

A photograph of two healthcare professionals, a woman and a man, both wearing white lab coats and stethoscopes, engaged in a conversation in a modern hospital hallway. The woman on the left is smiling and looking towards the man. The man on the right is also smiling and looking back at her. They are standing in front of a large window with a grid pattern. A staircase with a metal railing is visible in the background to the right. The overall lighting is bright and professional.

INVESTOR PRESENTATION

Spring 2024

LEGAL DISCLAIMER

This presentation and associated commentary may contain forward-looking statements, including statements regarding expectations of future results of operations or financial performance of Doximity, market size and growth opportunities, the calculation of certain of our key financial and operating metrics, capital expenditures, plans for future operations, competitive position, technological capabilities, and strategic relationships, general business conditions and the assumptions underlying those statements.

Any forward-looking statements contained in this presentation and associated commentary are based upon Doximity's historical performance and its plans, estimates and expectations as of the dates noted in this presentation, and are not a representation that such plans, estimates, or expectations have been or will be achieved. These forward-looking statements represent Doximity's expectations as of the dates noted in this presentation. You should not put undue reliance on any forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved, if at all. Subsequent events may cause these expectations to change, and Doximity disclaims any obligation to update the forward-looking statements in the future. These forward-looking statements are subject to known and unknown risks and uncertainties that may cause actual results to differ materially, including, but not limited to, those related to our business and financial performance, our ability to attract and retain customers, our ability to develop new products and services and enhance existing products and services, our ability to respond rapidly to emerging technology trends, our ability to execute on our business strategy, our ability to compete effectively and our ability to manage growth.

Additional risks and uncertainties that could affect Doximity's financial results are included under the captions, "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the company's filings with the Securities and Exchange Commission on Form 10-K and subsequent Form 10-Qs. These materials are available on our investor relations website at investors.doximity.com under the Financials section and on the SEC's website at sec.gov. Further information on potential risks that could affect actual results will be included in other filings Doximity makes with the SEC from time to time. In addition to financial information presented in accordance with U.S. generally accepted accounting principles ("GAAP"), this presentation and associated commentary may include certain non-GAAP financial measures (including on a forward-looking basis) such as Adjusted EBITDA and Free Cash Flow. Definitions and reconciliations of non-GAAP measures to their most directly comparable GAAP counterparts are available in our most recent Form 10-K or 10-Q on the company's investor relations website at investors.doximity.com.

1. As of March 31, 2024. # of brands with \$100M+ in US sales (based on data from Evaluate Pharma) where Doximity has revenue.

2. As of March 31, 2024. # of brands between \$1m to \$100m in US sales (based on data from Evaluate Pharma) where Doximity has revenue.

3. As of March 31, 2024. Estimated Doximity Share of HCP Marketing Budgets is calculated by assuming a certain percent of a brand's US Sales is spent on HCP marketing. We then take Doximity's revenue for that brand and divide it by our estimate of its HCP marketing budget. This is looking at Doximity Share of HCP Marketing Budgets for the cohort of brands with \$1m+ in US Sales.

- 1 Leading digital platform for doctors
- 2 Powerful network effects
- 3 Sustainable revenue growth & profitability
- 4 Veteran vertical team
- 5 Massive near-term market opportunity fueled by shift to digital

APPENDIX: NON-GAAP FINANCIAL MEASURES

To supplement our consolidated financial statements, which are prepared and presented in accordance with accounting principles generally accepted in the United States ("GAAP"), the Company uses the following non-GAAP measures of financial performance:

Non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating income, non-GAAP net income, non-GAAP net income margin, and non-GAAP basic and diluted net income per common share: We exclude the effect of stock-based compensation expense, amortization of acquired intangible assets, restructuring expense, change in fair value of contingent earn-out consideration liability, and acquisition and other related expenses from non-GAAP gross profit, non-GAAP gross margin and non-GAAP operating income. Non-GAAP net income and non-GAAP net income margin are further adjusted for estimated income tax on such adjustments. We calculate income taxes on the adjustments by applying an estimated annual effective tax rate to the adjustments. Non-GAAP basic and diluted net income per common share is non-GAAP net income attributable to common stockholders divided by the weighted average number of shares. For both basic and diluted non-GAAP net income per share, the weighted average shares we use in computing non-GAAP net income per share is equal to our GAAP weighted average shares. Non-GAAP gross margin represents non-GAAP gross profit as a percentage of revenue and non-GAAP net income margin represents non-GAAP net income as a percentage of revenue.

Adjusted EBITDA and adjusted EBITDA margin: We define adjusted EBITDA as net income before interest, income taxes, depreciation, and amortization, and as further adjusted for acquisition and other related expenses, stock-based compensation expense, restructuring expense, change in fair value of contingent earn-out consideration liability, and other income, net. Net income margin represents net income as a percentage of revenue and adjusted EBITDA margin represents adjusted EBITDA as a percentage of revenue.

Free cash flow: We calculate free cash flow as cash flow from operating activities less purchases of property and equipment and internal-use software development costs.

We use these non-GAAP financial measures internally for financial and operational decision-making purposes and as a means to evaluate period-to-period comparisons. Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Our presentation of non-GAAP financial measures may not be comparable to similar measures used by other companies. We encourage investors to carefully consider our results under GAAP, as well as our supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand our business. Please see the tables included at the end of this release for the reconciliation of GAAP to non-GAAP results.

Key Business Metrics

Net revenue retention rate: Net revenue retention rate is calculated by taking the trailing 12-month ("TTM") subscription-based revenue from our customers that had revenue in the prior TTM period and dividing that by the total subscription-based revenue for the prior TTM period. For the purposes of this calculation, subscription revenue excludes subscriptions for individuals and small practices and other non-recurring items. Our net revenue retention rate compares our subscription revenue from the same set of customers across comparable periods, and reflects customer renewals, expansion, contraction, and churn. Our net revenue retention rate is directly tied to our revenue growth rate and thus fluctuates as that growth rate fluctuates.

Customers with trailing 12-month subscription revenue greater than \$500,000: The number of customers with TTM subscription revenue greater than \$500,000 is a key indicator of the scale of our business, and is calculated by counting the number of customers that contributed more than \$500,000 in subscription revenue in the TTM period. Our customer count is subject to adjustments for acquisitions, consolidations, spin-offs, and other market activity, and we present our total customer count for historical periods reflecting these adjustments.

APPENDIX: ADJUSTED EBITDA & MARGIN NON-GAAP RECONCILIATION

	Year Ended March 31,					
	2019	2020	2021	2022	2023	2024
	(in thousands)					
Net Income	\$7,833	\$29,737	\$50,210	\$154,783	\$112,818	\$147,582
Adjustments:
