Disclaimer

This presentation (including any information which has been or may be supplied in writing or orally in connection herewith or in connection with any further inquiries, this “Presentation”) contains information regarding Tecnoglass Inc. and its subsidiaries, as applicable, where it holds a direct or indirect interest (together “Tecnoglass” or the “Company”) that is confidential and proprietary to the Company. We have prepared this document solely for informational purposes. You should not definitively rely upon it or use it to form the definitive basis for any decision, contract, commitment or action whatsoever, with respect to any proposed transaction or otherwise. By participating in this Presentation, each participant agrees to the terms hereof, as follows: Each participant will and will cause its directors, officers, employees, affiliates, agents, advisors and representatives to use the information contained in this Presentation only to evaluate the proposed transaction in respect of the Company and may not communicate, reproduce, distribute or disclose it to any other person, or refer to it publicly, in whole or in part at any time except with our prior written consent. If you are not the intended recipient of this document, please delete and destroy all copies immediately.

Neither the Company nor any of its representatives makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained in this Presentation, and nothing contained herein is, or shall be relied upon as, a promise or representation, whether as to the past or the future. Only those representations and warranties that are made in a definitive written agreement relating to a transaction in respect of the Company, when and if executed, and subject to any limitations and restrictions as may be specified in such definitive agreement, shall have any legal effect.

This Presentation does not purport to contain all of the information that may be required to evaluate a potential transaction in respect of the Company, and any person participating in this Presentation should conduct its own independent investigation and analysis.

Forward Looking Statements

This presentation includes certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding future financial performance, future growth and future acquisitions. These statements are based on Tecnoglass’ current expectations or beliefs and are subject to uncertainty and changes in circumstances. Actual results may vary materially from those expressed or implied by the statements herein due to changes in economic, business, competitive and/or regulatory factors, and other risks and uncertainties affecting the operation of Tecnoglass’ business. These risks, uncertainties and contingencies are indicated from time to time in Tecnoglass’ filings with the Securities and Exchange Commission. The information set forth herein should be read in light of such risks. Further, investors should keep in mind that Tecnoglass’ financial results in any particular period may not be indicative of future results. Tecnoglass is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements, whether as a result of new information, future events, changes in assumptions or otherwise.

Financial Presentation

Certain of the financial information contained herein is unaudited and does not conform to SEC Regulation S-X. Furthermore, it includes EBITDA (earnings before interest, taxes, depreciation and amortization) which is a non-GAAP financial measure as defined by Regulation G promulgated by the SEC under the Securities Act of 1933, as amended. Accordingly, such information may be materially different when presented in Tecnoglass’ filings with the Securities and Exchange Commission. Tecnoglass believes that the presentation of this non-GAAP financial measure provides information that is useful to investors as it indicates more clearly the ability of Tecnoglass to meet capital expenditures and working capital requirements and otherwise meet its obligations as they become due. EBITDA was derived by taking earnings before interest, taxes, depreciation and amortization as adjusted for certain one-time non-recurring items and exclusions.

No offer or solicitation

This announcement is not intended to and does not constitute an offer to sell or the solicitation of an offer to subscribe for or buy or an invitation to purchase or subscribe for any securities or the solicitation of any vote or approval in any jurisdiction, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in contravention of applicable law. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

Attractive Portfolio of Well-Positioned Brands

Tecnoglass is a leading architectural glass manufacturer with vertically integrated operations under one roof

Notes:

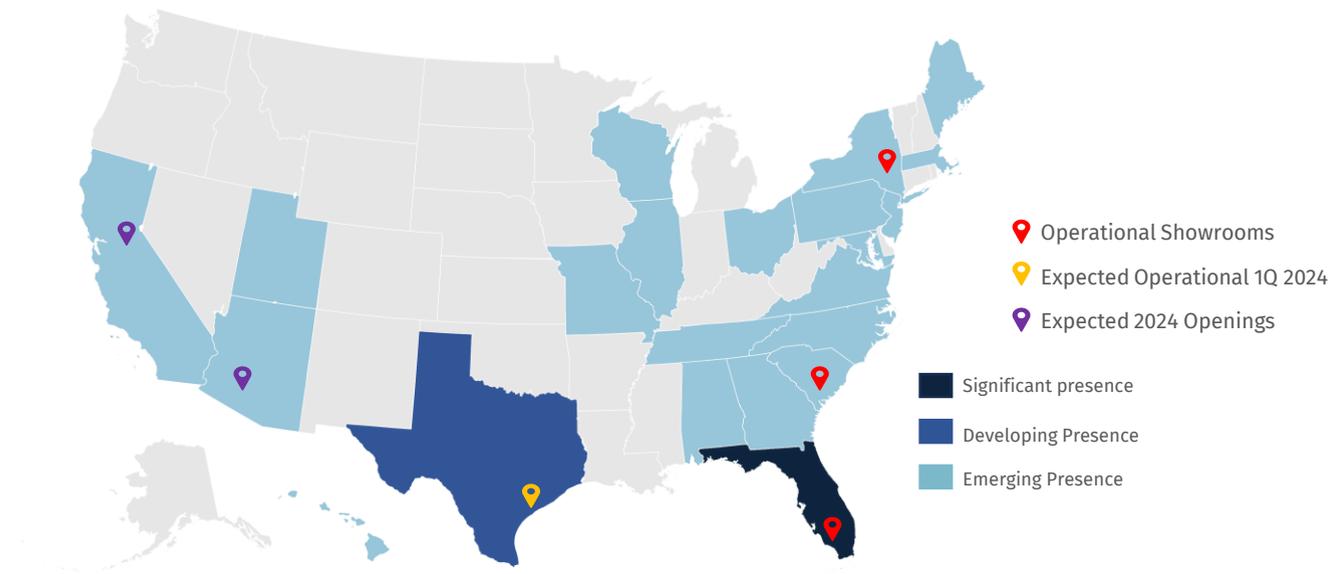

1. Adjusted EBITDA excludes non-recurring and non-cash expenses mainly associated with non-cash foreign exchange transaction gains or losses, non-recurring professional fees and other non-core items, and include the proportional contribution of the Company's joint venture with Saint-Gobain.

Global Leader in Architectural Windows and Glass

Supplying Architectural Glass Products to Landmark Properties in the U.S. and Latin America

- Leading global manufacturer, distributor and installer of high-spec architectural windows and glass for residential and multi-family / commercial applications with leadership position in the U.S. market
- 40-year track record of product innovation and high-quality standards
- Broad portfolio serving a well-diversified base of nearly 1,000 customers
- Vertically integrated, state-of-the-art manufacturing complex with significant recent capital investments
- Strategic, cost-efficient business model provides a significant structural competitive advantage and high barriers to entry
- Highly skilled, dedicated employee base led by an experienced management team
- Double-digit organic growth CAGR over past decade with industry-leading margins
- Over 85% of revenues considered green revenues, contributing to reducing global emissions and mitigating climate change effects

TGLS Successful Geographic Expansion in the U.S.

Built-to-Suit Innovative Products Pacing Ahead of Evolving Industry Trends

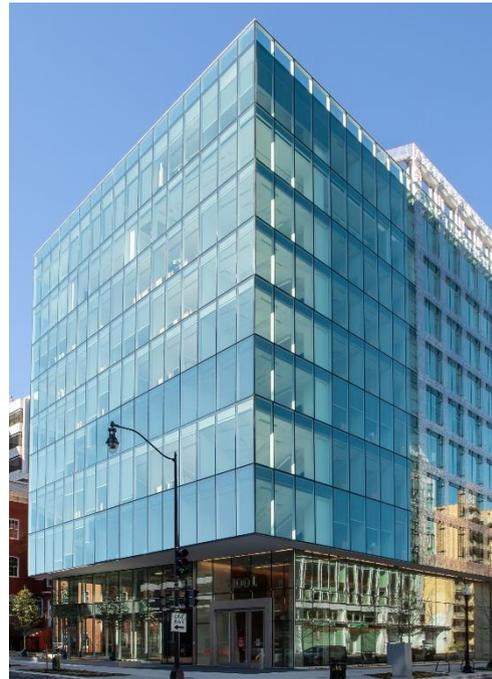

Tecnoglass' High-Quality Products and Exceptional Customer Service Allow it to Better Serve Customers and Support Organic Growth in Each of Our End Markets

