Strong Community Bank Deposit Base

Serving consumers, businesses, municipalities and non-profits in Upstate New York

Total deposits were **\$5.34B**, up \$131.5MM, or 2.5%, from linked quarter-end, and down \$35.0MM, or 0.7%, from one year prior

- BaaS wind-down completed in 1Q26; no BaaS-related deposits remain on balance sheet

Granularity of community banking franchise benefits deposit portfolio

Lower-cost deposits from rural markets fund higher growth in metros markets

- Offering public deposit products to municipalities, including local governments and school districts, providing seasonal, lower-cost funding source, which made up 23% of total deposits at 3/31/26

Differentiated reciprocal deposit portfolio comprised of many long-tenured municipal and commercial customer relationships

- Through CDARS and ICS, we are able to meet the deposit needs of individual municipal and commercial customers requiring collateralization above the \$250,000 FDIC insurance limit.
- These product offerings in turn provide rates favorable to brokered deposits and further pricing benefit in a falling rate scenario.

Non-GAAP Reconciliations

In addition to results presented in accordance with U.S. generally accepted accounting principles (“GAAP”), this presentation contains certain non-GAAP financial measures. The Company believes that providing certain non-GAAP financial measures provides investors with information useful in understanding our financial performance, performance trends and financial position. Our management uses these measures for internal planning and forecasting purposes and we believe that our presentation and discussion, together with the accompanying reconciliations, allows investors, security analysts and other interested parties to view our performance and the factors and trends affecting our business in a manner similar to management. These non-GAAP measures should not be considered a substitute for GAAP measures and we strongly encourage investors to review our consolidated financial statements in their entirety and not to rely on any single financial measure to evaluate the Company. Non-GAAP financial measures have inherent limitations, are not uniformly applied and are not audited. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies’ non-GAAP financial measures having the same or similar names.
