Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Basis of Presentation

The accompanying unaudited Consolidated Financial Statements of TowneBank have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all of the disclosures and notes necessary for a complete presentation of financial position, results of operations, and cash flow activity required in accordance with GAAP. In the opinion of management, the financial statements reflect all adjustments of a normal, recurring nature that are necessary for a fair presentation for the periods presented as required by Regulation S-X, Rule 10-01, of the SEC. These statements should be read in conjunction with the Company's 2018 audited Consolidated Financial Statements and the 2018 Annual Report on Form 10-K. Results of operations for the three- and six- month periods ended June 30, 2019, are not necessarily indicative of the results of operations for the full year or any other interim periods.

Recent accounting pronouncements:

Accounting standards adopted in current year		
Standard	Summary of guidance	Effects on financial statements
Topic 350 - Intangibles - Goodwill and Other Subtopic 350 - 40 - Internal Use Software: Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That is a Service Contract ASU 2018 - 15 Issued August 2018	Aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include internal-use software licenses).	The Company adopted the standard effective April 1, 2019. We are applying the Standard on a prospective basis to all implementation costs incurred after the date of adoption. The adoption of the accounting standard did not have a material impact on the Company's Consolidated Financial Statements.
Topic 718 - Compensation - Stock Compensation: Improvements to Non-employee Share-Based Payment Accounting ASU 2018 - 07 Issued June 2018	Expands the scope of the Topic (which currently only includes share-based payments issued to employees) to include share-based payments issued to non-employees for goods and services. Substantially aligns the accounting for share-based payments to employees and non-employees. Supersedes Subtopic 505-50 - Equity - Equity-Based Payments to Non-Employees.	The Company adopted the standard effective January 1, 2019. The adoption of the accounting standard did not have a material impact on the Company's Consolidated Financial Statements.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounting standards adopted in current year		
Standard	Summary of guidance	Effects on financial statements
Topic 815 - Derivatives and Hedging ASU 2018 - 16 Issued October 2018	Permits the use of the Overnight Index Swap rate based on the Secured Overnight Financing Rate as a U.S. benchmark interest rate for hedge accounting purposes in addition to the U.S. Treasury rate, the LIBOR swap rate, the OIS rate based on the Fed Funds Effective Rate, and the Securities Industry and Financial Markets Association Municipal Swap Rate.	The Company adopted the standard effective January 1, 2019. The Company previously adopted the related ASU 2017-12, and the adoption of this guidance did not have a material impact on its Consolidated Financial Statements.
Topic 842 - Leases ASU 2016 - 02 Issued February 2016 Leases: Codification Improvements ASU 2018 - 10 ASU 2018 - 11 Issued July 2018 ASU 2018 - 20 Issued December 2018	ASU 2016 - 02 Issued in order to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under previous GAAP. Requires the lessee to recognize a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term on the balance sheet. ASU 2018 - 10 Narrows aspects of the guidance issued in ASU 2016 - 02. Provides clarification to the guidance and corrects the unintended application of the existing guidance. ASU 2018 - 11 Provides entities with an additional (and optional) transition method to adopt the new leases standard. Under this new transition method, an entity initially applies the new leases standard at the adoption date and recognizes a cumulative-effect adjustment to the opening balances of retained earnings in the period of adoption.	The Company adopted this standard January 1, 2019, applying the alternative transition method whereby comparative periods were not restated, and any cumulative effect adjustment to the opening balance of retained earnings would be recognized as of January 1, 2019. There was no cumulative effect adjustment recognized. The Company elected the ASU's package of three practical expedients, which allowed the Company to forego a reassessment of (1) whether any expired or existing contracts are, or contain, leases, (2) the lease classification for any expired or existing leases, and (3) the initial direct costs for any existing leases. The Company has implemented a lease management system to assist in accounting for all leases. The January 1 impact of adopting this standard was to record right-of-use assets totaling \$43.3 million and additional lease liabilities totaling \$45.8 million, based on the present value of expected remaining lease payments.

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounting standards not yet adopted		
Standard	Summary of guidance	Effects on financial statements
Topic 326 - Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments ASU 2016 - 13 Issued June 2016	Changes the accounting for credit losses to one based on expected losses from one based on incurred losses. In addition, the ASU modifies the impairment model for debt securities. Eliminates the probable recognition threshold for credit losses on financial assets measured at amortized cost. Requires those financial assets to be presented at the net amount expected to be collected (i.e., net of expected credit losses). Measurement of expected credit losses should be based on relevant information, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount.	Effective for interim and annual periods beginning after December 15, 2019. The Company has selected a third-party software solution to assist in the application of the standard, built a company-wide cross-discipline working group to oversee implementation of the standard, and engaged a nationally recognized accounting firm to assist management in implementation of the standard. The Company is currently focused on several areas, including the development of key accounting policies, identification of critical internal controls, and developing credit models. Model development was substantially completed during the second quarter of 2019, and implementation and validation is expected to be substantially completed during the third quarter of 2019. The Company expects to recognize a one-time cumulative effect adjustment to the allowance for loan losses as of the beginning of the first reporting period in which the standard is effective, but cannot yet determine the magnitude of any such one-time adjustment or the overall impact of the new guidance on the Consolidated Financial Statements.

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounting standards not yet adopted		
Standard	Summary of guidance	Effects on financial statements
Topic 350 - Intangibles - Goodwill and Other: Simplifying the Test for Goodwill Impairment ASU 2017 - 04 Issued January 2017	Simplifies goodwill impairment testing by eliminating the second step of the analysis under which the implied fair value of goodwill is determined as if the reporting unit were being acquired in a business combination. Requires the entity to instead compare the fair value of a reporting unit with its carrying amount and recognize an impairment charge for any amount by which the carrying amount exceeds the reporting unit's fair value, to the extent that the loss recognized does not exceed the amount of goodwill allocated to that reporting unit.	Effective for the Company on January 1, 2020. The guidance is to be applied on a prospective basis. Early adoption is permitted. The Company is currently evaluating the impact the pronouncement will have on its Consolidated Financial Statements, but does not expect the adoption of this guidance to have a material impact.
Topic 715 - Compensation - Retirement Benefits Subtopic 715 - 20 - Defined Benefit Plans - General: Disclosure Framework - Changes in the Disclosure Requirements for Defined Benefit Plans ASU 2018 - 14 Issued August 2018	Removes, adds, and clarifies certain required financial statement disclosures that apply to all employers who sponsor defined benefit pension or other postretirement plans.	Effective for fiscal years ending after December 15, 2020. Early adoption is permitted. The Company is currently evaluating the impact the pronouncement will have on its Consolidated Financial Statements, but does not expect the adoption of this guidance to have a material impact.

Note 2. Earnings per Share and Shareholders' Equity

Earnings per share

Basic earnings per share are computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share are determined by dividing net income available to common shareholders by the weighted average number of common shares outstanding, assuming all securities that could be converted to common stock have been converted or exercised.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table summarizes basic and diluted EPS calculations for the periods indicated:

(dollars in thousands, except per share data)

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2019	2018	2019	2018
Basic				
Net income available to common shareholders	\$ 34,638	\$ 34,804	\$ 66,047	\$ 59,510
Weighted-average common shares outstanding	72,044,817	71,787,980	72,018,719	70,393,628
Basic earnings per common share	\$ 0.48	\$ 0.48	\$ 0.92	\$ 0.84
Diluted				
Net income available to common shareholders, for diluted EPS	\$ 34,638	\$ 34,804	\$ 66,047	\$ 59,510
Weighted-average common shares outstanding	72,044,817	71,787,980	72,018,719	70,393,628
Effect of dilutive securities:				
Stock compensation plans (1)	100,783	161,610	103,748	157,909
Weighted-average diluted shares outstanding	72,145,600	71,949,590	72,122,467	70,551,537
Diluted earnings per common share	\$ 0.48	\$ 0.48	\$ 0.92	\$ 0.84

- (1) Shares underlying stock options and restricted stock totaling 6,328 and 18,273 were excluded from the computation of diluted EPS during the second quarters of 2019 and 2018, respectively, and 7,349 and 46,461 shares were excluded from the computation of diluted EPS during the six months ended June 30, 2019, and 2018, respectively, because their inclusion would be anti-dilutive.

Note 3. Mergers and Acquisitions

Straus, Itzkowitz & LeCompte Insurance Agency, Inc.: Effective January 1, 2019, the Company acquired SIL, an independent insurance agency, which was merged into the operations of Towne Insurance Agency, LLC, a wholly owned subsidiary of TowneBank. The acquisition was accounted for as a business combination under the acquisition method of accounting in accordance with ASC 805, *Business Combinations*, and, as such, the assets acquired and liabilities assumed in the transaction were recorded at their respective fair values as of the acquisition date. Such fair values were preliminary estimates and are subject to adjustment for up to one year after the merger date, or when additional information relative to the closing date fair values becomes available and such information is considered final, whichever is earlier. Primary areas of the preliminary allocation of the fair value of consideration transferred that are not yet finalized relate to the fair values of certain intangible assets acquired and the residual goodwill. The results of operations of the acquired business were included in the Company's Consolidated Statements of Income commencing January 1, 2019.

Middle Peninsula Insurance Agency, Inc.: Effective November 6, 2018, the Company acquired Middle Peninsula Insurance Agency, Inc., an independent insurance agency, which was merged into the operations of Towne Insurance Agency, LLC, a wholly owned subsidiary of TowneBank. The acquisition was accounted for as a business combination under the acquisition method of accounting in accordance with ASC 805, *Business Combinations*, and, as such, the assets acquired and liabilities assumed in the transaction were recorded at their respective fair values as of the acquisition date. Such fair values were preliminary estimates and are subject to adjustment for up to one year after the merger date, or when additional information relative to the closing date fair values becomes available and such information is considered final, whichever is earlier. Primary areas of the preliminary allocation of the fair value of consideration transferred that are not yet finalized relate to the fair values of certain intangible assets acquired and the residual goodwill. The results of operations of the acquired business were included in the Company's Consolidated Statements of Income commencing November 6, 2018.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Michael R. Bare, LLC: Effective May 15, 2018, the Company acquired Michael R. Bare, LLC, an independent insurance agency, which was merged into the operations of Towne Insurance Agency, LLC, a wholly owned subsidiary of TowneBank. The acquisition was accounted for as a business combination under the acquisition method of accounting in accordance with ASC 805, *Business Combinations*, and, as such, the assets acquired and liabilities assumed in the transaction were recorded at their respective fair values as of the acquisition date. Such fair values are preliminary estimates and are subject to adjustment for up to one year after the merger date, or when additional information relative to the closing date fair values becomes available and such information is considered final, whichever is earlier. Primary areas of the preliminary allocation of the fair value of consideration transferred that are not yet finalized relate to the fair values of certain intangible assets acquired and the residual goodwill. The results of operations of the acquired business were included in the Company's Consolidated Statements of Income commencing May 15, 2018.

Paragon Commercial Corporation: Effective January 26, 2018, TowneBank completed its acquisition of Paragon in an all-stock transaction. As part of the merger, Paragon merged with and into TB Acquisition, LLC, a wholly owned subsidiary of TowneBank, and Paragon Bank, a wholly owned subsidiary of Paragon, merged with and into TowneBank.

In the merger with Paragon, each outstanding share of Paragon common stock was converted into the right to receive 1.725 shares of TowneBank common stock. TowneBank issued an aggregate of 9.43 million shares of its common stock to former Paragon stockholders. Based on the closing price of TowneBank's common stock on January 26, 2018, of \$31.20 per share, the aggregate consideration paid to former Paragon common stockholders and holders of equity awards to acquire Paragon common stock was approximately \$294.07 million.

Paragon Bank was headquartered in Raleigh, North Carolina, and had three branches serving the metropolitan areas of Charlotte and Raleigh, North Carolina. TowneBank engaged in this transaction with the expectation that it would expand its community banking franchise into new geographic markets which it believes are demographically attractive and rapidly growing. The integration of Paragon Bank's deposit system and the conversion of Paragon Bank's branches to TowneBank's operating platform were completed over the weekend of January 27-28, 2018. Paragon Bank's three branches reopened January 29, 2018, as Paragon Bank, a division of TowneBank.

The Paragon merger has been accounted for under the acquisition method of accounting. Under this guidance, an entity is required to recognize the assets acquired, liabilities assumed, and consideration given at their fair value on the acquisition date. The assets and liabilities, both tangible and intangible, were recorded at their estimated fair values as of the January 26, 2018, merger date. Such fair values were preliminary estimates and were subject to adjustment for up to one year after the merger date, or when additional information relative to the closing date fair values became available and such information was considered final. The fair value of consideration exchanged exceeded the recognized amounts of the identifiable net assets and resulted in goodwill of \$149.80 million. Goodwill resulted from a combination of expected synergies, expansion in the metropolitan areas of Charlotte and Raleigh, North Carolina, with the addition of three branch locations, and growth opportunities. None of the goodwill recognized is expected to be deductible for income tax purposes.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table presents the estimated fair values of the assets acquired and liabilities assumed for Paragon as of January 26, 2018 (dollars in thousands, except per share data):

Fair value of assets acquired:	
Cash and cash equivalents	\$ 79,372
Securities available for sale	184,184
Loans held for investment	1,432,497
Bank premises and equipment	13,647
OREO	1,330
Core deposit intangible	21,520
Other assets	69,240
Total assets	<u>\$ 1,801,790</u>
Fair value of liabilities assumed:	
Deposits	\$ 1,248,636
Total borrowings	378,558
Other liabilities	30,326
Total liabilities	<u>\$ 1,657,520</u>
Net identifiable assets acquired	144,270
Goodwill	149,800
Net assets acquired	<u>\$ 294,070</u>
Purchase price:	
Company common shares issued	9,425,213
Purchase price per share of Company's common stock	<u>\$ 31.20</u>
Common stock issued	<u>\$ 294,067</u>
Cash exchanged for fractional shares	<u>3</u>
Fair value of total consideration transferred	<u>\$ 294,070</u>

The loans acquired in the Paragon merger were divided into loans with evidence of credit quality deterioration, which are accounted for under ASC 310-30 (purchased impaired), and loans that do not meet this criteria, which are accounted for under ASC 310-20 (purchased performing). As of January 26, 2018, the estimated fair value of the Paragon purchased performing loans acquired was \$1.42 billion, the related gross contractual amount was \$1.67 billion, and the estimated contractual cash flows not expected to be collected were \$12.51 million.

Total temporarily impaired securities	<u>\$ 321,357</u>	<u>\$ (3,383)</u>	<u>\$ 503,725</u>	<u>\$ (12,551)</u>	<u>\$ 825,082</u>	<u>\$ (15,934)</u>

U.S. Treasury obligations and direct obligations of U.S. government agencies

The Company's unrealized losses on obligations of U.S. government agencies were caused by interest rate fluctuations. At June 30, 2019, eight securities had an aggregate unrealized loss of \$0.24 million. The severity and duration of these unrealized losses will fluctuate with interest rates in the economy. Based on credit quality of the issuers, and because the Company does not intend to sell, and it is not more likely than not that the Company will be required to sell the securities before the recovery of their amortized cost basis, which may be maturity, the Company does not consider these investments other than temporarily impaired.

Municipal securities

The Company's unrealized losses on investments in municipal securities were caused by interest rate fluctuations. At June 30, 2019, five securities had an aggregate unrealized loss of \$0.01 million. The severity and duration of these unrealized losses will fluctuate with interest rates in the economy. Based on credit quality of the issuers, and because the Company does not intend to sell, and it is not more likely than not that the Company will be required to sell the securities before the recovery of their amortized cost basis, which may be maturity, the Company does not consider these investments other than temporarily impaired.

Government-Sponsored Enterprises mortgage-backed securities

The Company's unrealized losses on investments in federal agency MBSs were caused by interest rate fluctuations. At June 30, 2019, 38 securities had an aggregate unrealized loss of \$2.17 million. The severity and duration of the unrealized loss will fluctuate with interest rates in the economy. Because our mortgage-related securities are backed by FNMA and FHLMC, which are GSEs, or are collateralized by securities backed by these agencies, and because the Company does not intend to sell, and it is not more likely than not that the Company will be required to sell the securities before the recovery of their amortized cost basis, which may be maturity, the Company does not consider this investment other than temporarily impaired. There were no unrealized losses in the quarter on investments in GNMA, which is a U.S. government corporation that guarantees the timely payment of principal and interest on MBSs issued by GNMA lenders.

Trust preferred and other corporate securities

The Company's unrealized losses on investments in trust preferred and other corporate securities were caused by interest rate fluctuations. At June 30, 2019, three securities had an aggregate unrealized loss of \$0.09 million. The severity and duration of these unrealized losses will fluctuate with interest rates in the

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

economy. Based on credit quality of the issuers, and because the Company does not intend to sell, and it is not more likely than not that the Company will be required to sell the securities before the recovery of their amortized cost basis, which may be maturity, the Company does not consider these investments other than temporarily impaired.

Federal Home Loan Bank of Atlanta stock

The Company is required to maintain an investment in the capital stock of the FHLB. FHLB stock is stated at cost, since this is a restricted security without a readily determinable fair value. The Company had \$32.66 million and \$43.23 million of FHLB stock at June 30, 2019, and December 31, 2018, respectively. Based on the Company's review of the credit quality of the institution, the institution's ability to repurchase shares, and the Company's carrying value in the shares, the Company does not consider this investment other than temporarily impaired.

Note 5. Loans and Allowance for Loan Losses

The Company grants commercial, real estate, and consumer loans to customers throughout our lending area. Although the Company has a diversified loan portfolio, a substantial portion of the Company's debtors' abilities to honor their contracts is dependent upon the economic environment of the lending area.

A summary of loan balances by major classification (in thousands):

	June 30, 2019	December 31, 2018
Real estate loans		
1-4 family residential	\$ 1,638,547	\$ 1,626,896
Commercial	3,274,468	3,241,340
Construction and land development	1,107,762	1,067,239
Multifamily	267,528	260,987
Total real estate loans	6,288,305	6,196,462
Commercial and industrial business	1,523,607	1,510,364
Consumer loans and other	313,817	311,407
Loans, net of unearned income and deferred costs	\$ 8,125,729	\$ 8,018,233

Allowance for loan losses

The total allowance reflects management's estimate of loan losses inherent in the loan portfolio at the balance sheet date. While portions of the allowance are attributed to specific portfolio segments, the entire allowance is available to absorb credit losses inherent in the total loan portfolio. The Company considers the allowance for loan losses of \$54.53 million adequate to cover estimated loan losses inherent in the loan portfolio at June 30, 2019.

Loans acquired in a transfer, including business combinations, where there is evidence of credit deterioration since origination and it is probable at the date of acquisition that we will not collect all contractually required principal and interest payments, are accounted for as purchased impaired loans. Purchased impaired loans are initially recorded at fair value, which includes estimated future credit losses expected to be incurred over the life of the loan. Accordingly, the historical allowance for credit losses related to these loans is not carried over.

Accounting for purchased impaired loans involves estimating fair value, at acquisition, using the principal and interest cash flows expected to be collected, discounted at the prevailing market rate of interest. The excess of cash flows expected to be collected over the estimated fair value at acquisition date is referred to as the accretable yield and is recognized in interest income using an effective yield method over the remaining life of the loans. The difference between contractually required payments and the cash flows expected to be collected at acquisition, considering the impact of prepayments, is referred to as the nonaccretable difference. Any decreases in cash flows expected to be collected (other than due to decreases in interest rate indices and changes in prepayment assumptions) will be charged to the provision for loan losses, resulting in an increase to the allowance for loan losses.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

Other changes, net	1,110	211
Balance at end of period	<u>\$ 35,279</u>	<u>\$ 35,637</u>

Portfolio quality indicators

The Company's portfolio grading analysis estimates the capability of the borrower to repay contractual obligations of the loan agreements as scheduled or at all. The Company's internal credit risk grading system is based on numerous factors, including management's experiences with similarly graded loans. Credit risk grades are refreshed semi-annually as they become available, at which time management analyzes the resulting scores, as well as other external statistics and factors, to track loan performance.

The Company's internally assigned grades are as follows:

- **Pass** – Several pass credit grades comprise loans in this category, which are assigned based on varying levels of risk, ranging from credits that are secured by cash or marketable securities, to management attention credits, which have all the characteristics of an acceptable credit risk but warrant more than the normal level of monitoring.
- **Special Mention** – Loans in this category are considered to have potential weaknesses that deserve management's attention. The borrower's ability to repay from the primary (intended) sources is currently adequate, but threatened by potential weaknesses which may, if not corrected, result in the deterioration of repayment prospects for the asset or in the Company's credit loss at some future date.
- **Substandard** – Loans in this category are considered to have increased credit risk and servicing needs and generally require that the Company follow their performance very closely. The borrower's ability to repay is threatened by a clearly defined weakness that jeopardizes ultimate repayment of the loan.
- **Doubtful** – Loans in this category are considered to be doubtful or a loss to the Company in terms of principal and interest repayment. The borrower's ability to repay in full, on the basis of currently existing facts, conditions, and values, is generally highly questionable and improbable.

PART I. FINANCIAL INFORMATION

Age analysis of past-due financing receivables by class

The following table includes an aging analysis of the recorded investment of past-due financing receivables as of June 30, 2019, and December 31, 2018. Also included are loans that are 90 days or more past due as to interest and principal and still accruing because they are (1) well-secured and in the process of collection, or (2) real estate loans or loans exempt under regulatory rules from being classified as nonaccrual. Purchased impaired loans are included in the aging schedule, but are excluded from the disclosure of accruing loans more than 90 days past due because they are considered to be accruing due to the existence of the accretable yield and not based on consideration given to contractual interest payments (in thousands):

Impaired loans

Management considers a loan to be impaired when, based on current information and events, it is determined that the Company will not be able to collect all amounts due according to the loan contract, including scheduled interest payments. When management identifies a loan as impaired, the impairment is measured based on the present value of expected future cash flows, discounted at the loan's effective interest rate, except when the sole (remaining) source of repayment for the loan is the operation or liquidation of the collateral. In these cases, management uses the current fair value of the collateral, less selling costs when foreclosure is probable, instead of discounted cash flows. If management determines that the value of the impaired loan is less than the recorded investment in the loan (net of previous charge-offs, deferred loan fees or costs, and unamortized premium or discount), impairment is recognized as a specific component to be provided for in the allowance for loan losses, or the impaired balance on collateral-dependent loans is charged off if it is determined that such amount represents a confirmed loss. Smaller balance loans (under \$1,000,000) are generally not individually assessed for impairment, but are evaluated collectively.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

When the ultimate collectability of the total principal of an impaired loan is in doubt and the loan is on nonaccrual status, all payments are applied to principal, under the cost-recovery method. When the ultimate collectability of the total principal of an impaired loan is not in doubt and the loan is on nonaccrual status, contractual interest is credited to interest income when received, under the cash basis method.

Unearned loan income was \$7.68 million in excess of deferred loan costs at June 30, 2019, \$6.07 million at June 30, 2018, and \$7.06 million at December 31, 2018. There were \$18.20 million, \$3.92 million, and \$4.75 million in nonaccrual loans at June 30, 2019, June 30, 2018, and December 31, 2018, respectively. The Company would have earned \$210,000 in second quarter 2019 if interest on the loans had been accrued.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following tables include the recorded investment and unpaid principal balances for impaired financing receivables, excluding purchased impaired loans, with the associated allowance amount, if applicable, as of June 30, 2019, and December 31, 2018 (in thousands):

	Unpaid	Recorded	Specific	Average	YTD

Troubled debt restructurings

In order to maximize the collection of loan balances, the Company evaluates troubled loan accounts on a case-by-case basis to determine if a loan modification would be appropriate. Loan modifications may be utilized when there is a reasonable chance that an appropriate modification would allow our clients to continue servicing the debt. A loan is a TDR if both of the following exist: (1) a creditor has granted a concession to the debtor, and (2) the debtor is experiencing financial difficulties. Nonaccruing loans that are modified can be placed back on accrual status when both principal and interest are current, there is a sustained repayment performance of six months or greater, and it is probable that we will be able to collect all amounts due (both principal and interest) according to the terms of the loan agreement. All restructured

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

loans are considered impaired in the calendar year of restructuring. In subsequent years, a restructured loan may cease being classified as impaired if the loan was modified at a market rate and has performed according to the modified terms for at least six months.

For the three and six months ended June 30, 2019, there were two loans modified in TDRs. For the three and six months ended June 30, 2018, there were no loans modified in TDRs. No loans restructured in the last 12 months have subsequently defaulted. Restructured loans generally include terms to reduce the interest rate and extend payment terms. The following table shows the loans modified in TDRs for the three and six months ended June 30, 2019 (in thousands, except number of loans):

	Three Months Ended June 30, 2019			Six Months Ended June 30, 2019		
	Number of Loans	Pre-Modification Recorded Balance	Post-Modification Recorded Balance	Number of Loans	Pre-Modification Recorded Balance	Post-Modification Recorded Balance
Construction and land development	1	\$ 90	\$ 90	1	\$ 90	\$ 90
1-4 family residential real estate	1	2,852	2,852	1	2,852	2,852
Total	2	\$ 2,942	\$ 2,942	2	\$ 2,942	\$ 2,942

The specific reserve portion of the allowance for loan losses on TDRs is determined by discounting the restructured cash flows at the original effective rate of the loan before modification, or is based on the underlying collateral value less costs to sell, if repayment of the loan is collateral-dependent. If the resulting amount is less than the recorded book value, the Company either establishes a valuation allowance as a component of the allowance for loan losses or charges off the impaired balance if it determines that such amount is a confirmed loss. This method is used consistently for all segments of the portfolio. At June 30, 2019, the large majority of impaired loans have been determined to be collateral-dependent.

Nonaccrual loans

The Company generally places loans on nonaccrual status when the full and timely collection of interest or principal becomes uncertain, part of the principal balance has been charged off and no restructuring has occurred, or the loans reach a certain number of days past due. Commercial loans are placed on nonaccrual status when full collection of principal and interest becomes doubtful, or when any portion of principal or interest becomes 90 days past due, whichever occurs first, unless the debt is both well-secured and in the process of collection. Residential mortgage loans and other consumer loans are placed on nonaccrual status when full collection of principal and interest becomes doubtful, or when any portion of principal or interest becomes 120 days past due, whichever occurs first, unless the debt is both well-secured and in the process of collection. When loans are placed on nonaccrual status, interest receivable is reversed against interest income recognized in the current period, and any prior-year unpaid interest is charged off against the allowance for loan losses. Interest payments received thereafter are applied as a reduction of the remaining principal balance as long as doubt exists as to the ultimate collection of the principal. Loans are removed from nonaccrual status when they become current as to both principal and interest and when the collection of principal or interest is no longer doubtful. Similarly, mortgage loans and other consumer loans are also placed on nonaccrual status when full collection of principal and interest becomes doubtful, or they become delinquent for a specified period of time.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 6. Other Real Estate Owned

The table below presents a summary of activity related to OREO for the three- and six-month periods ended June 30, 2019 and 2018 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Beginning balance	\$ 19,294	\$ 23,984	\$ 19,416	\$ 23,288
Additions and capital improvements	281	372	1,088	803
Paragon merger	—	—	—	2,454
Sales	(3,474)	(2,305)	(4,296)	(4,363)
Net change in valuation allowance	—	—	—	(57)
Gain (loss) on sale and write-downs, net	(74)	336	(181)	262
Ending balance	<u>\$ 16,027</u>	<u>\$ 22,387</u>	<u>\$ 16,027</u>	<u>\$ 22,387</u>

As of June 30, 2019, the Company's recorded investment in OREO collateralized by residential real estate was \$1.77 million. As of June 30, 2019, the Company's recorded investment in mortgage loans collateralized by residential real estate that are in the process of foreclosure was \$1.41 million.

