PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS

May 20, 2026

GENERAL

We are providing these proxy materials in connection with the solicitation of proxies by the Board of Directors of TowneBank for the 2026 Annual Meeting of Shareholders (the “Annual Meeting”) to be held on Wednesday, May 20, 2026. In this Proxy Statement, we refer to the Board of Directors as the “Board” and to TowneBank as “we,” “us,” or “the Company.” The approximate mailing date of this Proxy Statement and accompanying proxy is April 10, 2026.

Voting Rights of Shareholders

Only shareholders of record of the Company’s common stock at the close of business on March 26, 2026, are entitled to notice of and to vote at the Annual Meeting or any adjournment thereof. As of the close of business on March 26, 2026, there were 92,366,411 shares of the Company’s common stock outstanding and entitled to vote at the Annual Meeting. The Company has no other class of voting stock outstanding. Each share of common stock entitles the record holder thereof to one vote upon each matter to be voted upon at the Annual Meeting.

A majority of the votes entitled to be cast, represented by attendance at the meeting or by proxy, will constitute a quorum for the transaction of business. Shares for which the holder has elected to abstain or to withhold the proxies’ authority to vote on a matter will count toward a quorum, but will not be included in determining the number of votes cast with respect to such matter. Shares held by brokers, banks or other nominees in street name (“broker shares”) that are voted on any matter are included in the quorum. Broker shares that are not voted on any matter will not be included in determining whether a quorum is present.

Voting of Proxies

We encourage you to complete and return the proxy card accompanying this Proxy Statement, regardless of whether you plan to attend the Annual Meeting. For your convenience, a postage-paid return envelope is enclosed. You may also vote over the Internet at the website shown on your proxy card, or by telephone through the number shown on your proxy card. Proxies will extend to, and will be voted at, any adjourned session of the Annual Meeting.

Revocation of Proxies

Execution of a proxy will not affect a shareholder’s right to attend the Annual Meeting and to vote in person during the meeting. Any shareholder who has executed and returned a proxy may revoke it by attending the Annual Meeting and voting in person during the meeting. A shareholder may also revoke his or her proxy at any time before it is exercised by filing a written notice with the Company or by submitting a proxy bearing a later date.

Solicitation of Proxies

The cost of solicitation of proxies will be paid by the Company. Solicitation is being made by mail and, if necessary, may be made in person, by telephone or other electronic communication or by special letter by officers and employees of the Company, acting without compensation other than regular compensation. The Company will also request brokerage firms, banks, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of shares of common stock as of the record date and will reimburse such persons for the cost of forwarding the proxy materials in accordance with customary practice. The Company has engaged Georgeson LLC to assist the Company in the solicitation of proxies for the Annual Meeting for a fee of \$20,000, plus certain expenses.

ELECTION OF DIRECTORS — PROPOSAL ONE

The Company's Board of Directors is divided into three classes (I, II and III), with staggered terms, and the term of office for the Class I directors will expire at the Annual Meeting. Each of the nominees in the election of directors currently serves as a director of the Company. If elected, the Class I nominees will serve until the Annual Meeting of Shareholders held in 2029, the Class II nominee will serve until the Annual Meeting of Shareholders held in 2027, and the Class III nominee will serve until the Annual Meeting of Shareholders held in 2028.

As a term of the acquisition of Dogwood State Bank ("Dogwood"), the Company agreed to appoint one of Dogwood's directors to the Board when the acquisition closed. G. Robin Perkins, III was thus appointed to the Board of Directors in January 2026.

The affirmative vote of a plurality of the votes cast at the Annual Meeting is required for the election of directors. This means that the nominees receiving the greatest number of affirmative votes cast at the Annual Meeting will be elected. A properly returned proxy indicating "withhold" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated. Broker non-votes will not be counted as votes cast on the proposal and will have no effect on the election of directors.

Each of the nominees has indicated the willingness to serve if elected. If any nominee is unable or unwilling to serve as a director at the time of the Annual Meeting, then shares represented by properly executed proxies will be voted at the discretion of the persons named in those proxies for such other person as the Board may designate. We do not presently expect that any of the nominees will be unavailable.

Juan M. Montero, II and Robert C. Hatley are not standing for re-election at the Annual Meeting and will transition to emeritus status. Our Board is deeply grateful for the extraordinary contributions each of these Board members made to aid in the growth and success of the Company.

The Board of Directors recommends the nominees, as set forth below, for election and that shareholders vote "FOR" these nominees.

The following table provides the business experience for at least the past five years and other information with respect to each director and director nominee for election at the Annual Meeting, followed by a statement regarding the specific experience, qualifications, attributes or skills that led the Board to conclude that each director or director nominee should serve as a director of the Company. An asterisk (*) notes that the director is an "independent director" as defined in Rule 5605(a)(2) of the Marketplace Rules of The Nasdaq Stock Market, LLC ("Nasdaq").

Board of Directors and Committees

Each director is expected to devote sufficient time, energy and attention to ensure diligent performance of the director's duties, including attendance at Board and committee meetings. There were 18 meetings of the Board of Directors in 2025. With one exception, each director attended at least 75% of the aggregate number of meetings of the Board of Directors and meetings of the committees of which the director was a member during 2025. Juan M. Montero, II narrowly missed satisfying the 75% attendance threshold due largely to his domestic and international travel schedule as Founder and Chairman of Montero Medical Missions, a charitable organization that provides medical missions and creates sustainable healthcare projects through physicians and allied health professionals in the United States and abroad.

The Company encourages each member of the Board to attend the annual meeting of shareholders. Of the 24 current directors who were serving at the time, 20 attended the 2025 annual meeting of shareholders.

The Board has reviewed the definition of "independent director" as defined in Nasdaq Marketplace Rule 5605(a)(2) and determined that of the 10 director nominees and 17 other directors, 20 are independent.

There are no family relationships among any of the directors or among any director and any executive officer.

The Board of Directors of the Company has established various committees, including Executive, Audit, Compensation, Nominating, and Enterprise Risk Management.

Lead Director. W. Ashton Lewis serves as the Company's Lead Director. The responsibilities and duties of the Lead Director include (i) presiding at meetings of the Board of Directors at which the Chairman is not present, including executive sessions of the independent directors; (ii) serving as the principal liaison between the Chairman and the independent directors on sensitive issues; (iii) calling special meetings or executive sessions of the independent directors; (iv) facilitating communication between the Board and senior management, including advising the Chairman of the Board's informational needs regarding meeting agendas and schedules and the types and forms of information supplied to directors; (v) serving as an additional point of contact for Board members and shareholders and being available for consultation and direct communication with major shareholders; and (vi) working with the Chairman to ensure that the Board is provided with the resources, including external advisors and consultants as considered appropriate, to permit the Board to carry out its responsibilities and duties. The Lead Director is elected annually by a majority vote of the independent directors. Although elected annually, the Lead Director is generally expected to serve for more than one year. The Lead Director may be removed or replaced at any time with or without cause by a majority vote of the independent members of the Board of Directors.

Board's Role in Risk Oversight. While each of the Company's Board committees oversees the management of the risks that are within their areas of responsibility, the Company's Enterprise Risk Management Committee is responsible for overseeing the development and implementation of the Company's Enterprise Risk Management program.

The program takes an ongoing enterprise view of risk tolerances, risk limits, and key risk indicators towards the development and refinement of the Company's risk appetite framework, as approved by the Board of Directors. The program includes consistent processes for identifying, assessing, managing, monitoring and reporting risks of all types, including credit risk, market risk, liquidity risk, cyber and security risk, operational risk, compliance risk, strategic risk and reputation risk, as well as Bank Secrecy Act/Anti-Money Laundering compliance and environmental, social and governance matters. The Board of Directors is regularly informed about the Company's risk profile through management presentations, committee reports and minutes of the meetings of the Enterprise Risk Management Committee. Although risk management is primarily the responsibility of the Company's management, the Enterprise Risk Management Committee actively engages with management to establish risk management principles and to determine risk appetite.

As a financial institution entrusted with safeguarding sensitive customer information, the Board of Directors is actively engaged in the oversight of the Company's cyber risk profile and key cyber initiatives. Under the direction of its Chief Information Security Officer, the Company maintains a formal information security management program, which is subject to oversight by, and reporting to, the Enterprise Risk Management Committee. The Enterprise Risk Management Committee oversees and reviews reports on significant matters of actual, threatened or potential breaches of corporate security, including cybersecurity. The Company maintains cyber insurance through its corporate insurance program.

Other committees of the Board of Directors consider the risks within their areas of responsibility. The Audit Committee has responsibility for oversight of risks associated with financial accounting and reporting, including the system of internal controls. The Audit Committee also oversees the Company's internal audit function. To better coordinate its risk oversight function, the Chair of the Audit Committee is a member of the Enterprise Risk Management Committee. The Compensation Committee oversees risks relating to the Company's compensation plans and programs.

In addition to reviewing committee reports and minutes concerning the Company's risk management program, the Board of Directors also monitors and reviews reports presented by management, internal and external auditors, and regulatory examiners.

While the Company believes that its risk oversight structure is designed to provide an effective risk management program, the Board of Directors and the management team are committed to the continuous strengthening of the Company's risk management practices.

Executive Committee. The Executive Committee is composed of Messrs. Lawson (Chair), Aston, Benson, Ellis, Foster, Lester, and Lewis. The committee, which is subject to the supervision and control of the Board of Directors, has been delegated substantially all of the powers of the Board of Directors to act between meetings of the Board, except for certain matters reserved to the Board by law. In 2025, there were 11 meetings of the Executive Committee.