Multi-Family / Commercial Markets:

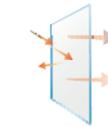

Curtain Walls and Other Architectural Systems such as windows, doors, window walls, storefronts, railings, louvers and new vinyl product line

Aluminum products for architectural glass settings: bars, plates, profiles, rods, and tubes

- Revenue 2023: \$498mm, 21% YoY Growth
- CAGR '17- '23: 14%
- 35+ years serving all end markets

Glass Technology

Low-emissivity glass (Low-E)

Tempered Glass

Laminated Glass

Insulated Glass

Digital Print Glass

Silkscreen glass

Features:

Blast Resistant

Hurricane Resistant

Thermally Broken

Single-Family Residential Specialty Brands:

High performance energy-efficient Low-E and impact-resistant aluminum and vinyl Windows and Doors meeting demanding security, strength, and durability standards

- Revenue 2023: \$335 mm, 10% YoY Growth
- CAGR '17- '23: 90%
- 6+ years serving SF residential

Prestige
LINE by ESWINDOWS

The Prestige residential line offers meticulously crafted luxury windows and doors with superior quality and style

ELITE E
by ESWINDOWS LINE

E-Line offers homeowners comfort, high design, and superior thermal performance

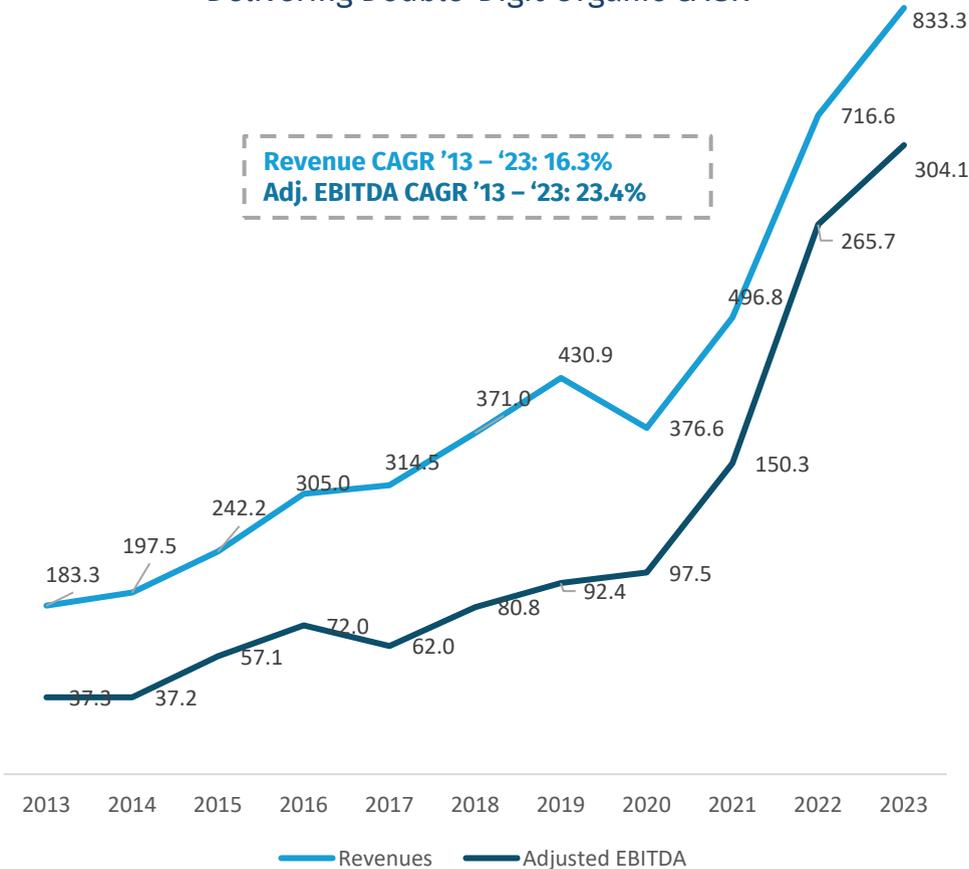

MULTIMAX
by ESWINDOWS

Multimax product line specifically targeting large scale homebuilders, legacy and new dealers in Florida

Evolution of Revenue & Adjusted EBITDA

Revenue & Adj. EBITDA
Delivering Double-Digit Organic CAGR

Key Milestones

- 2013** Became public
- 2015** Investment in top-class manufacturing facility to produce high-spec insulated glass
- 2017** Entered into the single-family residential market in the U.S., now accounting for 43% of total U.S. sales
- 2019** Entered into JV agreement with Saint Gobain for secure float glass supply