Note 7. Leases

We lease certain office space, land, and equipment. These leases were all classified as operating leases. Leases with an initial term of 12 months or less are not recorded on our Consolidated Balance Sheets; we recognize lease expenses for these leases over the lease term. Certain leases include one or more options to renew, with renewal terms that can extend the lease term up to 15 years. The exercise of lease renewal options is at our sole discretion. When it is reasonably certain that we will exercise our option to renew or extend the lease term, that option is included in estimating the value of the right-of-use asset and lease liability.

At June 30, 2019, we did not have any leases that had not yet commenced for which we had created a right-of-use asset and a lease liability. For our operating leases we have elected the practical expedient of not separating lease components from non-lease components, and instead account for each separate lease component and the non-lease components associated with that lease as a single lease component. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants. Most of our lease agreements include periodic rate adjustments for inflation. The depreciable life of assets and leasehold improvements are limited to the expected lease term.

(1) The Company rents space for various financial centers from companies associated with its directors.

Note 8. Segment Reporting

The Company has three reportable segments: Banking, Realty, and Insurance. The Banking segment provides loan and deposit services to retail and commercial customers throughout Richmond, Virginia, the Greater Hampton Roads area in southeastern Virginia, northeastern North Carolina, and the Greenville, Raleigh, and Charlotte metropolitan areas in North Carolina. The Realty segment provides residential real estate services, resort property management, originations of a variety of mortgage loans, and commercial and residential title insurance. Mortgage loans are originated and sold principally in the secondary market through purchase commitments from investors. The Insurance segment provides full-service commercial and retail insurance, employee benefit services, and travel insurance.

All the segments are service-based. The Banking segment offers a distribution and referral network for the Realty and Insurance segments, and the Realty and Insurance divisions offer a similar network for the Banking segment, due largely to overlapping geographic markets. A major distinction is the source of income. The Realty and Insurance segments are fee-based, while the Banking segment is driven principally by net interest income.

Segment profit and loss is measured by net income after income tax. Inter-segment transactions are recorded at cost and eliminated as part of the consolidation process. Because of the interrelationships of the various segments, the information presented is not indicative of how the segments would perform if they operated as independent entities.

PART I. FINANCIAL INFORMATION**Item 1. Financial Statements****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Note 9. Commitments and Contingencies**

Commitments to extend credit are agreements to lend to customers, provided there are no violations of any conditions set forth in the contracts. Commitments are evaluated on a case-by-case basis based on the customer's creditworthiness. They tend to have fixed expiration dates and may expire without being completely utilized. Therefore, total commitment amounts may not necessarily represent future cash requirements. At June 30, 2019, the amounts of off-balance-sheet commitments to extend credit were \$2.90 billion.

Standby letters of credit are written conditional commitments issued by us to guarantee the performance of customers to third parties. The credit risk involved is similar to the risk involved in extending loans to customers. At June 30, 2019, standby letters of credit and financial guarantees were \$134.0 million.

Additionally, the Company had \$1.12 billion in mortgage loans sold to investors with estimated recourse and warranty provisions totaling \$40.55 million as of June 30, 2019.

Note 10. Goodwill and Other Intangibles

Goodwill and intangible assets with an indefinite life are subject to impairment testing at least annually, or more often if events or circumstances suggest potential impairment. Other acquired intangible assets determined to have a finite life are amortized over their estimated useful life in a manner that best reflects the economic benefits of the intangible asset. Intangible assets with a finite life are periodically reviewed for other than temporary impairment. See *Note 1 – Summary of Significant Accounting Policies* and *Note 7 – Goodwill and Intangible Assets* of the 2018 Annual Report to Stockholders for more information on the Company's goodwill and other intangibles. The following table presents the gross carrying amount and accumulated amortization for the Company's intangible assets as of the dates indicated (in thousands):

	June 30, 2019		December 31, 2018	
	Carrying Amount	Accumulated Amortization	Carrying Amount	Accumulated Amortization
Core deposit intangible	\$ 31,339	\$ 12,454	\$ 31,339	\$ 9,773
Non-compete agreements	2,010	1,193	1,910	969
Customer lists	61,830	27,752	55,985	24,351
Total intangible assets subject to amortization	95,179	41,399	89,234	35,093
Trade name	1,380	—	1,380	—
Contractual agreements	3,231	—	3,231	—
Total intangible assets not subject to amortization	4,611	—	4,611	—
Total intangible assets	\$ 99,790	\$ 41,399	\$ 93,845	\$ 35,093

Amortization expense for intangible assets was \$3.11 million and \$3.00 million for the three-month periods, and \$6.31 million and \$5.59 million for the six-month periods, ended June 30, 2019 and 2018, respectively.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Changes in the net carrying amount of goodwill related to each of the Company's segments since December 31, 2018, are as follows (in thousands):

	Banking	Realty	Insurance	Consolidated Totals
Balance, December 31, 2018	\$ 344,638	\$ 27,688	\$ 61,332	\$ 433,658
Additions to goodwill	—	—	9,168	9,168
Other adjustments	75	(20)	—	55
Balance, June 30, 2019	\$ 344,713	\$ 27,668	\$ 70,500	\$ 442,881

Note 11. Bank-Owned Life Insurance Policies

The total carrying amount of BOLI as of June 30, 2019, was \$240.62 million. The Company had \$233.68 million and \$237.37 million of BOLI as of June 30, 2018, and December 31, 2018, respectively. The Company recognized BOLI income, included in other noninterest income, of \$1.64 million and \$1.63 million for the three-month periods, and \$3.23 million and \$3.17 million for the six-month periods, ended June 30, 2019 and 2018, respectively.

Note 12. Postretirement Benefits

The following table sets forth the Company's periodic postretirement benefit cost for the interim period identified (in thousands):

	SERP		Other Postretirement Benefits	
	Three Months Ended June 30,		Three Months Ended June 30,

(b) For additional information about retirement plans, refer to Note 12.

Note 14. Variable Interest Entities

A VIE is an entity that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that are unable to make significant decisions about its activities, or (3) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns as generated by its operations. If any of these characteristics are present, the entity is subject to a variable interest consolidation model, and consolidation is based on variable interests, not on ownership of the entity's outstanding voting stock. Variable interests are defined as contractual, ownership, or other monetary interests in an entity that change with fluctuations in the entity's

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

net asset value. The primary beneficiary consolidates the VIE. The primary beneficiary is the entity that has (1) the power to direct the activities of a VIE which most significantly impact the entity's economic performance, and (2) the obligation to absorb losses of the entity which could potentially be significant to the VIE, or the right to receive benefits from the entity which could potentially be significant to the VIE. The Company reviews all significant interests in the VIEs it is involved with, including the amounts and types of financial and other support, including equity investments, debt financing, and guarantees. The Company also considers the activities of the VIEs that most significantly impact the VIEs' economic performance and whether it has control over those activities.

Low income housing tax credit partnerships

As part of its community reinvestment initiatives, the Company invests within its footprint in multi-family affordable housing developments as a limited partner. The Company receives tax credits for its partnership investments. The Company has determined that these partnerships meet the definition of a VIE and are evaluated for the purpose of determining whether the Company is the primary beneficiary.

For each of the partnerships, the Company acts strictly in a limited partnership capacity. The Company has determined that it is not the primary beneficiary of these partnerships because the general partner of each limited partnership has both the power to direct the activities that most significantly affect the performance of each partnership and the obligation to absorb losses or the right to receive benefits that could be significant to the entities. The Company accounts for its limited partner interests in accordance with the accounting guidance for investments in affordable housing projects. Partnership assets of \$191.91 million and \$151.84 million were not included in the Consolidated Balance Sheets at June 30, 2019, and December 31, 2018, respectively. These limited partner interests had carrying values of \$51.67 million and \$33.03 million at June 30, 2019, and December 31, 2018, respectively, and are recorded in other assets on the Company's Consolidated Balance Sheets. The Company's maximum exposure to loss for these limited partner investments totaled \$54.22 million, \$31.04 million, and \$42.34 million at June 30, 2019, June 30, 2018, and December 31, 2018, respectively. The Company's maximum exposure to loss would result from the loss of its limited partner investments, along with \$2.55 million of loans to the entities at June 30, 2019. As of June 30, 2019, the Company had \$36.90 million in funding commitments that are dependent on certain contractual milestones and \$27.95 million in loans, unfunded short-term construction loans, or letters of credit commitments. For the three- and six-month periods ended June 30, 2019, tax benefits totaling \$0.29 million and \$0.34 million, net of amortization expenses of \$1.34 million and \$2.69 million, respectively, were recognized as a component of income tax expense.

Note 15. Fair Value Disclosures

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principle or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. A three-level valuation hierarchy was established for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The three levels are defined as follows:

- Level 1** Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments, and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data.
- Level 3** Unobservable inputs that are supported by little or no market activity and which are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of valuation methodologies used for instruments measured at fair value on a recurring basis.

Securities available for sale: Fair values are based on published market prices or dealer quotes. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Derivative financial instruments: Interest rate lock commitments, related to the origination of mortgage loans held for sale, are recorded at estimated fair value based on the value of the underlying loan, which in turn is based on quoted prices for similar loans in the secondary market. However, this value is adjusted by a factor which considers the likelihood that the loan in a lock position will ultimately close. This factor, the fall-out rate, is derived from the Company's internal data and is adjusted using significant management judgment. The fall-out rate is largely dependent on the processing stage that a loan is currently in and the change in prevailing interest rates from the time of the rate lock. As such, interest rate lock commitments are classified as recurring Level 3. For the three-month periods ended June 30, 2019 and 2018, and the year ended December 31, 2018, the Company used a weighted average fall-out rate of 14.90%.

To mitigate the effect of the interest rate risk inherent in providing rate lock commitments to borrowers, the Company enters into either a forward sales contract to sell loans to investors when using best efforts or a TBA mortgage-backed security under mandatory delivery. The forward sales contracts lock in a price for the sale of loans with similar characteristics to the specific rate lock commitments. The Company has not formally designated these derivatives as a qualifying hedge relationship; accordingly, changes to fair value are recorded to earnings each period. These valuations fall into a Level 2 category.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table presents the recorded amount of assets and liabilities measured at fair value on a recurring basis as of June 30, 2019, and December 31, 2018 (in thousands):

	June 30, 2019			
	Level 1	Level 2	Level 3	Total
U.S. agency securities	\$ —	\$ 261,960	\$ —	\$ 261,960
U.S. Treasury notes	—	2,241	—	2,241
Municipal securities	—	167,466	—	167,466
Mortgage-backed securities issued by GSEs	—	785,355	—	785,355
Trust preferred and other corporate securities	—	43,799	—	43,799
Other equity securities	—	5,396	—	5,396
Derivative assets	—	3,768	2,920	6,688
Derivative liabilities	—	3,782	—	3,782

	December 31, 2018			
	Level 1	Level 2	Level 3	Total

U.S. Treasury notes	—	1,246	—	1,246
Municipal securities	—	87,308	—	87,308
Mortgage-backed securities issued by GSEs	—	617,251	—	617,251
Trust preferred and other corporate securities	—	30,992	—	30,992
Other equity securities	—	4,797	—	4,797
Derivative assets	—	1,996	1,200	3,196
Derivative liabilities	—	1,507	—	1,507

The Company may be required, from time to time, to measure certain assets at fair value on a nonrecurring basis in accordance with GAAP. These adjustments to fair value usually result from application of lower-of-cost-or-market accounting or write-downs of individual assets. For assets measured at fair value on a nonrecurring basis that were still held in the balance sheet at quarter-end, the following table provides the level of valuation assumptions used to determine each adjustment and the carrying value of the related assets at June 30, 2019, and December 31, 2018 (in thousands):

June 30, 2019	Level 1	Level 2	Level 3	Fair Value
Impaired loans	\$ —	\$ —	\$ 4,024	\$ 4,024
Other real estate owned and other nonperforming assets	—	—	16,027	16,027
December 31, 2018	Level 1	Level 2	Level 3	Fair Value
Impaired loans	\$ —	\$ —	\$ 5,896	\$ 5,896
Other real estate owned and other nonperforming assets	—	—	19,416	19,416

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following is a description of valuation methodologies used for assets measured on a nonrecurring basis.

Loans: Impaired loans for which repayment of the loan is expected to be provided solely by the value of the underlying collateral are considered collateral-dependent and are valued based on the fair value of such collateral. Collateral values are estimated using inputs based on observable market data or inputs based on customized discounting criteria. In cases where such inputs were unobservable, specifically, discounts applied to appraisal values to adjust such values to current market conditions or to reflect net realizable value, the impaired loan balance is reflected within Level 3 of the hierarchy. These discounts ranged from 10.14% to 15.72%, with a weighted average of 13.10%.

Loans held for sale: Loans held for sale are carried at the lower of cost or estimated fair value. Fair values of loans held for sale are based on commitments on hand from investors or, if commitments have not yet been obtained, prevailing market rates.

Other real estate owned and other nonperforming assets: The fair value of foreclosed property is measured at fair value on a nonrecurring basis (upon initial recognition or subsequent impairment) and is classified within Level 3 of the valuation hierarchy. When transferred from the loan portfolio, other real estate is adjusted to fair value less estimated selling costs and is subsequently carried at the lower of carrying value or fair value less estimated selling costs. The fair value is generally determined using an external appraisal process and is discounted based on internal criteria when deemed necessary.

