## Insulet's Omnipod® 5 App for iPhone with Dexcom G7 Integration Now Available to all U.S. Users

2025-06-10

Dexcom G7 sensor integration offers more customers the ability to manage diabetes from their iPhone, for additional convenience

ACTON, Mass.--(BUSINESS WIRE)-- Insulet Corporation (NASDAQ: PODD), the global leader in **tubeless insulin pump** technology, is excited to announce that the Omnipod® 5 App for iPhone is now compatible with the Dexcom G7 Continuous Glucose Monitoring (CGM) System.

With this latest integration, the Omnipod 5 Automated Insulin Delivery (AID) System combines the benefits of tubeless AID and Dexcom's latest diabetes management technology, all conveniently controlled from an iPhone.

"This integration represents a major milestone in our commitment to providing innovative solutions for diabetes management," said Eric Benjamin, Insulet Executive Vice President, Chief Product and Customer Experience Officer. "With the addition of the Dexcom G7 sensor to the Omnipod 5 App for iPhone, our U.S. customers have more choice with fewer devices to keep track of, making it easier than ever to manage their diabetes."

Omnipod 5 proactively adjusts insulin delivery every five minutes, autocorrects for high glucose, and helps protect against lows\*, day and night—even while you sleep. The Omnipod 5 App for iPhone, available in the U.S., offers full control of Omnipod 5 including the ability to bolus, change a Pod, adjust settings, access valuable insights, and more.

"The Omnipod 5 App for iPhone means less stress with better control! Plus, I feel like I lost a few pounds, since I don't have to carry around a Controller anymore," joked Garrett Vogel, a nationally syndicated radio personality

who has lived with type 1 diabetes for 30 years and has been using Omnipod 5 since 2023. Garrett was previously using Omnipod 5 with Dexcom G7 and the Controller. "I thought bolusing with the Controller was easy, but the Omnipod 5 App on my iPhone makes it even easier. I love it."

The Omnipod 5 App with Dexcom G7 and Dexcom G6 compatibility is now available for download on the Apple App Store.

Insulet remains dedicated to advancing diabetes technology and improving the lives of people with diabetes. For more information, please visit <https://www.omnipod.com/innovation>.

## About Insulet Corporation:

Insulet Corporation (NASDAQ: PODD), headquartered in Massachusetts, is an innovative medical device company dedicated to simplifying life for people with diabetes and other conditions through its Omnipod product platform. The Omnipod Insulin Management System provides a unique alternative to traditional insulin delivery methods. With its simple, wearable design, the tubeless disposable Pod provides up to three days of non-stop insulin delivery, without the need to see or handle a needle. Insulet's flagship innovation, the Omnipod 5 Automated Insulin Delivery System, integrates with a continuous glucose monitor to manage blood sugar with no multiple daily injections, zero fingersticks, and can be controlled by a compatible personal smartphone in the U.S. or by the Omnipod 5 Controller. Insulet also leverages the unique design of its Pod by tailoring its Omnipod technology platform for the delivery of non-insulin subcutaneous drugs across other therapeutic areas.
