance practices," said Lynn Moore, Tyler's president and chief executive officer. "This recognition underscores Tyler's responsible and sustainable business practices to positively impact our employees, partners, clients and the communities they serve."

The Index is a widely recognized standard for measuring corporate environmental, social and governance (ESG) progress across industries. It provides information to investors and other stakeholders that is critical in understanding a company's long-term value. The results highlight that Tyler continues to be a leader, ranking in the 93rd percentile of all companies in the Software and Diversified IT Services industry. The index recognizes the top 20% of sustainability performers among the 600 largest U.S. and Canadian companies in the S&P Global Broad Market Index.

Created jointly by S&P Dow Jones Indices and SAM, the Dow Jones Sustainability Index family is a best-in-class benchmark for evaluating sustainable business practices. The DJSI Index applies a transparent, rules-based component selection process based on the companies' Total Sustainability Scores resulting from the annual S&P Global Corporate Sustainability Assessment (CSA). Only the top-ranked companies within each industry are selected for inclusion in the Dow Jones Sustainability Index family. This year, more than 10,000 publicly traded companies were invited to participate in the S&P Global CSA.

"We congratulate Tyler Technologies for being included in the DJSI for North America," said Manjit Jus, global head of ESG Research, S&P Global. "A DJSI distinction is a reflection of being a sustainability leader in your industry. The record number of companies participating in the 2021 S&P Global Corporate Sustainability Assessment is testament to the growing movement for ESG disclosure and transparency."

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) provides integrated software and technology services to the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other.