The levels within the fair value hierarchy and the estimated fair values of our financial instruments required to be disclosed under ASC 825, *Financial Instruments*, as of June 30, 2019, and December 31, 2018, are as follows (in thousands):

June 30, 2019	Carrying Value	Estimated Fair Value	Level 1	Level 2	Level 3

Note 16. Derivative Instruments and Hedging Activities

The Company enters into rate lock commitments with its mortgage customers. The Company is also a party to forward mortgage loan sales contracts to sell loans servicing-released and sales of TBA MBSs. When the interest rate is locked with the borrower, the rate lock commitment, forward sale agreement, and mortgage-backed security position are undesignated derivatives and marked to fair value through earnings. The fair value of the rate lock derivative is based on quoted prices for similar loans in the secondary market adjusted by a factor which considers the likelihood that the loan in a lock position will ultimately close. Both the rate lock commitment and the corresponding forward sales contracts are considered derivatives, but are not accounted for using hedge accounting. As such, changes in the estimated fair value of the derivatives during the commitment period are recorded in current earnings and included in net residential mortgage banking income in the Consolidated Statements of Income.

We sell mortgage loans under both "mandatory" and "best efforts" delivery programs. Under the mandatory delivery system, loans with interest rate locks with respective borrowers are paired with the sales of TBA MBSs bearing similar attributes. We commit to deliver loans to an investor at an agreed-upon price upon the closing of such loans. This differs from "best efforts" delivery transactions, which set the sale price with the investor on a loan-by-loan basis at the time each loan is locked with the respective borrower.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table reflects the amount and market value of mortgage banking derivatives included in the Consolidated Balance Sheets as of the dates indicated (in thousands):

	June 30, 2019		December 31, 2018	
	Notional Amount	Fair Value	Notional Amount	Fair Value
Included in other assets:				
Forward contracts related to interest rate lock commitments and mortgage loans held for sale	\$ 499,002	\$ 3,732	\$ 165,388	\$ 1,996

The following table indicates the gain or loss recognized in income on derivatives for the periods presented (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2019	2018	2019	2018
Interest rate lock commitments	\$ 855	\$ (543)	\$ 1,720	\$ 802
Forward sales contracts	445	296	1,310	1,054
	\$ 1,300	\$ (247)	\$ 3,030	\$ 1,856

Note 17. Revenue

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This ASU replaces nearly all previous GAAP revenue recognition guidance. The standard prescribes a five-step model for recognizing revenue, and requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. On January 1, 2018, the Company adopted the standard using the modified retrospective method for all contracts.

The ASU requires the disaggregation of revenue from contracts with customers into categories that show how economic factors affect the nature, timing, and uncertainty of revenue and cash flows. Suggested categories of disaggregation included but were not limited to: (1) type of good or service, (2) geographical region, (3) market or type of customer, (4) type of contract, (5) contract duration, (6) timing of the transfer

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

of goods or services, and (7) sales channels. The Company disaggregates revenue from contracts by major product line, a type of good or service.

The following table presents certain selected financial information for the periods indicated (dollars in thousands):

Revenue from Contracts with Customers:	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Investment management income

Total	\$ 8,843	\$ 6,910	\$ 18,111	\$ 17,340

The Company had no material contract assets or contract liabilities recorded on the Consolidated Balance Sheets as of June 30, 2019.

This disclosure includes only revenue from contracts with third-party customers. See Note 8 for additional information regarding other revenue streams, primarily from revenue between the Company's consolidated subsidiaries and lines of business, in addition to those included in the table above.

Note 18. Borrowings

The Company has short-term borrowings for terms under one year consisting of REPOs and FHLB advances. FHLB advances are for various terms and are secured by a blanket lien on residential mortgages and other real estate secured loans. All REPOs are overnight short-term investments and are not insured by the FDIC. Securities pledged as collateral under these REPO financing arrangements cannot be sold or repledged by the secured party and, therefore, are accounted for as a secured borrowing. Due to the overnight, short-term nature of REPOs, potential risk due to a decline in the value of the pledged collateral is low. Collateral pledging requirements with REPOs are monitored daily.

On July 17, 2017, the Company issued \$250.0 million of fixed-to-floating rate subordinated notes due July 30, 2027, in a public offering. The Company received \$247.07 million in net proceeds after deducting discounts and issuance costs. The subordinated notes accrue interest at a fixed rate of 4.50% for the first five years until July 30, 2022. From and including this date and for the remaining five years of the subordinated notes' term, interest will accrue at a floating rate of three-month LIBOR plus 2.55%. The Company may

PART I. FINANCIAL INFORMATION

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to assist readers in understanding and evaluating our consolidated results of operations and financial condition. The following should be read in conjunction with our 2018 audited Consolidated Financial Statements included in our 2018 Annual Report to Stockholders and our 2018 Annual Report on Form 10-K. The financial statements contained in this Form 10-Q have been subject to a review by Dixon Hughes Goodman LLP, independent certified public accountants, as described in their report included as Exhibit 99.

Forward-Looking Statements. *This quarterly report on Form 10-Q contains certain forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not historical facts, but instead represent only the beliefs, expectations, or opinions of TowneBank and its management regarding future events, many of which, by their nature, are inherently uncertain. Forward-looking statements may be identified by the use of such words as: "believe," "expect," "anticipate," "intend," "plan," "estimate," or words of similar meaning, or future or conditional terms, such as "will," "would," "should," "could," "may," "likely," "probably," or "possibly." These statements may address issues that involve significant risks, uncertainties, estimates, and assumptions made by management. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include competitive pressures in the banking industry that may increase significantly; changes in the interest rate environment that may reduce margins and/or the volumes and values of loans made or held as well as the value of other financial assets held; changes in the creditworthiness of customers and the possible impairment of the collectability of loans; general economic conditions, either nationally or regionally, that may be less favorable than expected, resulting in, among other things, a deterioration in credit quality and/or a reduced demand for credit or other services; changes in the legislative or regulatory environment, including changes in accounting standards and tax laws, that may adversely affect our business; costs or difficulties related to the integration of the businesses we have acquired may be greater than expected; expected cost savings associated with pending or recently completed acquisitions may not be fully realized or realized within the expected time frame; cybersecurity threats or attacks, the implementation of new technologies, and the ability to develop and maintain reliable electronic systems; our competitors may have greater financial resources and develop products that enable them to compete more successfully; changes in business conditions; changes in the securities market; and changes in our local economy with regard to our market area. Any forward-looking statements made by us or on our behalf speak only as of the date they are made or as of the date indicated, and we do not undertake any obligation to update forward-looking statements as a result of new information, future events, or otherwise. For additional information on factors that could materially influence forward-looking statements included in this report, see the risk factors in "Item 1A. Risk Factors" in the Company's Form 10-K for the year ended December 31, 2018.*

Overview

TowneBank is a retail and commercial banking business that places special emphasis on serving the financial needs of individuals, commercial enterprises, and professionals in our geographic footprint. We offer a full range of banking and related financial services through our controlled divisions and subsidiaries.

Our financial services include banking, real estate, mortgage, title, insurance, employee benefit services, and investments. We have three reportable segments: Banking, Realty, and Insurance. Our Banking segment provides loan and deposit services to retail and commercial customers. The Realty segment offers residential real estate services, mortgage loans, and residential and commercial title insurance. Commercial and retail insurance, employee benefit services, and travel insurance are provided through our Insurance segment.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis presents the significant factors affecting the Company's financial performance in the three and six months ended June 30, 2019. This discussion should be read in conjunction with our Consolidated Financial Statements and notes to the financial statements appearing elsewhere in this report.

- Net income for the three months ended June 30, 2019, was \$34.64 million, or \$0.48 per common diluted share, compared to \$34.80 million, or \$0.48 per common diluted share, for the same period in 2018. Net income for the six months ended June 30, 2019, was \$66.05 million, or \$0.92 per common diluted share, compared to \$59.51 million, or \$0.84 per common diluted share, for the same period in 2018.
- Net interest income increased \$3.00 million, or 3.45%, in second quarter 2019 from the comparable period in 2018. Net interest income increased \$14.12 million, or 8.66%, in the first half of 2019 compared to 2018. These increases were primarily due to a rise in average earning assets driven by loan growth and higher yields.
- Provision for loan losses decreased \$0.23 million in the second quarter of 2019, when compared to the provision of \$3.06 million for the quarter ended June 30, 2018, and decreased \$0.75 million in the six-month period ended June 30, 2019, compared to the six-month period ended June 30, 2018. The allowance for loan losses was 0.67% of period-end loans at June 30, 2019, as compared to 0.66% at March 31, 2019, and 0.64% at June 30, 2018. The decrease in the provision for loan losses in the second quarter, and first half of 2019, was driven by a lower level of loan growth in 2019 when compared to the prior year periods. The allowance for loan losses, as a percentage of total loans, excluding purchased loans, held steady at 0.81% at June 30, 2019, compared to 0.81% at March 31, 2019, but declined from 0.84% at June 30, 2018. Credit quality continues to remain consistent, strong, and stable.
- Noninterest income for the three-month period ended June 30, 2019, increased by \$4.48 million, or 8.93%, compared to the same period in 2018. Noninterest income increased \$0.93 million, or 0.93%, for the six-month period ended June 30, 2019, from the comparative period ended June 30, 2018. The increase in noninterest income in the second quarter of 2019 compared to 2018 was due to income growth in insurance commissions and property management income.
- Noninterest expense increased \$7.34 million, or 8.22%, in the quarterly comparison, and increased \$7.16 million, or 3.94%, compared to the first half of 2018. The increase in both the three- and six-month comparisons was driven by higher salaries and benefits expenses, professional fees, outside data processing expense, and occupancy expense.
- Our effective tax rate was 20.47% for the second quarter of 2019, an increase from 19.89% in the comparative period of 2018 and a decrease from 20.72% in the first quarter of 2019.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Policies

Preparation of financial statements and related disclosures in conformity with GAAP requires management to make judgments, assumptions, and estimates in certain circumstances that affect amounts reported in the Consolidated Financial Statements and the accompanying footnotes. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from management's current judgments. We consider our policies for the allowance for loan losses, other real estate owned, deferred income taxes, estimates of fair value of financial instruments, mergers and acquisitions, and goodwill and other intangibles to be critical accounting policies. Refer to our 2018 Annual Report to Stockholders for further discussion of these policies.

ANALYSIS OF RESULTS OF OPERATIONS

Consolidated Performance Summary

Profitability as measured by our annualized ROA was 1.20% for second quarter 2019, compared to 1.32% for second quarter 2018, and 1.14% for first quarter 2019. The annualized return on average tangible assets (non-GAAP) was 1.35%, 1.48%, and 1.29% for the same respective periods. ROA for the six-month period ended June 30, 2019, was 1.17% compared to 1.18% for the six-month period ended June 30, 2018.

Annualized ROE was 8.83% for second quarter 2019, 9.55% for second quarter 2018, and 8.24% for first quarter 2019, while the annualized return on average tangible equity (non-GAAP) was 13.90%, 15.19%, and 13.24% for the same respective periods. ROE for the six-month period ended June 30, 2019, was 8.49%, compared to 8.52% for the six-month period ended June 30, 2018.

Operating income, calculated as net interest income and noninterest income less gains on investment securities, was \$144.54 million for the quarter ended June 30, 2019, which increased \$7.48 million, or 5.46%, compared to the quarter ended June 30, 2018. For the six-month period ended June 30, 2019, operating income was \$279.17 million, an increase of \$15.84 million, or 6.01%, over comparative 2018.

Basic and diluted EPS were \$0.48 for the three months ended June 30, 2019, compared to basic and diluted EPS of \$0.48 in second quarter 2018. For the six-month period ended June 30, 2019, basic and diluted EPS were \$0.92, compared to \$0.84 in the first six months of 2018.

Net Interest Income. Net interest income, the major source of our earnings, is the income generated by interest-earning assets reduced by the total interest cost of the funds incurred to carry them. It is affected by market interest rates and the volume and mix of earning assets and interest-bearing liabilities. The yields and rates in this discussion and in the following tables have been computed based upon interest income and expense adjusted to a fully taxable equivalent basis (non-GAAP) using a 21% federal marginal tax rate.

TowneBank reported net interest income, on a tax-equivalent basis, of \$90.43 million for the quarter ended June 30, 2019, which was \$3.09 million, or 3.54%, higher than the second quarter 2018 total of \$87.34 million. On a linked-quarter basis, tax-equivalent net interest income increased by \$2.34 million, or 2.66%, from \$88.08 million. Net interest income, on a tax equivalent basis, was \$178.51 million, or \$14.33 million, higher in the first half of 2019 than comparative 2018.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

In both the three and six months comparison to prior year, net interest income rose due to increased asset volume coupled with higher yields on portfolio loans, taxable investment securities, and interest-bearing deposits. The income benefit achieved through these increases was partially offset by increased liability costs. Interest-bearing deposit balances grew and interest rates increased on interest-bearing liabilities. Comparing second quarter 2019 to the linked-quarter, interest income increased due to growth in our portfolio loans and loans held for sale. Lower yields on our loans held for sale, coupled with higher interest-bearing deposit volume and higher interest-bearing deposit rates absorbed some of the increase in interest income. Accretion of purchase accounting marks added \$2.34 million, or 11 bp, to margin in the current quarter compared to \$2.35 million, or 11 bp, in the linked-quarter and \$4.96 million, or 23 bp, in second quarter 2018.

Interest income, on a tax-equivalent basis, was \$118.49 million for the quarter ended June 30, 2019, which was \$12.72 million, or 12.03%, higher than the \$105.77 million reported for the quarter ended June 30, 2018. On a linked-quarter basis, tax-equivalent interest income increased \$4.05 million, or 3.54%, from \$114.44 million in first quarter 2019. Average earning assets grew to \$10.32 billion in the quarter ended June 30, 2019, from \$9.44 billion in the comparative prior year quarter, an increase of \$0.87 billion, or 9.26%. In the linked-quarter comparison, average earning assets increased by \$0.30 billion, or 2.97%, from \$10.02 billion in first quarter 2019. The yield on earning assets was 4.61% in the quarter ended June 30, 2019, which compared to 4.49% in the prior year and 4.63% in the linked quarter. Average loan balances, excluding nonaccrual loans, of \$8.08 billion, were \$0.52 billion, or 6.91%, higher in second quarter 2019 than in the same period one year ago, while loan yields increased by 11 bp. In the linked quarter, average loans increased by \$0.04 billion, or 0.55%, and loan yields increased by 2 bp.

Interest income, on a tax-equivalent basis, was \$232.93 million for the six months ended June 30, 2019, which was \$34.80 million, or 17.56%, higher than the \$198.14 million reported for the six months ended June 30, 2018. Average earning assets grew by \$1.05 billion in the first half of 2019, from \$9.12 billion in the prior year. The yield on earning assets was 4.62% in the six months ended June 30, 2019, or 24 bp higher than 4.63% in 2018. Average loan balances, excluding nonaccrual loans, of \$8.05 billion were \$797.61 million, or 10.99%, higher in the first half of 2019 than one year ago, while loan yields increased by 19 bp. Taxable investment securities increased \$158.57 million and interest-bearing deposits grew by \$131.96 million, year over year, while yields increased 59 bp and 70 bp, respectively.

Interest expense for the quarter ended June 30, 2019, was \$28.06 million, which was \$9.63 million, or 52.25%, higher than interest expense of \$18.43 million for second quarter 2018. Average interest-bearing liabilities increased to \$6.95 billion in second quarter 2019 from \$6.41 billion in the comparative prior year quarter, an increase of 8.52%. On a linked quarter basis, interest expense increased 6.48% from \$26.36 million in first quarter 2019. Average interest-bearing liabilities increased \$134.36 million, or 1.97%, from \$6.82 billion in the linked quarter. The cost of interest-bearing liabilities was 1.62% in the second quarter of 2019, compared to 1.15% in second quarter 2018, and 1.57% in the linked quarter. This represents a 47 bp increase over prior year and a 5 bp increase over the linked quarter.

Interest expense for the six months ended June 30, 2019, was \$54.42 million, which was \$20.47 million, or 60.28%, higher than interest expense of \$33.95 million for the first six months of 2018. Average interest-bearing liabilities increased by \$667.05 million in the first half of 2019 from \$6.22 billion in the comparative prior year, an increase of 10.72%. Average interest-bearing deposits increased \$798.06 million, or 15.68%, while borrowings declined \$124.44 million, or 14.23%, in the first half of 2019 compared to 2018. The cost of interest-bearing liabilities increased 49 bp to 1.59% in the first six months of 2019 compared to 2018.

PART I. FINANCIAL INFORMATION**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Tax-equivalent net interest margin, which is net interest income expressed as a percentage of average earning assets, was 3.52% or 19 bp lower, for the quarter ended June 30, 2019, than the June 30, 2018, quarter margin of 3.71%, and 5 bp lower than the quarter ended March 31, 2019, margin of 3.57%. Net interest margin for the first six months of 2019 declined 9 bp to 3.54% when compared to the prior year. Continued pressure from rising deposit costs resulted in margin compression. Accretion in the second quarter of 2019 was 12 bp, compared to accretion of 23 bp in second quarter 2018 and 11 bp for the linked quarter. Net interest margin will continue to be impacted by future changes in short-term and long-term interest rate levels, as well as from the competitive environment.

The following table sets forth an estimate of expected effects of the estimated aggregate acquisition accounting adjustments on pre-tax net interest income for the periods shown (in thousands):

	Discount Accretion (Premium Amortization)	
	For the Three Months Ended	
	September 30, 2019	December 31, 2019
Assets:		
Investment Securities	\$ (67)	\$ (65)
Loans	1,467	1,447
Liabilities:		
Deposits	51	47
Total estimated effect on net interest income	\$ 1,349	\$ 1,335

Note: This information is intended for informational purposes only and is not necessarily indicative of future results. Actual results may differ due to factors such as changes in estimated prepayment speeds or projected credit loss rates. We are unable to quantify the impact the January 1, 2020, adoption of ASU 2016-13 will have on this discount accretion. Therefore, we are not disclosing an estimate beyond December 31, 2019.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following tables depict our interest income on earning assets and related average yields, as well as interest expense on interest-bearing liabilities and related average rates paid for the periods presented. Also presented for the three-month periods are the changes in interest income and expense caused by variations in the volume and mix of these assets and liabilities, as well as changes in interest rates when compared to the previous periods (dollars in thousands):

(1) Interest spread is the average yield earned on earning assets less the average rate paid on interest-bearing liabilities. Fully tax equivalent.

(2) Net interest margin is net interest income expressed as a percentage of average earning assets. Fully tax equivalent.

(3) Non-GAAP.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Noninterest Income. Total noninterest income for the quarter ended June 30, 2019, was \$54.72 million, an increase of \$4.48 million, or 8.92%, compared to the same period in 2018. Total noninterest income increased \$8.34 million, or 17.98%, over the linked quarter. As a percentage of total operating income, noninterest income for second quarter 2019 was 37.86%, compared with 36.65% for comparative 2018, and 34.45% for the quarter ended March 31, 2019. There were no gains or losses on investment securities in the second quarter of 2019 or 2018 included in noninterest income. Losses on investment securities totaled \$0.78 million in first quarter 2019. Total noninterest income was \$101.10 million for the six months ended June 30, 2019, compared to \$100.17 million in 2018. For the first six months of 2019, total noninterest income included losses on investment securities totaling \$0.78 million, compared to gains on investment securities of \$3 thousand for the same period in 2018.

Our noninterest income primarily consists of fee income produced by our three reportable segments, less applicable commission expenses. The following table provides an analysis of noninterest income for the periods presented (dollars in thousands):

	Three Months Ended June 30,		Increase/(Decrease) 2019 over 2018

For the second quarter of 2019, residential mortgage banking income, net of commission expense, was \$18.57 million, a decrease of \$0.18 million, or 0.96%, compared to second quarter 2018, and an increase of \$5.06 million, or 37.44%, compared to first quarter 2019. For the six-month period ended June 30, 2019, residential mortgage banking income, net of commission expense, was \$32.07 million reflecting a decrease of \$4.28 million, or 11.76%, compared to the same period in 2018. Quarterly changes in mortgage banking income were driven by changes in production volumes, rate lock commitments, and forward sales contracts. The increase from first quarter 2019 was driven by income on higher volumes, which was partially offset by decreases in forward sales contracts of approximately \$0.42 million. Income from rate lock commitments was nearly level with the prior quarter. The marginal decrease from second quarter 2018 was driven by lower production income which was partially offset by increases in income from rate lock commitments of \$1.40 million, and forward sales contracts of \$150 thousand. Mortgage loan production volume was \$821.13 million in the second quarter of 2019, compared to \$513.53 million in the linked quarter, and

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

\$1.01 billion in the second quarter of 2018. Purchase volume as a percentage of total production was 84.97%, 86.08%, and 91.23% for the same respective periods. Total mortgage loan production for the first half of 2019 compared to 2018 was \$1.33 billion and \$1.71 billion, respectively.

For the second quarter of 2019, insurance commissions and other title income, net of commission expense, was \$17.21 million, which was \$2.13 million, or 14.09%, higher than comparative 2018, and \$1.63 million, or 10.47%, higher than first quarter 2019. For the six-month period ended June 30, 2019, insurance commissions and other title income, net of commission expense, was \$4.34 million, or 15.24%, higher than comparative 2018. The increase from second quarter 2018 was primarily a result of additional commission income from insurance agency acquisitions that occurred in November 2018 and January 2019.

Real estate brokerage and property management income, net of commission expense, for second quarter 2019 was \$8.84 million, which was \$1.93 million, or 27.97%, higher than comparative 2018, and \$0.43 million, or 4.59%, lower than first quarter 2019. Real estate brokerage and property management income, net of commission expense increased \$0.77 million, or 4.45%, for the six-month period ended June 30, 2019, compared to the same period in 2018. The majority of the income from this line of business is related to vacation property commissions and associated fees. The income is seasonally affected because a large percentage of renters typically reserve vacation homes in the winter months in anticipation of their summer occupancy. Income from these reservations is recognized at the time of reservation. As compared to the second quarter of 2018, reservations were higher due to an increase in the number of properties being managed. The higher volume of anticipatory summer reservations made in winter months, as discussed previously, was the source of the decrease in the second quarter of 2019 compared to the linked quarter.

Service charges on deposit accounts were \$3.19 million for second quarter 2019, compared with \$2.97 million for the comparative 2018 period, and \$2.86 million for first quarter 2019. For the six-month period ended June 30, 2019, service charges on deposit accounts were \$6.05 million, which was \$0.19 million, or 3.32%, higher than comparative 2018. The increase from the prior periods was primarily due to growth in business accounts.

For the second quarter of 2019, credit card merchant fees totaled \$0.66 million, which was \$0.78 million, or 54.26%, below comparative 2018, and \$0.52 million, or 44.21%, below first quarter 2019. For the six-month period ended June 30, 2019, credit card merchant fees totaled \$1.84 million, which was \$0.77 million, or 29.41%, below comparative 2018. Credit card merchant fee income was roughly \$0.90 million below normal seasonal levels in second quarter 2019 due to the impact of converting to a new processing platform that will allow us to provide additional services and capabilities.

Income from BOLI was \$1.64 million in second quarter 2019, compared to \$1.63 million in second quarter 2018, and \$1.60 million in first quarter 2019. For the six-month period ended June 30, 2019, BOLI totaled \$3.23 million, which was \$0.07 million, or 2.15%, higher than comparative 2018. Average BOLI balances remained fairly level, year over year.

Other noninterest income for the three months ended June 30, 2019, was \$4.62 million, an increase of \$1.17 million, or 33.90%, as compared to \$3.45 million for second quarter 2018. For the first six months of 2019, other noninterest income increased \$1.39 million, to \$7.77 million, from \$6.39 million in the prior year. Growth in both the second quarter and first six months of 2019, as compared to 2018, was primarily attributable to increases in service charges on loans, commercial mortgage commissions, and gains on sale of OREO properties.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

There were no investment securities sold in the second quarter of 2019 or 2018. We recorded losses on the sale of AFS securities of \$0.78 million in the first half of 2019, compared to gains of \$3 thousand in the first half of 2018. We sold securities with a carrying value of \$100.08 million in the first quarter of 2019 and \$48.50 million in first quarter 2018 in order to position ourselves for better yield going forward.

Noninterest Expense. For the quarter ended June 30, 2019, total noninterest expense was \$96.56 million, which was \$7.34 million, or 8.22%, higher than comparative 2018, and \$4.43 million, or 4.81%, lower than the quarter ended March 31, 2019. For the six-month period ended June 30, 2019, total noninterest expense increased \$7.16 million, or 3.94%, from comparative 2018 to \$188.68 million.

As a percentage of operating income, noninterest expense was 66.80% for the second quarter of 2019, 65.10% for comparative 2018, and 68.43% for the quarter ended March 31, 2019. Primary components of noninterest expense in second quarter 2019 were salaries and employee benefits of \$54.26 million, occupancy expenses of \$7.66 million, professional fees of \$3.71 million, outside data processing expenses of \$3.62 million, furniture and equipment expenses of \$3.58 million, advertising and marketing expenses of \$3.18 million, amortization expense of \$3.11 million, and software expenses of \$2.79 million.

The following table provides an analysis of quarterly total noninterest expense by line item for the periods presented (dollars in thousands):

	Three Months Ended			Increase/(Decrease)

Amortization - intangibles	6,305	5,591	714	12.77 %
Software expense	5,533	4,988	545	10.93 %
Outside data processing	6,782	4,980	1,802	10.93 %
Professional fees	6,386	4,387	1,999	45.57 %
Advertising and marketing	6,011	5,774	237	4.10 %
Other noninterest expenses:				
Acquisition-related expenses	431	9,523	(9,092)	(95.47)%
Bank franchise tax/SCC fees	3,320	2,842	478	16.82 %
Charitable contributions	5,161	3,987	1,174	29.45 %
Directors fees and expenses	1,018	915	103	11.26 %
FDIC and other insurance	2,723	2,374	349	14.70 %
Foreclosed property expenses	602	423	179	42.32 %
Other	7,644	7,558	86	1.14 %
Stationery and supplies	1,426	1,556	(130)	(8.35)%
Telephone and postage	3,299	3,291	8	0.24 %
Travel/meals/entertainment	2,053	1,704	349	20.48 %
Total other noninterest expenses	27,677	34,173	(6,496)	(19.01)%
Total noninterest expense	<u>\$ 188,679</u>	<u>\$ 181,524</u>	<u>\$ 7,155</u>	<u>3.94 %</u>

Salary and benefits expense, the largest portion of noninterest expense, was \$54.26 million, representing 56.20% of total noninterest expense for the quarter ended June 30, 2019, and \$107.12 million, or 56.78%, of total noninterest expense for the six months ended June 30, 2019. Salary and benefits expense increased \$3.94 million, or 7.83%, and \$6.02 million, or 5.95%, over the comparative three- and six-month periods in 2018. Salaries and benefits increased \$1.40 million, or 2.65%, from first quarter 2019. The increase in salary and benefits expense over the first six months of 2018 was attributable to expansion, primarily in functional support teams, to enable us to enhance Company infrastructure and meet increased regulatory expectations related to exceeding \$10 billion in assets, as well as keeping pace with our growth and changing industry standards. Specific areas of enhancement were information technology, risk and compliance, accounting and internal audit. We also established two new banking groups, located in Greenville and Greensboro, North Carolina, and opened a full-service banking office in Greenville, in the first quarter of 2019. We anticipate opening a full-service banking office in Greensboro, North Carolina, later in the year.

In our Banking segment, we had a total of 1,134 full-time equivalent employees ("FTE") at June 30, 2019, as compared to 1,034 at June 30, 2018, and 1,079 at March 31, 2019. In our non-Banking segments at June 30, 2019, we had a total of 1,370 FTEs, excluding real estate sales agents, compared to 1,520 at June 30, 2018, and 1,403 at March 31, 2019. Real estate sales agents are independent contractors and, therefore, not included as our employees. The decline in non-Banking segment FTEs was, largely, in the area of commission-based employees. Total operating income per FTE was \$58,000 for the quarter ended June 30, 2019, increasing from \$54,000 for the quarters ended June 30, 2018, and March 31, 2019.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Occupancy expense for the second quarter of 2019 increased \$0.86 million, or 12.64%, from the comparative quarter of 2018, and \$0.59 million, or 7.14%, from first quarter 2019. Occupancy expense for the first six months of 2019 increased \$2.63 million, or 19.84%, from comparative 2018. Increases from the prior-year quarters were primarily related to a higher level of expenses for maintenance and cleaning services, as well as increases in rent expense and depreciation of leasehold improvements. Additionally, we performed a comprehensive review of all lease agreements in conjunction with our adoption of ASU 842. This review led to a correction of several lease schedules, resulting in a one-time increase to rent expense of \$0.32 million in the quarter and \$1.08 million year-to-date. For further financial details, see *Note 7 – Leases* of the Notes to Consolidated Financial Statements in this report.

For the three month period ended June 30, 2019, professional fees increased by \$1.29 million compared to the same period in 2018 and increased \$1.03 million over first quarter 2019. Professional fees increased \$2.00 million in the first half of 2019 compared to 2018. Outside data processing expense increased \$0.76 million in the second quarter of 2019 compared to 2018, and \$0.45 million compared to the linked quarter. Outside data processing expense increased \$1.80 million in the first six months of 2019 compared to 2018. Infrastructure costs associated with more robust fraud/BSA monitoring, security surrounding information technology, plus costs associated with contract cancellations associated with the re-branding of Paragon, were the primary drivers of these increases.

Other noninterest expenses for the second quarter of 2019 were \$14.65 million, an increase of \$0.14 million, or 0.97%, compared to the same period in 2018, and an increase of \$1.62 million, or 12.41%, compared to the linked quarter. For the second quarter of 2019 compared to 2018, increases were attributable to higher charitable contributions of \$0.39 million, bank franchise tax/SCC fees of \$0.24 million, and foreclosed property expense of \$0.22 million. For the second quarter of 2019 compared to the linked quarter, increases were attributable to higher charitable contributions of \$0.37 million and foreclosed property expense of \$0.26 million.

Provision for Income Taxes. We reported a provision for income tax expense of \$8.92 million, representing an effective tax rate of 20.47%, in second quarter 2019. The provision for income tax expense was \$8.64 million for second quarter 2018, with an effective rate of 19.89%, and \$8.21 million, with an effective rate of 20.72%, for the first quarter of 2019.

Segment Performance Summary

Our reportable segments are a traditional full-service community bank, a full-service realty business, and a full-service insurance agency. In this section, we discuss the performance and financial results of our segments. For further financial details, see *Note 8 – Segment Reporting* of the Notes to Consolidated Financial Statements in this report.

Banking Segment. For the three months ended June 30, 2019, the Banking segment represented 82.29%, or \$28.50 million, of our total consolidated net income, compared to 88.88%, or \$30.93 million, for comparative 2018. For the six months ended June 30, 2019, the Banking segment represented 87.33%, or \$57.68 million, of our consolidated income compared to 82.15%, or \$48.89 million, for comparative 2018.

Income before tax provision and noncontrolling interest for the Banking segment was \$35.15 million for the quarter ended June 30, 2019, decreasing \$2.93 million from comparative 2018. This decrease in earnings was driven by growth in noninterest expenses outpacing increases in total revenue. Overall revenue increased \$5.40 million, primarily driven by an increase in net interest income of \$4.76 million due to

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

organic growth. Noninterest income increased \$0.64 million due to a combination of increases in other income of \$1.21 million, an increase in service charges on deposit accounts of \$0.22 million, and a decline in credit card merchant fees of \$0.78 million. Noninterest expenses increased \$8.63 million, driven by increases in salaries and employee benefits of \$4.51 million. Occupancy expense increased \$0.73 million. The provision for loan loss declined \$0.23 million in the second quarter of 2019 compared to 2018.

Income before tax provision and noncontrolling interest decreased by \$1.21 million compared to the linked quarter ended March 31, 2019. The decrease in earnings was driven by noninterest expense growth outpacing total revenue growth. Net interest income increased \$2.04 million, driven by organic loan growth. Noninterest expense increased from the linked quarter, driven by salaries and employee benefits, outside data processing, and professional fees. Additionally, there was an increase in the provision for loan losses of \$1.39 million.

Income before tax provision and noncontrolling interest was \$71.52 million, an increase of \$11.60 million, or 19.36%, for the six months ended June 30, 2019, compared to the same period in 2018. The increase in earnings was driven by an increase in net interest income of \$17.11 million due to higher volume in earning assets and a \$0.61 million increase in noninterest income. The increase in earnings was partially offset by an increase in total noninterest expenses of \$6.16 million, which includes an increase in salaries and benefits costs of \$5.40 million and occupancy expense of \$1.96 million. There was also a decrease in the provision for loan losses of \$0.75 million.

Realty Segment. For the three months ended June 30, 2019, the Realty segment had income before income tax provision and noncontrolling interest of \$5.78 million, as compared to \$2.95 million, for second quarter 2018, and \$1.62 million for the linked quarter ended March 31, 2019. Income before income tax provision and noncontrolling interest declined \$2.59 million in the first half of 2019 compared to 2018. Total revenue decreased to \$30.17 million in second quarter 2019 from \$30.28 million in second quarter 2018, but increased from \$24.86 million in the quarter ended March 31, 2019. Total expenses declined \$2.96 million in second quarter 2019 compared to 2018, but increased \$1.10 million compared to the linked quarter. Total revenue decreased \$6.29 million, or 10.25%, in the first six months of 2019 compared to 2018, while total expenses declined \$3.71 million, or 7.30%, for the same comparative periods.

The decrease in total revenue in second quarter 2019 from comparative 2018 is the result of a reduction in net residential mortgage banking income of \$0.45 million driven by lower production volume, and a reduction in net interest and other income of \$1.67 million which was partially offset by an increase in net property management fees of \$1.88 million. Residential mortgage banking income included increases in income from rate lock commitments of \$1.40 million, and forward sales contracts of \$150 thousand for the quarter ended June 30, 2019, compared to the same period of 2018. Net property management fees, which are primarily commissions on vacation homes managed by the Company, increased as a result of higher reservation levels in second quarter 2019, compared to 2018. Salaries and employee benefits declined \$2.09 million on lower FTEs when compared to second quarter 2018. Other expenses declined \$0.92 million quarter over quarter.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The increase in total revenue in second quarter 2019 from first quarter 2019 was driven by a \$5.14 million increase in net residential mortgage banking income and a \$1.31 million increase in net real estate brokerage income, partially offset by a \$1.74 million decline in net property management fees. Net residential mortgage income increased on higher volumes, which was partially offset by decreases in forward sales contracts of approximately \$2.42 million. The value of rate lock commitments was nearly level with the prior quarter. Net real estate brokerage income increased on a higher number of units sold. Net property management fees declined based on the timing of reservations and recognition of related revenue. Income related to net property management fees is typically highest in the first quarter, when the majority of reservations are made. Total expenses increased \$1.10 million in the second quarter of 2019, compared to the linked quarter. These increases were in salaries and other expenses.

Income before tax provision and noncontrolling interest was down \$2.59 million for the six months ended June 30, 2019, compared to the same period in 2018. The decrease in earnings was driven by a decrease in total revenue of \$6.29 million. Declines in residential mortgage banking income of \$4.35 million were due to lower year-over-year volume, and a decrease in net interest and other income of \$2.84 million were partially offset by an increase in net property management fee income of \$0.86 million. Total expenses declined \$3.71 million, driven by a \$3.08 million decline in salaries and employee benefits and a \$0.98 million decline in other expenses.

The following charts present revenue and expenses for the Realty segment for the periods presented (dollars in thousands):

Mortgage. Loan volume for the combined mortgage operations decreased in the quarter ended June 30, 2019, as compared to the same period in 2018. Total loans originated in the second quarter of 2019 were \$0.82 billion, an 13.67%, or \$129.99 million, decrease from \$0.95 billion in the comparative period of 2018, and a \$307.60 million, or 59.90%, seasonal increase compared to the volume for the quarter ended March 31, 2019. Refinance activity comprised 15.03% of loan volume for the quarter ended June 30, 2019, compared to 8.77% for the quarter ended June 30, 2018, and 13.92% for the quarter ended March 31, 2019.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Insurance Segment. The Insurance segment includes property and casualty and group benefit divisions, as well as travel insurance. The Insurance segment represented 8.35%, or \$2.89 million, of total consolidated net income at June 30, 2019, and 7.02%, or \$2.45 million, at June 30, 2018.

Earnings before income taxes and noncontrolling interest for the three months ended June 30, 2019, were \$4.23 million, increasing \$0.48 million, or 12.75%, from comparative 2018, and increasing \$1.92 million from the linked quarter ended March 31, 2019. The primary factors affecting earnings in comparison to the prior periods were acquisition-related growth in property and casualty lines, growth in contingency and bonus revenue, organic growth in employee benefits lines, and seasonality in travel insurance. Earnings before income taxes and noncontrolling interest for the six months ended June 30, 2019, were \$6.94 million, decreasing 4.17%, or \$0.30 million, from the comparative period in 2018. Increases in operating expenses of \$4.70 million outpaced the growth in revenue, net of commissions.

Net revenues for the second quarter of 2019 increased \$2.18 million, or 14.90%, when compared to the same quarterly period in 2018 and \$1.40 million, or 9.11%, when compared to the linked quarter. Net revenues for the first six months of 2019 increased \$4.40 million, or 15.83%, when compared to the six months ended June 30, 2018. These increases were driven by commissions on property and casualty insurance related to acquisitions, organic growth in employee benefits insurance and contingency and bonus income, partially offset by declines in travel insurance. Towne Insurance acquired insurance agencies in November 2018 and January 2019. Travel insurance revenue typically declines in the second quarter, compared to first quarter, due to seasonality.

Total operating expenses for the second quarter of 2019 increased \$1.67 million, or 15.58%, when compared to the same period in 2018, but declined \$0.55 million, or 4.24%, when compared to the linked quarter. Total operating expenses increased \$4.70 million, or 22.88%, for the six months ended June 30, 2019 compared to June 30, 2018. The largest factor in the increase from comparative prior year periods was salaries and employee benefits expense, which increased \$1.52 million, or 21.47%, and \$3.69 million, or 26.79%, when comparing the three- and six-month periods ended June 30, 2019, to the same periods for 2018. Salaries and employee benefits expense declined \$0.28 million when compared to the linked quarter. Insurance agency acquisitions in third quarter 2018, and first quarter 2019, resulted in additional salaries and employee benefits expenses in the second quarter and first half of 2019, when compared to the same periods in 2018. However, in second quarter 2019, the Insurance segment began consolidating teams to reduce overhead and realize more income benefits from their acquisitions.

ANALYSIS OF FINANCIAL CONDITION

Overview. At June 30, 2019, total assets were \$11.94 billion, which is \$0.78 billion, or 6.98%, higher than total assets at December 31, 2018. Our loan portfolio, less unearned income and deferred costs, made up 68.05% of our period-end assets and totaled \$8.13 billion at June 30, 2019. Average assets for the quarter ended June 30, 2019, were \$11.53 billion, up \$0.38 billion, or 3.43%, from the year ended December 31, 2018.

Average earning assets for the second quarter of 2019 increased \$0.29 billion from fourth quarter 2018 to \$10.32 billion. Our average total deposits were \$8.82 billion for second quarter 2019, reflecting growth of \$0.50 billion, or 6.05%, compared to fourth quarter 2018. Average noninterest-bearing deposits at June 30, 2019, increased \$0.14 billion, or 5.17%, from December 31, 2018.

Interest-Bearing Deposits in Financial Institutions. Interest-bearing deposits in other banks, at the Federal Reserve Bank of Richmond, and federal funds sold are used for daily cash management purposes, management of short-term interest rate opportunities, and liquidity. At June 30, 2019, these balances were

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

\$856.03 million and consisted mainly of deposits in other banks and overnight deposits with the Federal Reserve Bank.

The average balance of interest-bearing deposits in other banks, at the Federal Reserve Bank of Richmond, and federal funds sold during the second quarter of 2019 was \$698.65 million, or 6.77%, of average total earning assets, compared with \$652.13 million, or 6.51%, of average total earning assets for the fourth quarter of 2018.

Securities Available for Sale. Our AFS securities portfolio is reported at fair value, which is determined based on market prices of similar instruments. The AFS securities portfolio was \$1.26 billion at June 30, 2019, compared with \$1.10 billion at December 31, 2018. The average balance during the second quarter of 2019 was \$1.21 billion, compared to \$1.08 billion at December 31, 2018. The average AFS securities portfolio represented 11.75% and 10.77% of average earning assets in second quarter 2019 and fourth quarter 2018, respectively. During the three and six months ended June 30, 2019, we had sales, maturities, and calls totaling \$29.38 million and \$156.28 million in investment securities that were classified as AFS, respectively.

The securities are held primarily for earnings, liquidity, and asset/liability management purposes and reviewed quarterly for possible other-than-temporary impairments. During this review, we analyze the length of time the fair value has been below cost, the expectation for that security's performance, the creditworthiness of the issuer, whether we intend to sell the security, and whether it is more likely than not that the Company will be required to sell the security before the recovery of the amortized cost basis, which may be maturity. These factors are analyzed on an individual basis.

Securities Held to Maturity. HTM securities are valued at amortized cost. Securities HTM were \$50.57 million at June 30, 2019, and \$50.60 million at December 31, 2018. The average balance during the second quarter of 2019 was \$49.84 million, compared with \$51.58 million in fourth quarter 2018, representing 0.49% and 0.51% of total average earning assets, respectively. These securities are held primarily for yield and pledging purposes. Similar to AFS securities, HTM securities are reviewed quarterly for possible other-than-temporary impairment.

Loans Held for Sale. At June 30, 2019, we held \$362.77 million in mortgage loans originated and intended for sale in the secondary market, as compared with \$220.99 million at December 31, 2018. Average loans held for sale were 2.73% of average earning assets for the quarter ended June 30, 2019, and 2.65% of average earning assets for the quarter ended December 31, 2018. The majority of mortgage loans held for sale have been precommitted to investors, which minimizes our interest rate risk.

Loan Portfolio. Loans, net of unearned income and deferred costs, were \$8.13 billion at June 30, 2019, which was \$0.11 billion, or 1.35%, above the \$8.02 billion at December 31, 2018. As a percentage of total average earning assets, average loans were 78.27% for the quarter ended June 30, 2019, compared with 79.04% for the quarter ended December 31, 2018. Management reforecasts on a quarterly basis and anticipates annualized loan portfolio growth will be in the low-to-mid single digits for the remainder of 2019.

Allowance for Loan Losses and Asset Quality. The allowance for loan losses is established through a provision for loan losses charged against earnings. The level of the allowance for loan losses is based on management's evaluation of the risk inherent in the loan portfolio at the balance sheet date and changes in the nature and volume of loan activity. This evaluation includes a review of loans for which collection may

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

not be reasonably assured. It considers internal risk grades, estimated fair value of the underlying collateral, current economic conditions, historical loan loss experience, and other current factors that warrant consideration in determining an adequate allowance.

The allowance for loan losses consists of three elements: (i) specific valuation allowances determined in accordance with ASC 310, *Receivables*, based on probable losses on specific loans; (ii) historical valuation allowances determined in accordance with ASC 450, *Contingencies*, based on historical loan loss experience for similar loans with similar characteristics and trends, adjusted, as necessary, to reflect the impact of current conditions; and (iii) general valuation allowances determined in accordance with ASC 450 based on general economic conditions and other qualitative risk factors both internal and external to the Company.

It is our policy to recommend internal risk grades on all loans as a component of the approval process. Based on the size of the loan, senior credit officers, regional credit administrators, and the chief credit officer review the classification to ensure accuracy and consistency of classifications, which are then validated by the internal loan review process. Loan classifications are internally reviewed on a sample basis to determine if any changes in the circumstances of the loan require a different risk grade. To determine the most appropriate risk grade classification for each loan, the credit officers examine the borrower's liquidity level, asset quality, the amount of the borrower's other indebtedness, cash flow, earnings, sources of financing, and existing lending relationships. The allowances established for probable losses on specific loans are based on a regular analysis and evaluation of classified loans.

Historical valuation allowances are calculated based on the historical loss experience of specific types of loans. We calculate historical loss ratios for pools of similar loans with similar characteristics based on the proportion of actual charge-offs experienced to the total population of loans in the pool. The historical loss ratios are updated quarterly based on actual charge-off experience. A historical valuation allowance is established for each pool of similar loans based upon the product of the historical loss ratio and the total dollar amount of the loans in the pool. Our pools of similar loans include groups of construction and land development loans, commercial real estate loans, commercial and industrial business loans, 1-4 family residential real estate loans, multi-family real estate loans, and consumer and other loans.

General valuation allowances are based on general economic conditions and other qualitative risk factors both internal and external to TowneBank. In general, such valuation allowances are determined by evaluating, among other things: (i) the experience, ability, and effectiveness of the Company's lending management and staff; (ii) the effectiveness of the Company's loan policies, procedures, and internal controls; (iii) changes in asset quality; (iv) changes in loan portfolio volume; (v) the composition and concentrations of credit; (vi) the effectiveness of the internal loan review function; (vii) the impact of national economic trends on portfolio risks; and (viii) the impact of local economic trends on portfolio risk. Management evaluates the degree of risk that each one of these components has on the quality of the loan portfolio on a quarterly basis to determine an appropriate general valuation allowance.

The allowance for loan losses at June 30, 2019, and December 31, 2018, was \$54.53 million and \$52.09 million, respectively. The allowance was equal to 0.67% of total loans outstanding at June 30, 2019, compared with 0.65% at December 31, 2018. Excluding purchased loans, the allowance was equal to 0.81% of loans outstanding at June 30, 2019, down marginally from 0.82% at December 31, 2018. We believe the slight decline in the ratio from the prior year, excluding purchased loans, is appropriate given the risk profile of our loan portfolio and the level of diversification therein. Reflective of strong credit quality, classified loans, defined as loans in the substandard and doubtful categories, remained low at 0.60% of total loans at June 30, 2019, up slightly from 0.57% at December 31, 2018. Loans 30 to 89 days past due were

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

\$8.03 million, including purchased impaired loans of \$0.16 million at June 30, 2019, as compared to \$14.33 million at December 31, 2018. Total past due and nonaccruing loans were \$27.08 million, including purchased impaired past-due loans of \$0.59 million at June 30, 2019, compared to \$20.20 million, including purchased impaired past due loans of \$1.56 million, at December 31, 2018. The increase in past due loans at June 30, 2019, compared to December 31, 2018, was driven by a single commercial relationship of approximately \$10 million. The allowance was equal to 3.00x of nonperforming loans at June 30, 2019, compared with 10.97x at December 31, 2018. This decrease is largely attributable to the addition of one large relationship that was placed on nonaccrual during the quarter. Overall, economic conditions have been in flux in recent months. Domestic economic news has been mixed, while labor market conditions have continued to show relative strength in the form of low jobless claims. Despite the mixed economic news, we believe the continued strength and quality of our loan portfolio supports the level of our allowance for loan losses and is adequate to cover loan losses inherent in the loan portfolio at June 30, 2019.

For additional financial details regarding the analysis of the allowance for loan losses, see *Note 5 – Loans and Allowance for Loan Losses* of the Notes to Consolidated Financial Statements in this report. The following table provides information on the allowance for loan losses and nonperforming assets for the periods presented (dollars in thousands):

	Three Months Ended			Six Months Ended	
	June 30,		March 31,	June 30,	
	2019	2018	2019	2019	2018
Nonperforming Assets					
Nonperforming loans	\$ 18,202	\$ 3,919	\$ 5,696	\$ 18,202	\$ 3,919
Former bank premises	1,510	2,253	2,223	1,510	2,253
Foreclosed property	14,517	20,133	17,071	14,517	20,133
Total nonperforming assets	<u>\$ 34,229</u>	<u>\$ 26,305</u>	<u>\$ 24,990</u>	<u>\$ 34,229</u>	<u>\$ 26,305</u>
Loans past due 90 days and still accruing interest	<u>\$ 415</u>	<u>\$ 22</u>	<u>\$ 117</u>	<u>\$ 415</u>	<u>\$ 22</u>
Asset Quality Ratios					
Allowance for loan losses to nonperforming loans	3.00x	12.64x	9.36x	3.00x	12.64x
Allowance for loan losses to period-end loans	0.67%	0.64%	0.66%	0.67%	0.64%
Allowance for loan losses to period-end loans excluding purchased loans	0.81%	0.84%	0.81%	0.81%	0.84%
Nonperforming loans to period-end loans	0.22%	0.05%	0.07%	0.22%	0.05%
Nonperforming assets to period-end assets	0.29%	0.24%	0.22%	0.29%	0.24%
Net charge-offs to average loans (annualized)	0.08%	0.01%	0.01%	0.05%	0.02%

Nonperforming assets consist of nonaccrual loans, foreclosed real estate, and other repossessed collateral. It is our policy to place commercial loans on nonaccrual status when full collection of principal and interest becomes doubtful, or when any portion of principal or interest becomes 90 days past due, whichever occurs first, unless the debt is both well-secured and in the process of collection. When loans are placed on nonaccrual status, interest receivable is reversed against interest income recognized in the current period, and any prior-year unpaid interest is charged off against the allowance for loan losses. Interest payments received thereafter are applied as a reduction of the remaining principal balance so long as doubt exists as to the ultimate collection of the principal. Loans are removed from nonaccrual status when they become current as to both principal and interest and when the collection of principal or interest is no longer doubtful. Similarly, residential mortgage loans and other consumer loans are also placed on nonaccrual status when full collection of principal and interest becomes doubtful, or when any portion of principal or interest

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

becomes 120 days past due, whichever occurs first, unless the debt is both well-secured and in the process of collection.

At June 30, 2019, we had \$34.23 million in nonperforming assets, which amounted to 0.29% of total assets. Additionally, there were \$0.42 million in loans past due 90 days or more that were accruing interest. Nonperforming assets consisted of \$18.20 million in nonperforming loans, \$1.51 million in former bank premises related to the merger with Monarch, as well as \$14.52 million in foreclosed property. Nonperforming loans increased by \$12.51 million from March 31, 2019, as additions to nonaccrual loans in the commercial real estate, residential 1-4 family, and commercial and industrial categories during the second quarter of 2019 exceeded transfers to OREO, charge-offs, and payments received. Foreclosed property decreased from \$17.07 million at March 31, 2019, and \$20.13 million at June 30, 2018. The 5 largest foreclosed property developments represented approximately 94.50% of total foreclosed property at June 30, 2019, with the largest development representing approximately 52.48%. Foreclosed property consists of three residential properties, 13 construction and development properties, and two commercial properties.

At June 30, 2019, loans 60-89 days past due, excluding nonperforming loans, totaled \$0.98 million. Additionally, there are other performing loans in the substandard category, totaling \$15.94 million, which are current but have certain documentation deficiencies or other potential weaknesses that management has determined warrant additional monitoring. All loans in these categories are subject to constant management attention, and their status is reviewed on a regular basis.

In order to maximize the collection of loan balances, we evaluate troubled loan accounts on a case-by-case basis to determine if a loan modification would be appropriate. We may pursue loan modifications when there is a reasonable chance that an appropriate modification would allow our clients to continue servicing the debt. Because some TDRs may not ultimately result in the complete collection of principal and interest (as modified by the terms of the restructuring), additional incremental losses could result. These potential incremental losses have been factored into our overall allowance for loan losses estimate.

At June 30, 2019, nonaccruing TDRs, which are included in nonperforming loans, totaled \$3.44 million and accruing TDRs totaled \$20.35 million. Nonaccruing loans that are modified can be placed back on accrual status when both principal and interest are current, there is a sustained repayment performance of six months or longer, and it is probable that we will be able to collect all amounts due (both principal and interest) according to the terms of the loan agreement. All restructured loans are considered impaired in the calendar year of restructuring. In subsequent years, a restructured loan may cease being classified as impaired if the loan was modified at a market rate and has performed according to the modified terms for at least six months.

The following table provides information on the composition of nonperforming loans by loan type as of the dates indicated (in thousands):

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

	June 30, 2019	December 31, 2018
Real estate - commercial	3,065	538
Real estate - residential 1-4 family	3,708	1,954
Commercial and industrial business loans	10,925	1,820
Consumer and other loans	504	437
Total nonperforming loans	<u>\$ 18,202</u>	<u>\$ 4,749</u>

Allocation of the Allowance for Loan Losses. The following table provides a breakdown of the allowance for loan losses among the various loan types as of the dates indicated (in thousands):

	June 30,		December 31,	
	2019	2018	2018	
Real estate loans:				
Real estate - construction and land development	\$ 6,555	\$ 5,777	\$ 6,171	
Real estate - commercial	20,683	18,187	19,488	
Real estate - multi-family	1,115	1,157	1,011	
Real estate - residential 1-4 family	10,551	9,846	10,245	
Total real estate loans	38,904	34,967	36,915	
Commercial and industrial business loans	9,069	7,767	8,669	
Consumer and other loans	6,554	6,801	6,510	
Total	<u>\$ 54,527</u>	<u>\$ 49,535</u>	<u>\$ 52,094</u>	

Deposits. Total deposits at June 30, 2019, were \$9.27 billion, representing an increase of \$0.90 billion, or 10.73%, compared to December 31, 2018. Total average deposits were \$8.82 billion during the second quarter of 2019, compared to \$7.72 billion during second quarter 2018 and \$8.31 billion during fourth quarter 2018.

Average noninterest-bearing demand deposits as a percentage of average total deposits were 31.64% during second quarter 2019 and 32.28% during the same period in 2018. Average noninterest-bearing demand deposits were 31.90% of average total deposits for fourth quarter 2018. The cost of interest-bearing deposits was 1.45% for second quarter 2019, compared with 0.89% for second quarter 2018 and 1.23% for fourth quarter 2018.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Advances from the Federal Home Loan Bank of Atlanta. Advances from the FHLB at June 30, 2019, were \$532.0 million, compared to \$799.32 million at December 31, 2018. The average borrowing cost for second quarter 2019 was 1.90% and 2.11% in fourth quarter 2018.

The scheduled maturity dates, call dates, and related fixed interest rates on advances from the FHLB at June 30, 2019, are summarized as follows (dollars in thousands):

Maturity	Interest Rate	Call / Reset Date	Outstanding Amount
11/15/2028	3.43%	—	\$ 4,088
12/01/2028	2.83%	—	2,916
11/04/2019	1.26%	—	260,000
03/06/2020	2.51%	07/08/2019	100,000
04/09/2020	2.48%	07/09/2019	115,000
05/03/2021	2.53%	07/03/2019	50,000
Total FHLB Loans			\$ 532,004

At June 30, 2019, certain residential HELOCs, agency securities, and commercial mortgages secured by real estate with carrying values of \$1.53 billion collateralized the advances from the FHLB. At December 31, 2018, certain residential HELOCs, second mortgages, agency securities, and commercial mortgages secured by real estate with carrying values of \$1.59 billion collateralized the advances from the FHLB.

In addition to borrowings from the FHLB, we maintain various borrowing arrangements with financial institutions to support liquidity needs. As of June 30, 2019, we had no outstanding balances on these borrowing agreements with other financial institutions. Average total borrowings, including FHLB advances, during second quarter 2019 were \$678.80 million, compared with \$920.39 million for fourth quarter 2018, while the average cost of these funds was 1.93% and 1.97%, respectively.

Subordinated Debt, net. On July 17, 2017, the Company issued \$250.0 million of fixed-to-floating rate subordinated notes due July 30, 2027, in a public offering. The Company received \$247.07 million in net proceeds after deducting discounts and issuance costs. The subordinated notes accrue interest at a fixed rate of 4.50% for the first five years until July 30, 2022. From and including this date and for the remaining five years of the subordinated notes' term, interest will accrue at a floating rate of three-month LIBOR plus 2.55%. The Company may redeem the subordinated notes, in whole or in part, on or after July 30, 2022. At June 30, 2019, the carrying value of the subordinated notes totaled \$248.16 million, compared with \$247.86 million at December 31, 2018. Average subordinated debt during second quarter 2019 was \$248.06 million, compared to \$247.77 million during fourth quarter 2018, while the average cost of the debentures was 4.78% for both quarters.

Common Stock and Dividends. Our common stock is listed on the Nasdaq Global Select Market under the symbol TOWN.

On February 27, 2019, we declared a quarterly shareholder cash dividend of \$0.16 per common share. The dividend was paid April 10, 2019, to shareholders of record on March 29, 2019.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

On May 22, 2019, we declared a quarterly shareholder cash dividend of \$0.18 per common share. The dividend was paid on July 10, 2019, to shareholders of record on June 28, 2019. All dividends paid are limited by the requirement to meet capital guidelines issued by regulatory authorities, and future declarations are subject to financial performance and regulatory requirements.

Liquidity and Capital Structure. Liquidity represents our ability to provide funds to meet customer demands for loan and deposit withdrawals without impairing profitability. Our liquid assets consist of cash, interest-bearing deposits in financial institutions, federal funds sold, and investments and loans maturing within one year. Asset liquidity is also provided by managing both loan and security maturities.

Risk-based capital guidelines for United States banking organizations have been issued by the Board of Governors of the Federal Reserve System, the FDIC, and the Office of the Comptroller of the Currency. Per these guidelines, we consider our sources of liquidity to be adequate to meet our estimated needs and have sufficient alternative sources of liquidity to meet our funding commitments and growth plans.

In July 2013, the FDIC and the other federal banking agencies approved the final rules implementing Basel III. On January 1, 2015, the Company became subject to the FDIC final rule's revised definitions of regulatory capital, the new minimum regulatory capital ratios, and various regulatory capital adjustments and deductions according to transition provisions and timelines. All banking organizations began calculating standardized total risk-weighted assets on January 1, 2015. A transition period for the capital conservation buffer under Basel III for all banking organizations began on January 1, 2016, until it was fully implemented on January 1, 2019.

Risk-based capital ratios, which include CETI, tier I capital, total capital, and leverage capital, are calculated based on Basel III regulatory transitional guidance related to the measurement of capital, risk-weighted assets, and average assets. As indicated below, as of June 30, 2019, our risk-based capital ratios are 11.58% for CETI, 11.62% for tier I capital, and 14.85% for total capital, which are well above the required minimums of 7.00%, 8.50%, and 10.50%, respectively. Under the FDIC rules, we are considered "well capitalized" as of June 30, 2019.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table provides information on our risk-based capital position as of the dates indicated (dollars in thousands):

	June 30,		March 31,
	2019	2018	2019
Tier I Capital:			
Shareholders' equity	\$ 1,606,452	\$ 1,476,786	\$ 1,565,656
Less: goodwill and disallowed intangible assets, net of deferred tax	493,559	478,088	496,500
AOCI-related adjustments	15,143	(17,944)	(1,791)
Noncontrolling interests	12,689	14,025	11,808
Total common equity tier I capital	1,085,061	1,002,617	1,059,139
Included noncontrolling interests	3,219	2,824	2,987
Total tier I capital	1,088,280	1,005,441	1,062,126
Tier II Capital:			
Qualifying allowance for loan losses (1)	54,527	49,535	53,303
Qualifying subordinated debt	248,160	247,563	248,010
Total tier II capital	302,687	297,098	301,313
Total Risk-Based Capital	\$ 1,390,967	\$ 1,302,539	\$ 1,363,439
Total assets	\$ 11,942,480	\$ 10,831,653	\$ 11,568,263
Total risk-weighted assets (2)	9,366,379	8,853,100	9,218,731
Average assets for leverage capital purposes	11,039,388	10,058,759	10,708,517
Risk-weighted assets to total assets	78.43%	81.73%	79.69%
Risk-based capital ratios:			
Common equity tier I (7.0% minimum requirement)	11.58%	11.33%	11.49%
Tier I (8.5% minimum requirement)	11.62%	11.36%	11.52%
Total (10.5% minimum requirement)	14.85%	14.71%	14.79%
Tier I leverage ratio (5.0% minimum requirement)	9.86%	10.00%	9.92%

(1) Limited to 1.25% of risk-weighted assets.

(2) Risk-weighted assets are determined based on the regulatory capital requirements in effect for the periods presented.

Non-GAAP Reconciliations. The Company presents return on average assets, return on average tangible assets, return on average equity, and return on average tangible equity. Management excludes the balance of average goodwill and other intangible assets from the Company's calculation of return on average tangible assets and return on average tangible equity. This adjustment allows management to review the Company's core operating results and core capital position.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Return on average assets (GAAP basis)	1.20%	1.32%	1.17%	1.18%
Impact of excluding average goodwill and other intangibles and amortization	0.15%	0.16%	0.14%	0.14%
Return on average tangible assets	1.35%	1.48%	1.31%	1.32%

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Return on average equity (GAAP basis)	8.83%	9.55%	8.49%	8.52%
Impact of excluding average goodwill and other intangibles and amortization	5.07%	5.64%	5.01%	4.95%
Return on average tangible equity	13.90%	15.19%	13.50%	13.47%

The Company presents book value (period-ended shareholders' equity divided by the period-ended common shares outstanding) and tangible book value. In calculating tangible book value, goodwill and other intangible assets are excluded, allowing management to review the Company's core capital position.

	Three Months Ended June 30,	
	2019	2018
Book value (GAAP basis)	\$ 21.95	\$ 20.22
Impact of excluding goodwill and other intangibles and amortization	(6.71)	(6.72)
Tangible book value	\$ 15.05	\$ 13.50

PART I. FINANCIAL INFORMATION

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Disclosures About Market Risk. Our ALCO monitors loan, investment, and liability portfolios to ensure comprehensive management of interest rate risk. These portfolios are analyzed for proper fixed-rate and variable-rate mixes under various interest rate scenarios.

The asset/liability management process is designed to achieve relatively stable net interest margins and ensure liquidity by coordinating the volumes, maturities, or repricing opportunities of earning assets, deposits, and borrowed funds. It is the responsibility of the ALCO to determine and achieve the most appropriate volume and mix of earning assets and interest-bearing liabilities, as well as ensure an adequate level of liquidity and capital within the context of corporate performance goals. The ALCO also sets policy guidelines and establishes long-term strategies with respect to interest rate risk exposure and liquidity. The ALCO meets regularly to review our interest rate risk and liquidity positions in relation to present and prospective market and business conditions, and adopts funding and balance sheet management strategies intended to ensure that the potential impact on earnings and liquidity as a result of fluctuations in interest rates is within acceptable standards.

Market Risk. The effective management of market risk is essential to achieving our strategic objectives. As a financial institution, our most significant market risk exposure is interest rate risk. The primary objective of interest rate risk management is to minimize the effect that changes in interest rates have on net interest income. This is accomplished through active management of asset and liability portfolios, with a focus on the strategic pricing of asset and liability accounts and management of appropriate maturity mixes of assets and liabilities. The goal of these activities is the development of appropriate maturity and repricing opportunities in our portfolios of assets and liabilities that will produce consistent net interest income during periods of changing interest rates.

Prudent balance sheet management requires processes that monitor and protect us against unanticipated or significant changes in the level of market interest rates. Net interest income stability should be maintained in changing rate environments by ensuring that interest rate risk is kept to an acceptable level.

The ability to reprice our interest-sensitive assets and liabilities over various time intervals is of critical importance. An asset-sensitive balance sheet structure implies that assets, such as loans and securities, will reprice faster than liabilities; consequently, net interest income should be positively affected in an increasing interest rate environment. Conversely, a liability-sensitive balance sheet structure implies that liabilities, such as deposits, will reprice faster than assets; consequently, net interest income should be positively affected in a decreasing interest rate environment.

Interest Rate Risk. We utilize a variety of measurement techniques to identify and manage our exposure to interest rates. We do not use off-balance-sheet financial instruments to manage interest rate sensitivity and net interest income. We do, however, use a variety of traditional and on-balance-sheet tools to manage our interest rate risk. Gap analysis, which monitors the "gap" between interest-sensitive assets and liabilities, is one such tool. In addition, we use simulation modeling to forecast future balance sheet and income statement behavior. By studying the effects on net interest income of rising, stable, and falling interest rate scenarios, we can position ourselves to take advantage of anticipated interest rate movement and to protect ourselves from unanticipated rate movements by understanding the dynamic nature of our balance sheet components.

PART I. FINANCIAL INFORMATION

Item 3. Quantitative and Qualitative Disclosures About Market Risk

At June 30, 2019, we had \$1.11 billion more assets than liabilities subject to repricing within one year and, therefore, were in an asset-sensitive position. This is a one-day position, which is continually changing and is not necessarily indicative of our position at any other time. There were no known reported material changes in interest rate risk information from the preceding year-end.

Earnings Simulation Analysis: Management uses simulation analysis to measure the sensitivity of net interest income to changes in interest rates. The model calculates an earnings estimate based on current and projected balances and rates. This method is subject to the accuracy of the assumptions that underlie the process, but it provides an additional analysis of the sensitivity of earnings to changes in interest rates to static gap analysis. Assumptions used in the model rates are derived from historical trends, peer analysis, and management's outlook, and include loans and deposit growth rates and projected yields and rates. All maturities, calls, and prepayments in the securities portfolio are assumed to be reinvested in like instruments. Mortgage loans and mortgage-backed securities prepayment assumptions are based on industry estimates of prepayment speeds for portfolios with similar coupon ranges and seasoning. Different interest rate scenarios and yield curves are used to measure the sensitivity of earnings to changing interest rates. Interest rates on different asset and liability accounts move differently when the prime rate changes and are reflected in the different rate scenarios.

The following table represents interest rate sensitivity on our net interest income using different rate scenarios:

<u>Change in Prime Rate</u>	<u>% Change in Net Interest Income</u>
+ 300 basis points	12.33 %
+ 200 basis points	8.45 %
+ 100 basis points	5.01 %
- 100 basis points	(6.20)%
- 200 basis points	(14.11)%

Market Value Simulation: Market value simulation is used to calculate the estimated fair value of assets and liabilities over different interest rate environments. Market values are calculated based on discounted cash flow analysis. The net market value is the market value of all assets minus the market value of all liabilities. The change in net market value over different rate environments is an indication of the longer term repricing risk in the balance sheet. The same assumptions are used in the market value simulation as in the earnings simulation. The following table reflects the change in net market value over different rate environments:

<u>Change in Prime Rate</u>	<u>Change in Net Market Value (dollars in thousands)</u>
+ 300 basis points	\$ (62,312)
+ 200 basis points	\$ (39,856)
+ 100 basis points	\$ (9,039)
- 100 basis points	\$ (75,997)
- 200 basis points	\$ (289,671)

PART I. FINANCIAL INFORMATION

Item 4. Controls and Procedures

Controls and Procedures. As of June 30, 2019, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are adequate and effective.

Management assessed the effectiveness of our internal control over financial reporting as of June 30, 2019. There were no changes that occurred during the period covered by this Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of operations, we are a party to various legal proceedings. Based upon information currently available, management believes that such legal proceedings, in the aggregate, will not have a material adverse effect on our business, financial condition, or results of operations.

Item 1A. Risk Factors

For information regarding factors that could affect the Company's results of operations, financial condition, or liquidity, see the risk factors discussed in Part I, Item 1A, of TowneBank's 2018 Annual Report on Form 10-K. See also "Forward-Looking Statements," included in Part I, Item 2, of this Quarterly Report on Form 10-Q. There have been no material changes from the risk factors previously disclosed in TowneBank's 2018 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

CERTIFICATIONS

I, J. Morgan Davis, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the quarter ended June 30, 2019, of TowneBank;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors, and the audit committee of the registrant's board of directors (or persons performing equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and

Exhibit (31.1)

continued

- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED BY
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

Pursuant to 18 U.S.C. §1350, as adopted by §906 of the Sarbanes-Oxley Act of 2002, the undersigned officers of TowneBank do hereby certify, to such officer's knowledge, that:

1. Our Quarterly Report on Form 10-Q for the quarter ended June 30, 2019 (the "Report") fully complies with the requirements of Section 13(a) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, our financial condition and results of operations as of and for the period covered by the Report.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and
Shareholders of *TowneBank*

Results of Review of Interim Financial Statements

We have reviewed the consolidated balance sheets of TowneBank and subsidiaries (the "Company") as of June 30, 2019 and 2018, the related consolidated statements of income, comprehensive income, cash flow and equity for the three and six-month periods ended June 30, 2019 and 2018, and the related notes (collectively referred to as the "interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the interim financial statements referred for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated balance sheet of TowneBank and subsidiaries as of December 31, 2018, and the related consolidated statements of income, comprehensive income, equity, and cash flows for the year then ended (not presented herein); and in our report dated March 1, 2019, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2018, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

These interim financial statements are the responsibility of the Company's management. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.
