NEWS RELEASE

Galaxy Executes One of the Largest Notional Bitcoin Transactions Ever

2025-07-25

NEW YORK, July 25, 2025 /CNW/ - **Galaxy Digital Inc.** (NASDAQ: GLXY) (TSX: GLXY), a global leader in digital assets and data center infrastructure, today announced the successful execution of one of the largest notional bitcoin transactions in the history of crypto on behalf of a client.

Galaxy completed the sale of more than 80,000 bitcoin—valued at over \$9 billion based on current market prices—for a Satoshi-era investor, representing one of the earliest and most significant exits from the digital asset market. The transaction was part of the investor's broader estate planning strategy.

About Galaxy

Galaxy Digital Inc. (NASDAQ/TSX: GLXY) is a global leader in digital assets and data center infrastructure, delivering solutions that accelerate progress in finance and artificial intelligence. Our digital assets platform offers institutional access to trading, advisory, asset management, staking, self-custody, and tokenization technology. In addition, we invest in and operate cutting-edge data center infrastructure to power AI and high-performance computing, meeting the growing demand for scalable energy and compute solutions in the U.S. The Company is headquartered in New York City, with offices across North America, Europe, the Middle East and Asia.