Investments in automation began, \$25 mm of Capex invested during 2019
- 2020** Automation investments became operational
COVID-19 Pandemic
- 2021** Introduction of Multimax products oriented towards production homebuilders
Sales reps in expanding geographies building relationships with targeted general contractors, developers, architects & glazers
- 2022** Opening of new showrooms in expanding geographies (NYC & Charleston now operational)
Revenue increase of 44% YoY at the higher end of guidance; gross margin up ~790 bps
- 2023** Installed capacity reaches approx. \$1 B
Record backlog of \$870.1 mm, up ~20% YoY
Entered into vinyl windows market, more than doubling addressable market
Relocated Global Headquarters from Colombia to Miami, Florida
Completed nearly half of \$50 mm Buyback Program

Seven Oaks East
Austin, Texas

Why Invest in Tecnoglass

Key Investment Highlights

1 | Strong Revenue Generating Track Record and Positive Outlook

- Impressive Track Record of Organic Revenue Growth in the U.S. Commercial and Residential Markets
- Effectively Positioned to Further Penetrate the Attractive U.S. Market
- Demonstrated History of Converting Backlog to Revenue

2 | Operational Efficiencies Resulting from Structural Competitive Advantages

- Vertically-Integrated Business Model Allows Tight Control Over Supply Chain and Costs
- Geographic Location of Manufacturing Facilities Provides Cost and Logistical Advantages
- State of the Art Manufacturing Facilities Drives Efficiency and Enhances Cost Efficiencies

3 | Best in Class Profitability and Cash Flow Generation

- Structurally Strong Margins & Cash Flow

4 | Disciplined Capital Allocation Framework Supporting Leading Financial Returns