Audit Committee. The Audit Committee is composed of Ms. Robertson (Chair) and Messrs. Jenkins, Jung, Layne, Lewis, Perry, and Witt. Serving as consultants to the Audit Committee are Lawton H. Baker, a Director of the Portsmouth TowneBanking Group board and Robert E. Yancey, a Director of the Peninsula TowneBanking Group board. The seven committee members are considered "independent directors" as defined by Nasdaq Marketplace Rule 5605(a)(2). The Board of the Company has established that the Company has two Audit Committee financial experts: Ms. Robertson and Mr. Witt. The Board has determined that Ms. Robertson and Mr. Witt possess the requisite accounting and related financial management expertise to qualify for the position. Pursuant to the written charter of the Audit Committee, the functions of the committee are to review and approve the selection of independent auditors; to remain apprised of the status and results of examination by the regulatory agencies, the independent auditors and the internal auditor, as well as monitor remediation progress if applicable; and to issue its report to the Board of Directors.

The Audit Committee is responsible for reviewing all transactions between the Company and any officer or director of the Company or any entity in which an officer or director has a material interest. Any such transactions must be on terms no less favorable than those that could be obtained on an arm's-length basis from independent third parties. The Audit Committee met eight times in 2025. The Audit Committee Report begins on page 48. A copy of the charter of the Audit Committee is available on the "Investor Relations" page of the Company's website at www.townebank.com under the heading "Governance Documents."

Compensation Committee. The Compensation Committee is composed of Messrs. Lewis (Chair), Benson, Ellis, Lester, and Montero. The five committee members are considered "independent directors" as defined by Nasdaq Marketplace Rule 5605(a)(2). Pursuant to the written charter of the Compensation Committee, the primary function of the committee is to

provide independent oversight of TowneBank's compensation practices and to determine compensation or provide recommendations to the Board for the compensation of the Executive Chairman, the Chief Executive Officer and all other executive officers of TowneBank. The committee also monitors all incentive and equity compensation plans for the benefit of Company officers and directors eligible to participate in such plans. The Compensation Committee met four times in 2025. The Compensation Committee Report is included on page 19. A copy of the charter of the Compensation Committee is available on the "Investor Relations" page of the Company's website at www.townebank.com under the heading "Governance Documents."

Compensation Committee Interlocks and Insider Participation. During 2025, there were transactions between TowneBank and certain members of the Compensation Committee, or their associates, primarily consisting of extensions of credit and purchases of goods and services by the Company in the ordinary course of its business. Each transaction was made on substantially the same terms, including interest rates, lease rates, purchase prices, collateral and repayment terms, as those prevailing at the time for comparable transactions with the general public. In the opinion of management, none of the transactions involve more than the normal risk of collectibility or present other unfavorable features.

Enterprise Risk Management Committee. The Enterprise Risk Management Committee is composed of Messrs. Witt (Chair), Jung, Lewis, Norment, Perkins, and Shetty, and Ms. Robertson. Serving as advisors to the Enterprise Risk Management Committee are Messrs. Davis and Morgan. Ernest S. Piccioli serves as a non-voting member and Committee Secretary. The Enterprise Risk Management Committee was formed to be primarily responsible for overseeing the Company's risk management function on behalf of the Board.

The Enterprise Risk Management Committee is responsible for aligning the Company's risk profile, inclusive of risk appetite, with the Company's strategic plans and objectives. This involves identifying, assessing, managing, monitoring and reporting risks of all types, including credit risk, market risk, liquidity risk, operational risk, technology risk, strategic risk, and reputation risk.

In carrying out its responsibilities, the Enterprise Risk Management Committee works closely with TowneBank's Chief Risk Officer, internal audit, and other members of TowneBank's management team. The Enterprise Risk Management Committee met five times in 2025.

In addition to the Enterprise Risk Management Committee, the other committees of the Board consider the risks within their areas of responsibility. For example, the Compensation Committee considers the risks that may be implicated by our executive compensation programs. For a discussion of the Compensation Committee's review of TowneBank's senior executive officer compensation plans and employee incentive compensation plans and the risks associated with these plans, see "Compensation Discussion and Analysis" beginning on page 20. A copy of the charter of the Enterprise Risk Management Committee is available on the "Investor Relations" page of the Company's website at www.townebank.com under the heading "Governance Documents."

Director Nominations Process

The Company's Board of Directors has adopted a Director Nominations Policy (the "Nominations Policy"). The purpose of the Nominations Policy is to describe the process by which candidates for possible inclusion in the Company's recommended slate of director nominees are selected. The Nominations Policy is administered by the Nominating and Corporate Governance Committee ("Nominating Committee").

Nominating Committee. The Nominating Committee is composed of Messrs. Lester (Chair), Benson, Ellis and Lewis. The committee members are considered independent directors "as defined by Nasdaq Marketplace Rule 5605(a)(2)". The Nominating Committee met four times in 2025. A copy of the charter of the Nominating Committee is available on the "Investor Relations" page of the Company's website at www.townebank.com under the heading "Governance Documents." The Nominating Committee reviews the qualifications of potential candidates and makes recommendations to the full Board. The factors considered by the committee and the Board in its review of potential candidates include the following:

Minimum Criteria for Board Members. Each candidate must possess at least the following specific minimum qualifications:

- Each candidate shall be prepared to represent the best interests of all of the Company's shareholders and not just one particular constituency.

- Each candidate shall be an individual who has demonstrated integrity and ethics in his or her personal and professional life and has established a record of professional accomplishment in his or her chosen field.
- No candidate, family member (as defined by Nasdaq rules), affiliate or associate (each as defined in Rule 405 under the Securities Act of 1933) of a candidate shall have any material personal, financial or professional interest in any present or potential significant competitor of the Company.
- Each candidate shall be prepared to participate fully in Board activities, including committee assignments. Attendance at, and active participation in, meetings of the Board and the committee of which he or she is a member is expected. There should be no other personal or professional commitments that would, in the Nominating Committee's sole judgment, interfere with or limit his or her ability to do so.

Desirable Qualities and Skills. In addition, the Company also considers it desirable that candidates possess the following qualities or skills:

- Each candidate should contribute to the Board's overall diversity – diversity being broadly construed to mean a variety of opinions, perspectives, personal and professional experiences and backgrounds, such as gender, race and ethnicity differences, as well as other differentiating characteristics.
- Each candidate should contribute positively to the existing chemistry and collaborative culture among Board members.

Internal Process for Identifying Candidates. The Company has a primary method for identifying candidates (other than those proposed by the Company's shareholders, as discussed below). On a periodic basis, the Company solicits ideas for possible candidates from a number of sources: members of the Board, senior-level Company executives, individuals personally known to the members of the Board, and research.

The Nominations Policy divides the process for candidates proposed by shareholders into the general nomination right of all shareholders and proposals by "Qualified Shareholders" (as defined below).

General Nomination Right of All Shareholders. Any shareholder of the Company may nominate one or more persons for election as a director of the Company at the annual meeting of shareholders if the shareholder complies with the notice, information and consent provisions contained in the Company's bylaws. The Company has an advance notice bylaw provision. In order for the director nomination to be timely, a shareholder's notice must be delivered to the Company's principal executive offices not less than 60 nor more than 90 days prior to the anniversary of the preceding year's annual meeting, subject to certain exceptions if the meeting date is not held within the same general time period.

The procedures described in the next section are meant to establish additional means by which certain shareholders can have access to the Company's process for identifying and evaluating candidates, before they become nominees, and are not meant to replace or limit shareholders' general nomination rights in any way.

Proposals by Qualified Shareholders. In addition to those candidates identified through the Company's own internal processes, in accordance with the Nominations Policy, the Nominating Committee will evaluate a candidate proposed by any single shareholder or group of affiliated shareholders who has beneficially owned more than 5% of the Company's common stock for at least one year (and will hold the required number of shares through the annual shareholders' meeting) and who satisfies the notice, information and consent provisions in the Nominations Policy (a "Qualified Shareholder").

In order to be considered by the Nominating Committee during the identification and evaluation process for an upcoming annual meeting of shareholders, a notice from a Qualified Shareholder regarding a potential candidate must be received by the Company not less than 120 calendar days before the anniversary of the date of the Company's proxy statement released to shareholders in connection with the previous year's annual meeting. If the Company changes its annual meeting date by more than 30 days from year to year, the notice must be received by the Company no later than the close of business on the 10th day following the day on which notice of the date of the upcoming annual meeting is publicly disclosed.

All candidates (whether identified internally or by a Qualified Shareholder) who, after evaluation, are then recommended by the Nominating Committee and approved by the Board, will be included in the Company's recommended slate of director nominees in its proxy statement.

Any candidate proposed by a Qualified Shareholder must be independent of the Qualified Shareholder in all respects as determined by the Nominating Committee or by applicable law. Any candidate submitted by a Qualified Shareholder must also meet the definition of an “independent director” under Nasdaq Marketplace Rule 5605(a)(2).

Evaluation of Candidates. The Nominating Committee will consider all candidates identified through the processes described above, and will evaluate each of them, including incumbents, based on the same criteria. If, based on the committee’s initial evaluation, a candidate continues to be of interest, certain members of the Nominating Committee will interview the candidate and communicate their evaluation to the other committee members, the Chairman of the Board, and the Chief Executive Officer.

The Nominating Committee and senior management will conduct later reviews. Ultimately, background and reference checks will be conducted and the Nominating Committee will meet to finalize a list of recommended candidates for the Board’s consideration.

Timing of the Identification and Evaluation Process. The Company’s fiscal year ends each year on December 31. The Nominating Committee meets on an as-needed basis to consider, among other things, candidates to be recommended to the Board for inclusion in the Company’s recommended slate of director nominees for the next annual meeting and the Company’s proxy statement.

Future Revisions to the Nominations Policy. The Nominations Policy is intended to provide a flexible set of guidelines for the effective functioning of the Company’s director nominations process. The Nominating Committee intends to review the Nominations Policy periodically and anticipates that modifications will be necessary from time to time as the Company’s needs and circumstances evolve.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE HIGHLIGHTS

As a relationship driven and community focused company, TowneBank is committed to delivering on each of our guiding principles while balancing the interests of our shareholders, our communities, our customers (whom we call our members), and our employees. We believe our employees are one of our most important and valuable assets, and we strive to create a warm sense of belonging. We believe our strong culture strengthens our bond with the communities we serve.

At TowneBank, we empower consumers—both individual consumers and businesses—to make financial decisions with confidence. We believe that our environmental, social and governance initiatives contribute to our success in achieving the Company’s goals for all our shareholders. We have identified the following topics of focus: Human Capital Management, Diversity and Inclusion (D&I), Community Engagement, Climate and Environmental Operations, Governance and Business Conduct, and Data Privacy and Cybersecurity. The following summary highlights some of these initiatives.

Human Capital Management

TowneBank’s ability to deliver value to our members starts with our people. The success of the Company is directly attributable to an exceptional team of people who are clearly committed to a caring and nurturing environment centered on serving others. Continuing to build a passionate team with adherence to our culture of caring, vision, and opportunity for all will be the cornerstone of our ongoing success.

We have a strategic focus on designing our compensation and incentive programs to ensure they are competitive and effective in attracting and retaining diverse talent across all lines of business. In addition to competitive base and incentive compensation plans, the Company offers all full-time employees competitive benefits including paid vacation and sick leave, parental leave, 401(k) plan, health, dental, and vision plans, life and disability coverage, wellness plan, paid training opportunities, pre-tax flexible spending accounts, and tuition reimbursement.

As part of the Company’s governance framework for human capital, the Board of Directors has a Compensation Committee composed of independent directors. Pursuant to the written charter of the Compensation Committee, the primary function of the committee is to provide independent oversight of TowneBank’s compensation practices and to determine compensation or provide recommendations to the Board for the compensation of the Executive Chairman, the Chief Executive Officer, and all other executive officers of TowneBank. The committee also monitors all incentive and equity compensation plans for the benefit of Company officers and directors eligible to participate in such plans.

The Company’s strategic plan has dedicated objectives and tactics to ensure we recruit, retain, and develop a diverse and talented team, with a specific focus on enhancing diversity and inclusion. None of our employees are represented by any collective bargaining agreements.

Periodically, we send Company-wide surveys to our employees on topics such as career satisfaction and member experience, inviting confidential feedback on our benefits, processes and opportunities. We have used this feedback to develop and enhance employee benefits and opportunities.

The Company has active learning and development programs designed to develop skills and knowledge, provide ongoing opportunities for teams to grow in existing roles, and to be prepared for future opportunities. For over 18 years, the Company has had a management development program designed to develop leadership and managerial talent for the future. Over this time, 227 employees have participated in this program, and many of these graduates have moved into leadership roles in the Company.

Diversity and Inclusion

Our mission statement includes a commitment “to create a warm sense of belonging” for everyone. To ensure that all our employees feel valued and respected, and recognizing the vital importance of having a workforce that reflects the communities we serve, we established the Diversity and Inclusion Council. Our Chief Executive Officer chairs this council, which includes leaders and representatives from diverse business lines and regions across our organization. In 2025, the council met eight times.

The Diversity and Inclusion Council oversees our initiatives to foster an environment of respect, value, and engagement, allowing all team members to reach their full potential.

Our strategy is to:

- Support TowneBank’s commitment to creating a warm sense of belonging;
- Foster and sustain a diverse, high-performing workforce;
- Cultivate and support an inclusive culture;
- Provide resources to promote professional and career development opportunities; and
- Provide access to mentorship opportunities.

As part of our efforts to achieve these goals, we have formed recruiting partnerships with local colleges and universities to promote and enhance workforce diversity. Our vision is to keep attracting and retaining a high-performing team by actively recruiting, developing, and supporting employees who work together to fulfill TowneBank’s mission.

We offer several inclusive spaces designed for team members to engage with and appreciate diverse perspectives. These forums are inclusive and open to all team members who are passionate about learning from diverse viewpoints and who can actively contribute to initiatives that support TowneBank’s strategic plan, mission, and guiding principles. These spaces include NOIR, Pride, Women’s, Working Parents and Caregivers, Emerging Leaders, Administrative Professionals, and New Family Members.

We have expanded our efforts to include an engagement team dedicated to hugging our people by intentionally cultivating workplace environments where every team member feels seen, valued, and appreciated. By fostering genuine gratitude and connection, we strengthen relationships, support deeper motivation, and continue to create conditions for our people to thrive.

At December 31, 2025, women represent approximately 66% of our workforce, and approximately 19% of our team members identify as minorities.

Stock Ownership Guidelines

The Board of Directors believes that it is in the best interests of the Company to align the financial interests of the directors and executive officers with those of the Company's shareholders and has adopted minimum stock ownership guidelines applicable to directors and the Named Executive Officers listed in the "Summary Compensation Table" on page 31.

The ownership threshold for directors is \$100,000 aggregate value of the Company's common stock. The ownership threshold for the Named Executive Officers is based on the following multiples of their base salaries: three times base salary for the Executive Chairman and the Chief Executive Officer; two times base salary for the President (if not also the Chief Executive Officer), and one times base salary for the other Named Executive Officers. There is a five year accumulation period for new directors and Named Executive Officers.

Shares owned directly by a director and Named Executive Officer or indirectly (e.g., by a spouse, trust or affiliated company) count towards the ownership targets. Restricted stock awards, restricted stock units and other equity-based awards granted under the Company's stock incentive plans that are time-vested awards involving the issuance of shares of common stock are also included as owned for the purposes of the guidelines. Unexercised stock options, unearned performance shares, and any shares pledged to secure a loan or held in a margin account are not counted toward meeting the guidelines. If any director or officer is not in compliance with the ownership guidelines, any shares acquired upon the exercise of a stock option or any shares that vest and are no longer subject to any time-based or performance-based vesting requirement may not be sold or transferred, except for the limited purpose of paying any applicable tax withholding or exercise price.

The value of the Company's common stock held by a director or Named Executive Officer is based on the average closing price of the Company's common stock for the last 10 trading days of the applicable year. As of January 1, 2026, with three exceptions, all of the directors and Named Executive Officers satisfied their respective stock ownership requirements. Mr. Foster became the Chief Executive Officer as of January 1, 2023, and is taking appropriate steps to accumulate ownership as permitted for a new Chief Executive Officer by the ownership guidelines. Dr. Shetty joined the Board on March 1, 2024 and Mr. Jenkins joined the Board on April 1, 2025. While they did not satisfy the ownership guidelines for a new director as of January 1, 2026, they have since acquired a sufficient number of additional shares of the Company's common stock to meet the ownership threshold.

No Hedging Policy

The Company has an anti-hedging policy that prohibits directors and executive officers from engaging in hedging transactions designed to hedge or offset any decrease in the market value of the Company's common stock including prepaid variable forward contracts, equity swaps, puts, calls, collars, forwards, exchange funds and other derivative instruments. The policy also prohibits directors and executive officers from engaging in short sale transactions in the Company's common stock.

Delinquent Section 16(a) Reports

Pursuant to Section 16(a) of the Securities Exchange Act of 1934, as adopted by the Federal Deposit Insurance Corporation (the "FDIC"), directors and executive officers of the Company are required to file reports with the FDIC indicating their holdings of and transactions in the Company's equity securities.

Based upon a review of filings with the FDIC and written representation that no other reports were required, the Company believes that all of its directors and executive officers were in compliance with the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934 during 2025 with the following exceptions:

Directors: one late Form 4 report was filed by Frank E. Jenkins, Jr. reporting the acquisition of shares in one transaction, and one late Form 4 report was filed by Andrew S. Fine reporting the disposition of shares in one transaction.

Executive Officers: one late Form 4 report was filed by Ernest S. Piccioli. reporting the acquisition of shares in one transaction, and one late Form 4 report was filed by Dawn S. Glynn reporting the disposition of shares in one transaction.

Executive Summary

TowneBank’s executive compensation programs are designed to attract, retain and motivate exceptional leaders with the ability to foster strong business results and ensure the long-term success of the Company. 2025 Compensation Highlights. The Compensation Committee took the following compensation-related actions for 2025:

- **Base Salaries.** At its February 2025 meeting, the Compensation Committee increased the base salaries of Mr. Aston and Mr. Foster to \$1.545 million and \$1.133 million, respectively, effective as of March 1, 2025. In connection with entering into a new five-year employment agreement, the Compensation Committee increased the base salary of Mr. Littreal to \$950,000. The Compensation Committee also increased the base salary of Mr. Piccioli to \$566,500, effective as of March 1, 2025. Later in the year, the Compensation Committee increased the base salaries of Messrs. Morrison, and Piccioli, along with the other members of the Corporate Management Group (excluding Messrs. Aston, Foster and Littreal), by a 4% cost of living adjustment effective as of September 1, 2025. At its meeting in November, the Compensation Committee increased Mr. Foster's base salary to \$1.333 million, effective January 1, 2026, in connection with his agreement to extend the term of his employment agreement for five years.

