

Earnings Call 3Q 2023

October 27, 2023

DISCLAIMER

Statements included in this communication, which are not historical in nature are intended to be, and are hereby identified as, forward-looking statements for purposes of the safe harbor provided by Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are based on, among other things, management's beliefs, assumptions, current expectations, estimates and projections about the financial services industry, the economy and SouthState. Words and phrases such as "may," "approximately," "continue," "should," "expects," "projects," "anticipates," "is likely," "look ahead," "look forward," "believes," "will," "intends," "estimates," "strategy," "plan," "could," "potential," "possible" and variations of such words and similar expressions are intended to identify such forward-looking statements.

SouthState cautions readers that forward-looking statements are subject to certain risks, uncertainties and assumptions that are difficult to predict with regard to, among other things, timing, extent, likelihood and degree of occurrence, which could cause actual results to differ materially from anticipated results. Such risks, uncertainties and assumptions, include, among others, the following: (1) economic downturn risk, potentially resulting in deterioration in the credit markets, inflation, greater than expected noninterest expenses, excessive loan losses and other negative consequences, which risks could be exacerbated by potential negative economic developments resulting from federal spending cuts and/or one or more federal budget-related impasses or actions; (2) interest rate risk primarily resulting from the interest rate environment, the number and pace of interest rate increases, and their impact on the Bank's earnings, including from the correspondent and mortgage divisions, housing demand, the market value of the Bank's loan and securities portfolios, and the market value of SouthState's equity; (3) volatility in the financial services industry (including failures or rumors of failures of other depository institutions), along with actions taken by governmental agencies to address such turmoil, could affect the ability of depository institutions, including us, to attract and retain depositors and to borrow or raise capital (4) risks relating to the continued impact of the Covid19 pandemic on the Company, including to efficiencies and the control environment due to the changing work environment; (5) the impact of increasing digitization of the banking industry and movement of customers to on-line platforms, and the possible impact on the Bank's results of operations, customer base, expenses, suppliers and operations; (6) controls and procedures risk, including the potential failure or circumvention of our controls and procedures or failure to comply with regulations related to controls and procedures; (7) potential deterioration in real estate values; (8) the impact of competition with other financial institutions, including deposit and loan pricing pressures and the resulting impact, including as a result of compression to net interest margin; (9) risks relating to the ability to retain our culture and attract and retain qualified people; (10) credit risks associated with an obligor's failure to meet the terms of any contract with the Bank or otherwise fail to perform as agreed under the terms of any loan-related document; (11) risks related to the ability of the Company to pursue its strategic plans which depend upon certain growth goals in our lines of business; (12) liquidity risk affecting the Bank's ability to meet its obligations when they come due; (13) risks associated with an anticipated increase in SouthState's investment securities portfolio, including risks associated with acquiring and holding investment securities or potentially determining that the amount of investment securities SouthState desires to acquire are not available on terms acceptable to SouthState; (14) unexpected outflows of uninsured deposits may require us to sell investment securities at a loss; (15) the loss of value of our investment portfolio could negatively impact market perceptions of us and could lead to deposit withdrawals; (16) price risk focusing on changes in market factors that may affect the value of traded instruments in "mark-to-market" portfolios; (17) transaction risk arising from problems with service or product delivery; (18) compliance risk involving risk to earnings or capital resulting from violations of or nonconformance with laws, rules, regulations, prescribed practices, or ethical standards; (19) regulatory change risk resulting from new laws, rules, regulations, accounting principles, proscribed practices or ethical standards, including, without limitation, the possibility that regulatory agencies may require higher levels of capital above the current regulatory-mandated minimums and including the impact of special FDIC assessments, the Consumer Financial Protection Bureau regulations, and the possibility of changes in accounting standards, policies, principles and practices; (20) strategic risk resulting from adverse business decisions or improper implementation of business decisions; (21) reputation risk that adversely affects earnings or capital arising from negative public opinion including the effects of social media on market perceptions of us and banks generally; (22) cybersecurity risk related to the dependence of SouthState on internal computer systems and the technology of outside service providers, as well as the potential impacts of internal or external security breaches, which may subject the Company to potential business disruptions or financial losses resulting from deliberate attacks or unintentional events; (23) reputational and operational risks associated with environment, social and governance (ESG) matters, including the impact of recently passed state legislation and proposed federal and state regulatory guidance and regulation relating to climate change; (24) greater than expected noninterest expenses; (25) excessive loan losses; (26) potential deposit attrition, higher than expected costs, customer loss and business disruption associated with the Atlantic Capital integration, and potential difficulties in maintaining relationships with key personnel; (27) reputational risk and possible higher than estimated reduced revenue from announced changes in the Bank's consumer overdraft programs and other deposit products; (28) the risks of fluctuations in market prices for SouthState common stock that may or may not reflect economic condition or performance of SouthState; (29) the payment of dividends on SouthState common stock, which is subject to legal and regulatory limitations as well as the discretion of the board of directors of SouthState, SouthState's performance and other factors; (30) ownership dilution risk associated with potential acquisitions in which SouthState's stock may be issued as consideration for an acquired company; (31) operational, technological, cultural, regulatory, legal, credit and other risks associated with the exploration, consummation and integration of potential future acquisitions, whether involving stock or cash consideration; (32) major catastrophes such as hurricanes, tornados, earthquakes, floods or other natural or human disasters, including infectious disease outbreaks, and the related disruption to local, regional and global economic activity and financial markets, and the impact that any of the foregoing may have on SouthState and its customers and other constituencies; (33) geopolitical risk from terrorist activities and armed conflicts that may result in economic and supply disruptions, and loss of market and consumer confidence; and (34) other factors that may affect future results of SouthState, as disclosed in SouthState's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K, filed by SouthState with the U.S. Securities and Exchange Commission ("SEC") and available on the SEC's website at <http://www.sec.gov>, any of which could cause actual results to differ materially from future results expressed, implied or otherwise anticipated by such forward-looking statements.

All forward-looking statements speak only as of the date they are made and are based on information available at that time. SouthState does not undertake any obligation to update or otherwise revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by federal securities laws. As forward-looking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

The WHY To invest in the entrepreneurial spirit, pursue excellence and inspire a greater purpose.

The HOW
Core Values

Local Market Leadership

Our business model supports the unique character of the communities we serve and encourages decision making by the banker that is closest to the customer.

Long-Term Horizon

We think and act like owners and measure success over entire economic cycles. We prioritize soundness before short-term profitability and growth.

Remarkable Experiences

We will make our customers' lives better by anticipating their needs and responding with a sense of urgency. Each of us has the freedom, authority and responsibility to do the right thing for our customers.

Meaningful and Lasting Relationships

We communicate with candor and transparency. The relationship is more valuable than the transaction.

Greater Purpose

We enable our team members to pursue their ultimate purpose in life—their personal faith, their family, their service to community.