- **Incentive Compensation.** Based on the Company's performance results, the Compensation Committee approved incentive awards in February 2026 equal to 61.5% of the average 2025 base salary for Messrs. Aston, Foster, and Littreal and 41% of the average 2025 base salary for the other NEOs and members of the Corporate Management Group. These amounts were slightly above their respective target incentive opportunities for which they were eligible. In the exercise of its discretion and consistent with its approach in previous years, the Compensation Committee determined that 75% of the incentive award will be paid in cash and 25% in the form of a restricted stock award vesting in equal annual installments over a three-year period, subject to the officer's continued service through the applicable vesting date.

Say-On-Pay Results. We held an advisory vote on the compensation of our NEOs ("say-on-pay") at our 2025 annual shareholders meeting. At that meeting, 97.27% of the votes cast on the say-on-pay proposal were cast in support of the compensation of the Company's NEOs.

While the 2025 shareholder vote continued to reflect strong support for our executive compensation programs, the Compensation Committee, the Board of Directors and executive management evaluate compensation programs each year to ensure the programs continue to align the interests of the executives with those of the Company's shareholders and continued to strengthen the linkage of pay to performance. The Compensation Committee plans to continue considering our shareholders' perspectives on an annual basis.

Compensation Governance. The Company maintains policies and practices that promote strong compensation governance. These policies and procedures require the Company to:

- Use various performance metrics to deter excessive risk taking by eliminating any incentive focus on a single performance goal.
- Balance short-term (cash) and long-term (equity) compensation to discourage short-term risk taking at the expense of long-term results.
- Use equity incentives to promote total return to shareholders, Company performance, and executive retention.
- Require meaningful stock ownership from our executive officers.
- Apply clawback features to all executive officer incentive pay in the event of an accounting restatement filed to correct a material non-compliance with financial reporting requirements, the material miscalculation of a financial measure used to determine the amount or vesting of incentive compensation, or reputational harm to the Company caused by the misconduct of an executive officer.
- Conduct reviews of annual incentive risks in conjunction with our Chief Risk Officer.
- Engage an independent compensation consultant who advises and reports directly to the Compensation Committee.
- Prohibit executive officers from engaging in hedging transactions in our common stock.
- Prohibit dividends on unvested equity awards, require one year minimum vesting period for equity awards, prohibit share recycling and repricing/discounting of stock options.
- Provide a shareholder say-on-pay vote.

Executive Compensation Process

Compensation Philosophy and Objectives. TowneBank's primary goal is to create long-term value for our shareholders. We believe that the quality of our NEOs and their ability to successfully lead the Company is a critical component of achieving that goal. To that end, TowneBank's executive compensation program is designed to motivate, attract, and retain the leadership deemed essential to ensure the success of the Company. The program strives to align executive compensation with Company objectives, business strategy, and financial performance while avoiding excessive risk. In applying these principles, the Company seeks to:

- Reward executives for enhancing shareholder value;
- Support an environment that rewards performance with respect to the achievement of Company goals, as well as Company performance relative to industry competitors;
- Integrate compensation programs with the short- and long-term strategic plans of the Company; and

- Align the interests of executives with the long-term interests of shareholders through award opportunities that can result in ownership of stock.

Role of the Compensation Committee. The executive compensation programs are administered by or under the direction of the Compensation Committee, with Mr. Aston making compensation recommendations for executive officers other than himself and are reviewed on an annual basis to ensure that remuneration levels and benefits are competitive and reasonable using the principles described above. The particular elements of the compensation programs for such persons are set forth in more detail below.

The Compensation Committee generally targets the median of the total direct compensation (base, annual cash incentive, and equity) of our peer group in setting compensation levels of our NEOs, unless certain factors, such as performance or expertise, warrant a higher or lower competitive positioning.

In approving the compensation of the Named Executive Officers and other members of the Corporate Management Group, the Compensation Committee considers the overall financial, market, and competitive performance of the Company during the fiscal year under consideration. In addition, the Compensation Committee also considers the proper balance between certain financial performance measures, including earnings per share, loan growth, and the level of and/or increases in return on assets and return on equity, without encouraging short-term profitability through unreasonable risk taking or a deterioration of long-term asset quality.

The Compensation Committee also takes into account individual as well as combined measures of progress of the Company, including the quality of the loan and investment portfolios, desirable changes in capital ratios, the overall growth of the Company, earnings per share, deposit market share positions, the level of non-performing loans and real estate owned, the performance of the non-bank financial service companies, the results of bank regulatory exams and ratings, and other objectives as may be established by the Board of Directors.

The Compensation Committee operates under a written charter that establishes its responsibilities. The Compensation Committee reviews the charter annually to ensure that the scope of the charter is consistent with its expected role. A copy of the charter can be found on the Company's website at www.townebank.com.

Role of the Executive Chairman. In 2025, the Compensation Committee made all compensation recommendations for Mr. Aston, in his role as Executive Chairman, after the annual review of his performance. Mr. Aston did not make recommendations with respect to his own compensation, nor was he present during the deliberations concerning his compensation.

With respect to the Company's other NEOs, the Compensation Committee considered salary and incentive recommendations prepared by Mr. Aston to establish compensation and approved equity awards to officers of the Company. The Compensation Committee may exercise its discretion in modifying any recommended adjustments to the compensation of the NEOs.

In 2026, it is anticipated that Mr. Aston, as Executive Chairman, will continue his role in making recommendations regarding the compensation of the Company's other NEOs and members of the Corporate Management Group. The Compensation Committee will continue to be solely responsible for determining Mr. Aston's compensation.

Role of the Independent Compensation Consultant. The Compensation Committee engages Meridian Compensation Partners, LLC ("Meridian") to perform executive compensation consulting services. The Compensation Committee has utilized the consulting services of Meridian, beginning after the 2024 annual meeting of shareholders, to facilitate the executive officer compensation process and other executive officer compensation initiatives. Meridian is an independent compensation consultant without any previous relationship to the Company's management. Meridian reports directly to the Compensation Committee, which retains sole authority to select, retain, terminate, and approve the fees and other retention terms of its relationship with Meridian.

The Compensation Committee analyzes whether the work of Meridian as a compensation consultant has raised any conflict of interest, taking into consideration the factors set forth in Rule 10C-1 of the Securities Exchange Act of 1934 and applicable Nasdaq rules. The Compensation Committee has determined that the work of Meridian and the individual compensation advisors employed by Meridian as compensation consultants to the Company has not created any conflict of interest.

Role of Benchmarking. The Company competes against a wide range of financial institutions, including local, regional and national banks, as well as numerous other financial service providers. Due to the significant market share position of the regional and national banks in the Company's key markets, coupled with the Company's growth, the Company primarily competes with these larger institutions for executive talent.

The Compensation Committee reviewed the compensation programs and philosophies of the major banks operating in the Company's markets, and other competitive data available to the committee. The Compensation Committee seeks to provide a comprehensive compensation opportunity for its executives commensurate with the market for talent.

The Compensation Committee, with the advice of its independent compensation consultant, regularly reviews the composition of the peer group of selected banking organizations to determine whether any updates are appropriate. Potential peer group companies are considered using the following screening criteria:

- **Geography:** Initial screen for companies headquartered in the Mid-Atlantic and Southeast regions.
- **Size:** Initial range of approximately 0.5x – 2x the Company's asset size. Banks below \$10 billion in assets were ultimately excluded.
- **Business Model:** Reasonably similar business model as indicated by loan portfolio mix and revenue characteristics.
- **Additional Considerations:** Although they exceeded the desired 2x size-based parameters by a considerable margin, Pinnacle Financial Partners, Inc. and SouthState Corporation were included for strategic reasons due to their overlapping market areas with TowneBank and the fact that we compete with each organization for talent and business.

The Compensation Committee ultimately approved a peer group that included the 20 banking organizations listed below with median assets of \$26.65 billion and ranging in assets from \$12.61 billion to \$65.89 billion as of June 30, 2025, and with operations weighted towards the Mid-Atlantic and Southeast regions. For purposes of setting compensation levels in 2025, the Compensation Committee determined that the banking organizations listed below continued to serve as an appropriate basis of comparison.

2025 Executive Compensation Decisions

Base Salary. The Company provides the NEOs and other employees with a base salary to compensate them for services rendered during the year. Base salary levels for the NEOs are primarily determined by the Compensation Committee for each executive based on his position and responsibility and what the committee deems necessary or appropriate to attract the level of competence needed for the position. Length of service, experience, and job performance are also considered.

The Compensation Committee reviews base salary levels annually and focuses on individual performance from prior years, current industry conditions, and current market considerations to ensure that base salary levels for the Company's NEOs and other executive officers are competitive within a range that the committee considers to be reasonable and necessary.

The Compensation Committee generally targets the median of the total direct compensation (base, annual cash incentive and equity) of our peer group in setting compensation levels for our NEOs, unless certain factors, such as performance or expertise, warrant a higher or lower competitive positioning. Compared to our peer group, the mix of the elements of total direct compensation has typically been more heavily weighted towards base salary. However, the level of total compensation, after taking into account all the various elements of compensation, targeted by the Compensation Committee for the NEOs and other members of the Corporate Management Group compares favorably with the Company's peer group.

In 2025, the Compensation Committee took the following actions regarding the base salaries for the NEOs.

- **Executive Chairman.** At its meeting in February 2025, the Compensation Committee increased Mr. Aston's base salary by 3%, from \$1.50 million to \$1.545 million, effective March 1, 2025.
- **President and Chief Executive Officer.** At its meeting in February 2025, the Compensation Committee increased Mr. Foster's base salary by 3%, from \$1.1 million to \$1.133 million, effective March 1, 2025. At its meeting in November 2025, the Compensation Committee decided that an increase in Mr. Foster's base salary to \$1.333 million, effective January 1, 2026, was appropriate in recognition of his important leadership role in the Company and his agreement to extend the term of his employment agreement for five years through December 31, 2030.
- **Other NEOs.** In connection with entering into a new five-year employment agreement and based on the Compensation Committee's determination that Mr. Littreal's continued contribution to the growth and success of the Company warranted a significant market adjustment, the Compensation Committee increased his base salary to \$950,000 effective as of January 1, 2025. The Compensation Committee also increased the base salary of Mr. Piccioli to \$566,500, effective as of March 1, 2025. Later in the year, the Compensation Committee increased the base salaries of Messrs. Morrison and Piccioli, along with the other members of the Corporate Management Group (excluding Messrs. Aston, Foster and Littreal), by a 4% cost of living adjustment effective as of September 1, 2025.

The table below shows the base salary of the NEOs in effect at December 31, 2025 and 2024. As noted above, the base salaries for the NEOs were increased at different times during the year. Taking these base salary increases into account, the average base salaries for the NEOs in 2025 were as follows: Mr. Aston – \$1,537,500; Mr. Foster – \$1,127,500; Mr. Littreal – \$950,000; Mr. Morrison – \$833,613; and Mr. Piccioli – \$571,392. The calculation of the incentive awards described below was based on the average base salary amount. See the Summary Compensation Table on page 31 for more information.

	Base Salary Level at December 31, 2025	Base Salary Level at December 31, 2024
G. Robert Aston, Jr.	\$1,545,000	\$1,500,000
William I. Foster III	\$1,133,000	\$1,100,000
William B. Littreal	\$ 950,000	\$ 772,500
William T. Morrison	\$ 856,960	\$ 824,000
Ernest S. Piccioli	\$ 589,160	\$ 556,200

Incentive Awards Paid/Granted in 2026 for 2025 Performance. The 2025 incentive plan used pre-established goals set by the Compensation Committee at the beginning of the year. As reflected in the table below, the Compensation Committee established a separate incentive opportunity for the Executive Chairman, Chief Executive Officer and the Chief Financial Officer. These individuals had a target award incentive opportunity of 60% average base salary, with the actual award to be between 0% (below threshold) to 75% (maximum) of average base salary depending on actual results. The other NEOs and members of the Corporate Management Group had a target award incentive opportunity of 40% of average base salary, with the actual award to be between 0% (below threshold) to 50% (maximum) of average base salary depending on actual results. No adjustments were made to the pre-established goals during the course of the year.

	Award Payout as a % of Average Base Salary		
	Threshold	Target	Maximum
Executive Chairman, CEO, and CFO	30%	60%	75%
Other NEOs and Corporate Management Group Members	20%	40%	50%

The plan included three performance measures.

- **Core Earnings per Share ("EPS"– 50% weighting).** For purposes of the plan, the Company defined core EPS as net income, less non-recurring items, divided by diluted shares. The Company reported core EPS of \$3.02, exceeding the superior level performance of \$2.80.

- **Core Return on Average Assets (core “ROAA” – 30% weighting).** For purposes of the plan, the Company defined core ROAA as net income, less tax effective realized gains (losses) on securities and nonrecurring items plus tax effective intangible amortization, divided by average assets. The Company achieved a core ROAA of 1.22%, which was benchmarked against the performance of the companies included in the proxy peer group listed on page 24 using the bands indicated in the table below. The Company achieved Threshold level performance (the peer median was 1.30%).

Award Payout Levels for Peer Percentiles		
Threshold	Target	Maximum
30-50%	51-75%	≥ 76%

- **Strategic Quality Measures (20% weighting).** The Compensation Committee evaluated certain strategic quality measures, including among others revenue growth, credit quality, liquidity, regulatory ratings, and deposit market share growth. The Compensation Committee also took into account the three bank acquisitions the Company successfully executed. Based on its qualitative assessment, the Compensation Committee determined that the Company achieved at superior level performance.

The Compensation Committee had the right to decrease, modify, or eliminate the incentive opportunity based on the Company’s performance and other factors the committee wished to consider.

Based on the Compensation Committee’s assessment of the Company’s performance level in 2025, the Compensation Committee approved incentive awards in February 2026 to Messrs. Aston, Foster, and Littreal equal in value to 61.5% of their average base salary for 2025 and to Messrs. Morrison and Piccioli and the other members of the Corporate Management Group equal in value to 41% of their average base salary for 2025.

(1) As a percentage of average base salary.

As indicated in the table below and in the exercise of its discretion, the Committee approved 75% of the incentive award to be paid in cash and 25% in the form of a restricted stock award, vesting in equal annual installments over a three-year period and subject to the officer’s continued service through the applicable vesting date. Because the Summary Compensation Table reports equity-based awards only in the year in which they were granted, the value of these restricted stock awards is not reported as compensation to the NEOs in this Proxy Statement.

Ernest S. Piccioli	50%	\$ 285,696	\$175,703	\$ 58,568	\$234,271

- (1) Consists of restricted stock award grants payable in shares of Company common stock that vest at the rate of one-third/year beginning on the first anniversary of the grant date, based on a service requirement that requires the executive to remain continuously employed through the applicable vesting date. Per the reporting requirements, the grant date fair value of these equity incentive awards will be reported in the Summary Compensation Table in next year’s proxy statement.
- (2) Represents 61.5% of the 2025 average base salaries for Messrs. Aston, Foster, and Littreal and 41.0% of the 2025 average base salaries for Messrs. Morrison and Piccioli.

Long-Term Equity Grants. In November 2025, the Company entered into agreements with Mr. Foster and Mr. Littreal which, among other things, extended their respective employment agreement terms for an initial five-year period that will expire on December 31, 2030, subject to automatic extensions. See “Named Executive Officer Compensation—Employee Agreements and Change-in-Control Agreements” on page 35. In recognition of their contributions to the growth and success of the Company and in connection with extending their employment agreement terms, the Compensation Committee approved the granting of a long-term equity award and special cash signing bonus to each officer.

The equity grants, which took the form of restricted stock awards, vest in equal annual installments over a three-year period based on continued service through each vesting date. The grant date value of the equity award for Mr. Foster was \$500,000, which corresponded to 15,485 shares based on the Company’s closing stock price on the November 19, 2025 grant date. The grant date value of the equity award for Mr. Littreal was \$350,000, which corresponded to 10,840 shares based on the Company’s closing stock price of the November 19, 2025 grant date.

The special cash signing bonus was \$250,000 for Mr. Foster and \$150,000 for Mr. Littreal.

At its February 2025 meeting, the Compensation Committee approved, at the recommendation of Mr. Aston, a retention equity grant to Mr. Piccioli that took the form of a restricted stock award that vests in equal installments over two years. The grant date value of the equity award was \$400,000, which corresponded to 10,846 shares based on the Company’s closing stock price at the February 28, 2025 grant date.

2026 Executive Compensation Decisions

Focus on Management Succession. As an important part of the Company’s strategic plan initiatives, the Board of Directors began the process of developing a new five-year management succession plan. To ensure the continuity of executive management during this process, towards the end of 2025 the Company entered into new five-year employment agreements with Messrs. Foster and Littreal as discussed above. In connection with closing the acquisition of Dogwood State Bank in January 2026, the Company entered into a five-year employment agreement with Steven W. Jones, the Chief Executive Officer of Dogwood, to join the executive management team to serve as President of the Carolinas. All three agreements expire on December 31, 2030, subject to automatic renewals. An additional step was taken by automatically allowing the renewal of the employment agreements for the other members of the Corporate Management Group for up to three years.

On March 20, 2026, the Board of Directors completed the process of ensuring the continuity of executive management by entering into an amended and restated employment agreement with Mr. Aston that replaced his prior employment and change in control agreements with the Company. The five-year term of the new employment agreement, which runs through December 31, 2030, aligns with the terms of the agreements for Messrs. Foster, Littreal, and Jones. In preparing the Company for the next decade of growth, the Board of Directors will now be in a better position to fully assess and expand the talent pool to help ensure TowneBank’s continued success for the benefit of all its stakeholders.

In light of Mr. Aston’s unique contributions to the growth and success of Company, including his pivotal role as founder of the Company and his long tenure as Chief Executive Officer and then as Executive Chairman since the Company’s founding in 1999, the Board of Directors and Compensation Committee determined that it was a high priority to ensure Mr. Aston’s continued leadership of the Company’s strategic initiatives and long-term management succession planning. During 2025 and early 2026, the Compensation Committee engaged in discussions with Mr. Aston regarding a new employment agreement to extend the term of his employment and include performance incentives tied to the successful integration of Company’s recently acquired banks and to the development of the Company’s future leaders.

New Employment Agreement with Mr. Aston. Pursuant to Mr. Aston’s new employment agreement, Mr. Aston will receive an annual base salary of no less than \$1,545,000, and he will be eligible to receive performance-based cash and equity incentive compensation as determined by the Board of Directors or Compensation Committee pursuant to the incentive plans then in effect. Mr. Aston received a signing bonus in connection with entering into the agreement. The signing bonus consisted of a lump sum cash payment equal to \$750,000 and a restricted stock award grant of 22,971 shares, which had a market value of approximately \$750,000 based on the closing price of the Company’s common stock on the grant date. The shares of restricted stock will vest in equal annual installments over two years.

Following the Company’s 2025 acquisitions of Village Bank and Trust Financial Corp. and Old Point Financial Corporation, and its 2026 acquisition of Dogwood State Bank, and in consideration of the importance of those transactions to the future of the Company, the Board of Directors approved a transaction success incentive for Mr. Aston. Mr. Aston will have the opportunity to earn a cash bonus of up to \$2,500,000 tied to the successful conversion and integration of those businesses into the

Company. The transaction success incentive will be contingent on the achievement of certain performance milestones, which will be developed by the Compensation Committee, over a performance period that commenced on March 20, 2026, the effective date of the new employment agreement, and will end on the first anniversary of the date of the employment agreement. The incentive will also be contingent on Mr. Aston's continued employment with the Company on the vesting dates, subject to accelerated vesting under certain circumstances.

The Board of Directors also approved a leadership continuity incentive for Mr. Aston to help bolster the Company's long-term management succession planning in light of its recent acquisitions and potential future growth. Mr. Aston will have the opportunity to earn a cash bonus of up to \$2,000,000 tied to the development of the next generation of leadership at the Company. The leadership continuity incentive will be contingent on the achievement of certain performance milestones, which will be developed by the Compensation Committee, over a performance period that commenced on the March 20, 2026 effective date of the employment agreement and will end on the second anniversary of the date of the employment agreement. The incentive will also be contingent on Mr. Aston's continued employment with the Company on the vesting date, subject to accelerated vesting under certain circumstances.

New Life Insurance Agreements with Mr. Aston. On March 20, 2026, the Company entered into an amended and restated life insurance agreement with Mr. Aston and the trustees of three separate irrevocable life insurance trusts established by Mr. Aston for the benefit of certain family members. The amended life insurance agreement amends and supersedes Mr. Aston's prior split dollar life insurance agreement with the Company and certain trusts. The parties have agreed that ownership of the entire \$10 million life insurance policy that was the subject of the prior split dollar life insurance agreement will be transferred to the three trusts. Because it is a term policy with no cash surrender value, the transfer of the life insurance policy has no balance sheet impact on the Company. The Company has agreed to pay all policy premiums until the earlier of Mr. Aston's death and 2040. Upon the death of Mr. Aston, each of the trusts is entitled to its respective share of the death benefits of the policy.

Also on March 20, 2026, the Company entered into a new split dollar life insurance agreement with Mr. Aston to formalize an existing arrangement with respect to the underlying insurance policy. Under the terms of the split dollar agreement, the Company will continue to own the life insurance policy and control all rights of ownership with respect to the policy and will pay all required premiums to keep the policy in effect during Mr. Aston's lifetime. The face amount of the policy is \$2 million. Upon the death of Mr. Aston, 50% of the death benefit of the policy will be paid to the Company, and the remaining 50% will be paid to Mr. Aston's designated beneficiary.

Other Aspects of Our Executive Compensation Program

Stock Ownership Guidelines. The Company's stock ownership guidelines call for the NEOs to own equity representing a multiple of their salary and to retain this equity throughout their tenure with the Company. The specific ownership guidelines are:

- Executive Chairman – three times base salary;
- Chief Executive Officer – three times base salary;
- President (if not also the Chief Executive Officer) – two times base salary; and
- Other NEOs – one times base salary.

The ownership threshold for directors is \$100,000 aggregate value of the Company's common stock.

Shares counting toward the ownership guidelines include shares owned directly and indirectly (e.g., by a spouse or trust); shares held in benefit plans and time-vested equity awards granted under the Company's stock incentive plan. Unexercised stock options, unearned performance shares and units, and pledged shares are not counted toward meeting the ownership guidelines.

The value of the Company's common stock held by a director or NEO is based on the average closing price of the Company's common stock for the last 10 trading days of the applicable year. As of January 1, 2026, with three exceptions, all of the directors and NEOs satisfied their respective stock ownership requirements. Mr. Foster became the President and Chief Executive Officer as of January 1, 2023, and is taking appropriate steps to accumulate ownership as permitted for a new Chief Executive Officer by the ownership guidelines. Dr. Shetty joined the Board on March 1, 2024 and Mr. Jenkins joined the Board on April 1, 2025. While they did not satisfy the ownership guidelines for a new Director as of January 1, 2026, they have since acquired a sufficient number of additional shares of the Company's common stock to meet the ownership threshold.

Clawback of Incentive-Based Compensation. The Board of Directors believes that it is in the best interests of the Company and its shareholders to maintain a culture that emphasizes integrity and accountability. Consistent with that philosophy, the Company has adopted a policy that provides for the recovery of incentive-based compensation paid to the Company's executive officers and certain other employees if the Company has to prepare an accounting restatement or correct a material miscalculation of a financial measure used to determine the amount or vesting of incentive compensation. The policy also allows for the recovery of incentive-based compensation if the misconduct of an executive officer causes serious reputational harm to the Company.

In the event of a restatement or material miscalculation of a financial measure, the policy will be triggered and will apply to any incentive-based cash or equity compensation granted, earned or vested, the amount of which was calculated based wholly or in part on the attainment of any financial reporting measure based on: (i) accounting principles using the Company's financial statements and any measures derived wholly or in part from such measures; (ii) stock price; or (iii) total shareholder return. The Company will recover any incentive compensation that is in excess of what would have been paid or granted based on the restated financial information or corrected financial measure, as the case may be, during the three completed fiscal years preceding the date on which the Board of Directors determines an accounting restatement is required to be filed or that a material miscalculation of any financial performance measure used to determine the amount or vesting of incentive compensation occurred. The policy applies to each executive officer of the Company, regardless of whether the individual was responsible for the accounting restatement or miscalculation of any financial performance measure. The policy also applies to an employee who the Board determines was directly responsible for such restatement or miscalculation.

If the Board of Directors determines that an executive officer has engaged in misconduct that causes, or is reasonably likely to cause, serious reputational harm to the Company or any client or former client of the Company, the Company may recover any incentive-based compensation received by the executive officer during the three completed fiscal years preceding such determination.

The Company's incentive compensation clawback policy complies with Nasdaq's final listing standards implementing the incentive compensation clawback rule adopted by the Securities and Exchange Commission as mandated by the Dodd-Frank Act.

Compensation Programs that Affect Risk Management. The Company uses incentive compensation plans for a large number of its employees in addition to our executive officers. The Company has business unit incentive plans that reward measurable performance across its three major business segments: Banking, Realty, and Insurance. The Company has employment compensation plans and arrangements with non-executive employees that provide variable cash compensation bonus, commission, or incentive payments. Each arrangement is available to a different set of employees, and the amount received differs depending on the level of job responsibility and plan objectives. The majority of these arrangements related to commissions paid to mortgage loan officers, insurance agents, and investment brokers are in lieu of or in addition to a base salary. The mortgage loan officers are compensated based on loan origination volume, which is subject to approval by a separate credit underwriting approval process. The Company does not believe that the risks which may arise from its compensation policies and practices are reasonably likely to have a material adverse effect on the Company.

Benefits. During 2025, the Company maintained various employee benefit plans that constitute a portion of the total compensation package available to NEOs and all eligible employees of the Company. These plans consist of the following:

- **Stock Incentive Plan.** The Company maintains a stock incentive plan that is designed to attract and retain qualified personnel in key positions and provide employees with a proprietary interest in the Company as an incentive to contribute to the success of the Company. The stock incentive plan provides for the grant of stock options and stock awards, including restricted stock awards and restricted stock units. The plan prohibits the payment of dividends or similar distributions on awards, whether subject to time-based or performance-based vesting, unless and until the vesting requirements have been met, requires a minimum one-year vesting period for awards granted under the plan, prohibits the repricing of stock options, and prohibits share recycling.

The Compensation Committee administers the plan, and each member of the committee is a "non-employee director" as defined in Rule 16b-3 under the Securities Exchange Act of 1934. Unless sooner terminated, the stock incentive plan will remain in effect until April 2035.

- **401(k) Plan.** The Company has adopted a defined contribution plan established in accordance with Section 401(k) of the Internal Revenue Code of 1986 (the "401(k) Plan"). Employees of the Company are eligible to participate in their second month of employment. Under the 401(k) Plan, employees may contribute a percentage of their annual salary, subject to statutory limitations. The Company may make matching and discretionary contributions under the 401(k) Plan. Employer contributions, if any, vest 20% after each year of service, until fully vested after five years of service.

In 2025, the Company matched employee contributions up to 3.0% of their salary. There were no additional discretionary contributions in 2025.

- **Supplemental Executive Retirement Plan.** The Company established a SERP on December 1, 2008, to provide supplemental retirement benefits to certain officers covered under the plan as selected by the Compensation Committee.

The SERP agreements with the officers generally provide that upon the later of separation of service or the attainment of retirement age, usually at age 65, the participating officer will be entitled to receive a retirement benefit equal to either (1) a designated percentage, ranging from 30% to 50% of their designated base salary depending on their level of seniority, with an annual 4% increase until retirement, or (2) a fixed targeted benefit amount.

The retirement benefit is payable over a 15-year period, beginning at attainment of retirement age. The SERP agreements provide for an annual vesting schedule until the participating officer reaches the planned retirement age.

In the case of a participating officer's voluntary termination of employment, disability, or termination for cause, the annual amount payable under the SERP is equal to the amount of the vested benefit earned as of the date of termination of employment. In the case of involuntary termination without cause or termination of employment for good reason by the participating officer, the participating officer becomes fully vested in the full retirement benefit. Upon termination of employment, payment of the retirement benefit does not begin until the participating officer reaches the designated retirement age set forth in the SERP agreement and is subject to certain loyalty and confidentiality covenants, including non-competition, non-solicitation, and other restrictions. In the event of death, the full amount of the retirement benefit is payable.

The Company invested in bank-owned life insurance as a financing strategy to offset the cost of the nonqualified benefits through a combination of incremental tax-effected earnings and tax-free death benefits to the Company as beneficiary.

- **Nonqualified Deferred Compensation.** The NEOs, in addition to certain other eligible executives, are entitled to participate in the TowneBank Deferred Compensation Plan. Pursuant to the Deferred Compensation Plan, eligible employees can defer up to 100% of base salary and/or annual bonus on an annual basis. Deferral elections are made by eligible executives in November of each year for amounts to be earned in the following year.

The Company has the option to match an employee's nonqualified deferred compensation deferrals up to a maximum of 6% of his or her salary. In addition, the Company has the option to make additional matching contributions to employees whose matching contributions were limited in the 401(k) Plan due to statutory limitations. The Company does not match deferrals made by employees who are participants in the Supplemental Executive Retirement Plan. Compensation deferred pursuant to the plan is invested in a rabbi trust and participants are credited with an annual return equal to 120% of the long-term applicable federal rate as published and effective each July.

There was no Company match of contributions made by Named Executive Officers in 2025.

- **Health and Welfare Plans.** The NEOs are eligible to participate in Company-sponsored benefit plans on the same terms and conditions as those generally provided to salaried employees. Basic health benefits, dental benefits and similar programs are provided to make certain that access to healthcare and income protection is available to employees and their family members.

The cost of Company-sponsored benefit plans is negotiated with the providers of such benefits, and the executive officers contribute to the cost of the benefits. In accordance with terms of their respective employment agreements, the Company also provides post-retirement benefits. These post-retirement benefits include healthcare, dental care, Medicare Part B reimbursement and life insurance benefits.

- **Other.** The Company has no other long-term incentive, defined benefit or actuarial plans covering employees of the Company.

Tax Deductibility of Compensation. The Compensation Committee annually reviews and considers the deductibility under the Internal Revenue Code of 1986 of the compensation paid to our executive officers, which includes each of the NEOs. Generally, compensation paid to our executive officers in excess of \$1 million may not be deductible for tax purposes. While the Company will monitor guidance and developments in this area, the Compensation Committee believes that its primary responsibility is to provide a compensation program that attracts, retains and rewards the executive talent necessary for our success. Consequently, the Compensation Committee may pay or provide, and has paid or provided, compensation that is not tax deductible or is otherwise limited as to tax deductibility.

- (1) Amounts reflect the aggregate grant date fair value of stock awards computed in accordance with FASB ASC Topic 718. The assumptions made in the valuation of the restricted stock awards are set forth in Note 15 of the Notes to Consolidated Financial Statements in TowneBank's Annual Report on Form 10-K for the year ended December 31, 2025.
- (2) Consists of cash incentive compensation paid to the officers as described under "Compensation Discussion and Analysis" beginning on page 20. For 2025 performance, Mr. Aston, Mr. Foster, and Mr. Littreal earned an incentive award equal in value to 61.5% of their average base salary for 2025 and Mr. Morrison and Mr. Piccioli earned an incentive award equal in value to 41% of their average base salary, 75% of which was paid as a cash award and 25% of which was paid through the issuance of restricted stock granted in February 2026 and which vests in equal installments over a three year period. For 2024 performance, the officers earned an incentive award equal in value to 32% of their average base salary for 2024, except for Mr. Aston whose incentive award represents 35.7% of his average base salary for 2024, 75% of which was paid as a cash award and 25% of which was paid through the issuance of restricted stock granted in February 2025 and which vests in equal installments over a three year period. For 2023 performance, the officers did not earn an incentive award.
- (3) Reflects the change in actuarial present value of SERP benefits. All amounts are paid in equal monthly installments over a 15-year period upon attainment of retirement age, other than the amounts for Mr. Morrison, which includes his Monarch SERP that consists of amounts to be paid in equal monthly installments over a 10 year period. Accounting rules require that the expense be recorded over the participant's remaining service period prior to attainment of retirement eligibility.

Grants of Plan-Based Awards

The Company's stock incentive plan provides for the grant of both incentive and nonqualified stock options and stock awards, including restricted stock and restricted stock units, to executives and key employees of the Company. Executives and key employees of the Company may also receive incentive compensation in the form of annual cash bonuses. The following table shows: (i) the non-equity (cash) incentive awards granted to the NEOs for 2025 performance; and (ii) the stock awards granted to the NEOs in 2025 for their contributions to the growth and success of the Company.

(1) Actual cash awards paid in 2026 for the 2025 incentive are reflected in the "Summary Compensation Table" under the Non-Equity Incentive Compensation column. See that table and related footnote (2) for more information.

(2) Amounts represent the range of possible annual cash incentive payouts for 2025 performance.

(3) Amounts reflect the aggregate grant date fair value of stock awards computed in accordance with FASB ASC Topic 718. The assumptions made in the valuation of the restricted stock awards are set forth in note 15 of the Notes to Consolidated Financial Statements in TowneBank's Annual Report on Form 10-K for the year ended December 31, 2025.

With respect to 2025 performance, the Compensation Committee determined that 75% of the total incentive award value should be paid in cash and 25% in the form of restricted stock that will vest over a three year period, beginning in 2027. The restricted stock awards for 2025 performance are not included in the table above (or in the Summary Compensation Table on the preceding page) because the applicable compensation disclosure rules provide that restricted stock awards should be reflected only in the year in which they are granted (in this case, the restricted stock awards were granted in February 2026).

Supplemental Executive Retirement Plan

The following table shows the actuarial present value of accumulated benefits payable to each of the participating NEOs as of December 31, 2025, including the number of years of service credited to each such NEO, under the SERP using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements. Benefits under these plans are generally payable as a monthly annuity for a 15-year period upon attainment of retirement age and remain subject to certain loyalty and confidentiality covenants, including non-competition, non-solicitation, and other restrictions. Mr. Morrison's SERP agreement is payable as an annual annuity for a 15-year period and his Monarch SERP agreements that were assumed by TowneBank in conjunction with the Monarch merger are payable as an annual annuity for a 10-year period.

Employment Agreements and Change-in-Control Agreements

The Company has or had employment agreements and/or change-in-control agreements with each of the persons named in the Summary Compensation Table. The agreements were entered into to provide protection for, and thus retain, its well-qualified executive officers notwithstanding any actual or threatened change in control of TowneBank.

Employment Agreements. The Company has employment agreements with each of its NEOs. The employment agreements for the officers are substantially similar, except for the different levels of base salary, and include the following terms and conditions.

The employment agreements with Messrs. Aston, Foster, and Littreal have an initial five-year term and renew automatically for additional periods of three years, except for Mr. Aston's agreement which has no automatic renewal provision, unless either party elects not to renew the agreement prior to the renewal date. The employee agreements with Messrs. Morrison and Piccioli have an initial three-year term and renew automatically for additional periods of two years unless either party elects not to renew the agreement prior to the renewal date. All agreements provide for an annual base salary, which may be adjusted annually by the Board of Directors, an annual cash bonus and stock compensation in such amounts as may be determined by the Board, and are subject to non-competition and non-solicitation covenants.

The Company may terminate the employment of an officer at any time for "cause" (as defined in each agreement) without incurring any additional obligations. If the Company terminates the employment of an officer for any reason other than for "cause" or if an officer terminates his or her employment for "good reason" (as defined in each agreement), the Company will be obligated to continue to provide the compensation and benefits specified in each agreement until the expiration of its term.

The employment agreements will terminate in the event that there is a change in control of the Company, at which time the change-in-control agreements described below between the Company and the executives will become effective, and any termination benefits will be determined and paid solely pursuant to the change-in-control agreements.

Change-in-Control Agreements. The Company also has change-in-control agreements with each of its NEOs. The change-in-control agreements become effective upon a change in control of the Company and protect income for key executives who would likely be involved in decisions regarding and/or successful implementation of merger/acquisition activity and who are at risk for job loss if a takeover occurs. The Board believed it was important to adopt such agreements in order to keep executives employed with the Company.

Under the terms of these agreements, the Company or its successor must continue to employ each officer for a term of three years after the date of a change in control. During such period, the officer is entitled to retain commensurate authority, responsibilities, and compensation benefits. The officers will receive base salaries at least equal to their salaries for the immediate prior year and bonuses at least equal to the annual bonuses paid prior to the change in control. If an officer's

employment is terminated during the three years other than for “cause” or “disability” (as defined in each agreement), or if the officer should terminate employment because a material term of his or her contract is breached by the Company or its successor, the officer will be entitled to a lump-sum payment, in cash, within 30 days after the date of termination. This lump sum amount will be equal to 2.99 times (in the case of Messrs. Aston and Littreal) or 2.90 times (in the case of Messrs. Foster, Morrison and Piccioli) the sum of the officer’s base salary, annual bonus and equivalent benefits.

The following table provides information on the potential payment upon termination of employment or a change in control of the Company for the NEOs, assuming a termination or change in control occurred on December 31, 2025.

(1) The change-in-control agreements include a “best-net” provision regarding Internal Revenue Code Section 280G, which could result in a reduction in the amounts paid by the Company following a change in control. The amounts shown do not reflect the potential impact of those provisions.

(2) The Post-Termination Compensation and Health Care Benefits Continuation shown reflect amounts payable on death or disability termination, as applicable, following a change in control. In such termination circumstances prior to a change in control, salary generally is payable for a maximum of 30 days with no welfare benefit supplement.

(3) Messrs. Morrison and Piccioli hold restricted stock units, as well as restricted stock awards.

(4) The amounts shown reflect the total of payments to be made to the executive. SERP benefits vest immediately upon death or termination without cause or for good reason. All amounts are paid in equal monthly or annual installments over a 15-year period commencing within 90 days of the death of a participant or the month after the participant would have attained age 65, other than Mr. Morrison. Mr. Morrison’s amounts consist of annual payments for 10 years under his Monarch SERPs and annual payments for 15 years under his TowneBank SERPs that, when combined, result in an equal amount being paid for each year of the 15-year payment period. Under Mr. Morrison’s Monarch SERPs, upon early retirement, termination, death or disability, amounts are paid in a single lump sum based on the present value of the payments that would be made following normal retirement.

Pay Versus Performance

As required by Section 953(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(v) of Regulation S-K, we are providing the following information about the relationship between executive compensation actually paid and certain measures of the Company's financial performance. For further information concerning the Company's pay-for-performance philosophy and how our Compensation Committee aligns executive compensation with the Company's performance, refer to the Compensation Discussion and Analysis section beginning on page 20.

The tabular and narrative disclosures provided below are intended to be calculated in a manner consistent with the applicable SEC rules and may reflect reasonable estimates and assumptions where appropriate.

The following table provides information required under the SEC's Item 402(v) of Regulation S-K disclosing (i) a measure of total compensation and a measure reflecting "compensation actually paid" for our principal executive officer ("PEO") and, as an average, for our other NEOs, and (ii) select financial performance measures, in each case, for our five most recently completed fiscal years.

The equity award adjustments for each applicable year include the addition (or subtraction, as applicable) of the following: (i) the year-end fair value of any equity awards granted in the applicable year that are outstanding and unvested as of the end of the year; (ii) the amount of change as of the end of the applicable year (from the end of the prior fiscal year) in fair value of any awards granted in prior years that are outstanding and unvested as of the end of the applicable year; (iii) for awards that are granted and vest in the same applicable year, the fair value as of the vesting date; (iv) for awards granted in prior years that vest in the applicable year, the amount equal to the change as of the vesting date (from the end of the prior fiscal year) in fair value; (v) for awards granted in prior years that are determined to fail to meet the applicable vesting conditions during the applicable year, a deduction for the amount equal to the fair value at the end of the prior fiscal year; and (vi) the dollar value of any dividends or other earnings paid on stock or option awards in the applicable year prior to the vesting date that are not otherwise reflected in the fair value of such award or included in any other component of total compensation for the applicable year. The valuation assumptions used to calculate the fair value were updated as of each measurement date and will differ from those disclosed as of the grant date. The methodology used to develop the valuation assumptions as of each applicable measurement date is consistent with those disclosed at the time of grant. The amounts deducted or added in calculating the equity award adjustments are as follows:

- (7) The dollar amounts reported represent our net income, as reflected in the Company’s audited financial statements for the applicable year.
- (8) The dollar amounts reported represent our operating revenue, as reflected in the Company’s audited financial statements for the applicable year. While the Company uses several financial performance measures for the purpose of evaluating performance for the Company’s compensation programs, the Company has determined that revenue is the financial performance measure that, in the Company’s assessment, represents the most important performance measure (that is not otherwise required to be disclosed in the table) used by the Company to link compensation actually paid to the NEOs, for the most recently completed fiscal year, to the Company’s performance.

List of Most Important Financial Performance Measures to Determine 2025 Compensation Actually Paid. As described in more detail in the “Compensation Discussion and Analysis” section starting on page 20, our executive compensation program reflects a pay-for-performance philosophy and includes performance metrics that are intended to incentivize our NEOs and align our NEOs’ interests with those of our shareholders. With respect to the 2025 fiscal year, the most important financial performance measures used to link executive compensation actually paid to our performance overall are as follows:

Metrics Used in Determining NEO Pay

Total Revenue
Earnings Per Share (EPS)
Credit Quality
Market Share
Return on Assets (ROA)

Analysis of the Information Presented in the Pay Versus Performance Table. As described in more detail in the “Compensation Discussion and Analysis” section, the Company’s executive compensation program reflects a variable pay-for-performance philosophy. While the Company utilizes several financial performance measures to align executive compensation with Company performance, all of those Company measures are not presented in the Pay Versus Performance Table. Moreover, the Company generally seeks to incentivize creation of long-term shareholder value, and, therefore, does not specifically align the Company’s performance measures with compensation that is actually paid (as computed in accordance with Item 402(v) of Regulation S-K) for a particular year. In accordance with Item 402(v) of Regulation S-K, the Company is providing the following descriptions of the relationships between information presented in the Pay Versus Performance Table.

Compensation Actually Paid and Net Income. As demonstrated by the following graph, the compensation actually paid to Mr. Foster and Mr. Davis and the average amount of compensation actually paid to the non-PEO NEOs is trending with the Company's net income over the five years presented in the Pay Versus Performance Table.

Compensation Actually Paid and Total Shareholder Return (TSR). As demonstrated by the following graph, the compensation actually paid to Mr. Davis and Mr. Foster and the average amount of compensation actually paid to the non-PEO NEOs decreased in 2022 and 2023, unlike the Company's TSR in both years. The amount of compensation actually paid to Mr. Foster and the average amount of compensation actually paid to the non-PEO NEOs in 2024 is trending with the Company's TSR. The amount of compensation actually paid to Mr. Foster and the average amount of compensation actually paid to the non-PEO NEOs in 2025 increased while the Company's TSR remained nearly level with the prior year. The alignment of compensation actually paid with the Company's TSR over the period presented is because a significant portion of the compensation actually paid to Mr. Foster, Mr. Davis, and to the other NEOs is comprised of equity awards. For more information regarding the elements of our executive compensation program and, in particular, our pay mix, refer to the Compensation Discussion and Analysis section on page 20.

Compensation Actually Paid and Total Revenue. As demonstrated by the following graph, the compensation actually paid to Mr. Davis and Mr. Foster and the average amount of compensation actually paid to the non-PEO NEOs decreased in 2022 and 2023 while revenue increased in both years. The Company's revenue decreased slightly in 2024 while the compensation actually paid to Mr. Foster and the average amount of compensation actually paid to the non-PEO NEOs increased. The compensation actually paid to Mr. Foster and the average amount of compensation actually paid to the non-PEO NEOs is trending with the Company's revenue in 2025.

Cumulative TSR of the Company and Cumulative TSR of the Peer Group. As demonstrated by the following graph, the Company's cumulative TSR overperformed compared to the Index in each fiscal year except for 2025. For more information regarding the Company's performance and the companies that the Compensation Committee considers when determining compensation, refer to the Compensation Discussion and Analysis section on page 20.

CEO Pay Ratio

Rules enacted by the Securities and Exchange Commission and adopted by the FDIC require us to disclose the ratio of the annual total compensation of our Chief Executive Officer during the last fiscal year to the median annual total compensation of all our employees. For 2025, the annual total compensation of William I. Foster III was \$3,317,088, and the median employee's annual total compensation was \$62,398. Based on these amounts, the ratio of the annual total compensation of Mr. Foster to the median of the annual total compensation of all our employees was approximately 53 to 1.

We believe our compensation programs for both our executive and non-executive level employees must be internally consistent and equitable to motivate our employees to create shareholder value. While the Compensation Committee monitors the relationship between the compensation levels of our executive officers and our non-executive employees, the Compensation Committee does not view this ratio as a meaningful tool in evaluating the appropriateness of the Chief Executive Officer's compensation, either on an internal or external basis.

We completed the following steps to identify the median of the annual total compensation of all our employees and to determine the annual total compensation of our median employee and Chief Executive Officer:

- As of December 31, 2025, our employee population consisted of approximately 2,976 employees, including full-time, part-time, temporary, or seasonal employees employed on that date.
- To find the median of the annual total compensation of all our employees (other than our Chief Executive Officer), we used wages from our payroll records as reported to the Internal Revenue Service on Form W-2 for 2025. In making this determination, we annualized the compensation for full-time and part-time permanent employees who were employed on December 31, 2025, but did not work for us the entire year. No full-time equivalent adjustments were made for part-time employees.
- After identifying the median employee, we added together all of the elements of such employee's compensation for 2025 in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K. Total compensation for Mr. Foster is the amount reported in the "Total" column of our 2025 Summary Compensation Table on page 31.

Pay ratios that are reported by our peers may not be directly comparable to ours because of differences in the composition of each company's workforce, as well as the assumptions and methodologies used in calculating the pay ratio, as permitted by Securities and Exchange Commission rules.

The Davis Advisory Agreement confirms the terms of Mr. Davis’s service as a senior advisor through June 30, 2026.

Under the Davis Advisory Agreement, Mr. Davis served as an employee senior advisor of the Company from the Succession Date through June 30, 2023 (the “Retirement Date”). During that time, his base salary was reduced to an annualized rate of

It is the Audit Committee's policy to approve fees for services rendered by the Company's independent auditors only upon a review of such fees.

Pre-Approval Policy

Under the Audit Committee's pre-approval policy, the Audit Committee is required to review the services expected to be provided by the independent auditor to ensure that the provision of such services will not impair the auditor's independence. For other services provided by the independent auditor that are not specifically excluded, pre-approval by the Audit Committee on an individual project basis is required. Approval for such services may be requested at the next Audit Committee meeting. If earlier approval is necessary, it may be obtained in accordance with the Audit Committee's delegation to the Chair of the Audit Committee, in which case the decision must be presented to the full Audit Committee at its next meeting. For any financial or other consulting or advisory services to be provided by an outside firm, other than the independent auditor, and which services are within the purview of the Audit Committee, pre-approval by the Audit Committee on an individual project basis is required if the estimated fees for such project exceed \$25,000. A summary of all fees paid for any financial services, whether to the independent auditor or to other outside providers, must be presented annually to the Audit Committee.