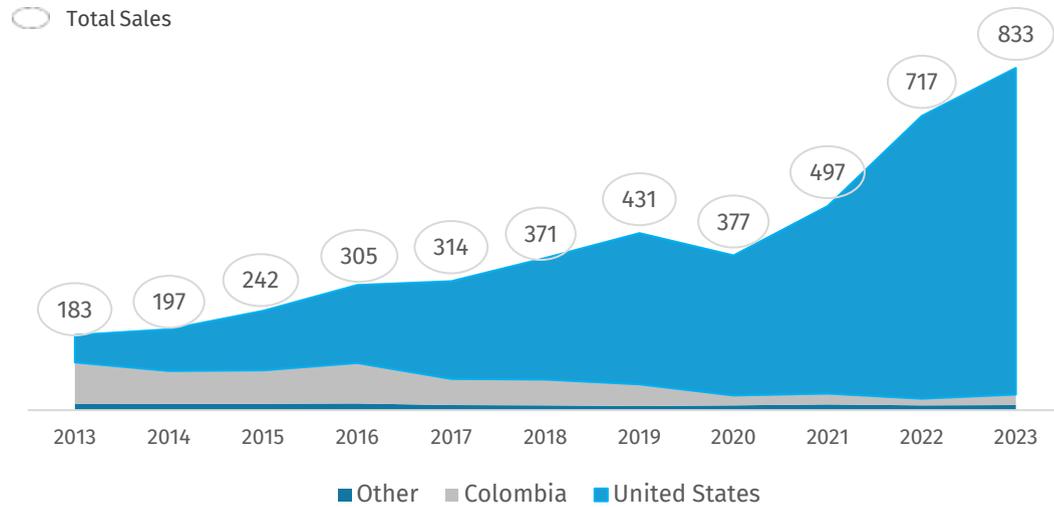

- Strong Balance Sheet and Leverage Profile
- Record of High Returns Through Capital Deployment

5 | Committed to ESG Principles

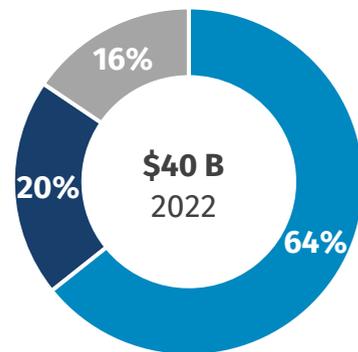

- “Green Revenues”
- Sustainability Strategy and Established Policies in Place to Benefit our Stakeholders
- Management Experience and Track Record Promoting Continuous, Ethical and Responsible Growth

Impressive Track Record of Organic Revenue Growth in the U.S. Multi-Family / Commercial and Residential Markets

TGLS Revenue by Country

Vast Market Opportunity¹

US Market Size: \$40bn
TGLS U.S. Share : **Top-5**

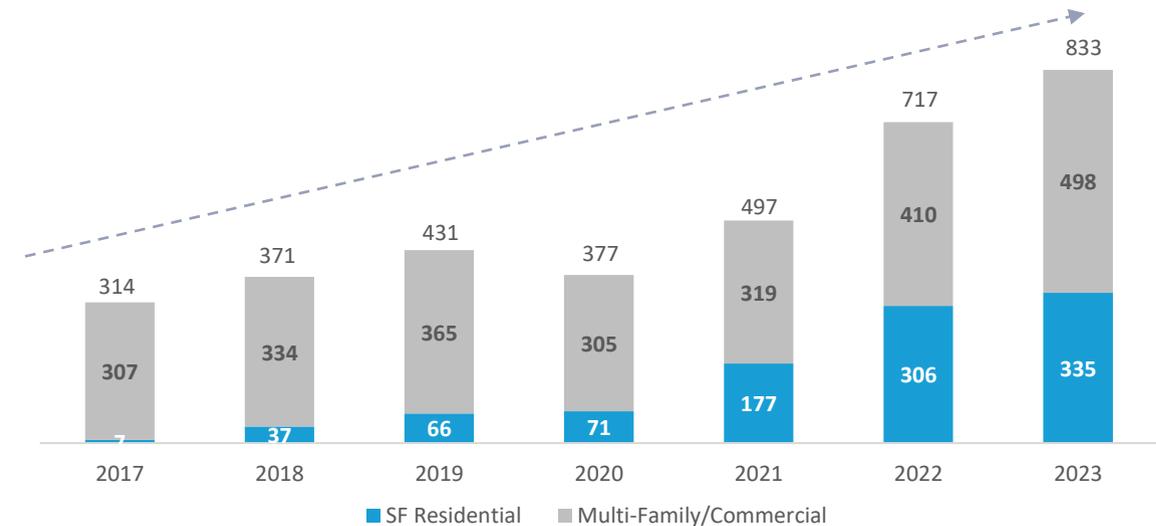

- Windows
- Architectural Glass
- Windows Installation

Notes:

1. External sources include IBISWorld, Fenestration and Glazing Industry Alliance (FGIA), Insight Partners and Arizton Advisory and Intelligence

- U.S. revenues continue to represent the majority of sales, contributing ~95% and 94% of total revenues and total backlog as of Q4'23
- The Company has ~1,000 customers, mostly located in North America, without any one customer exceeding 10% of revenues

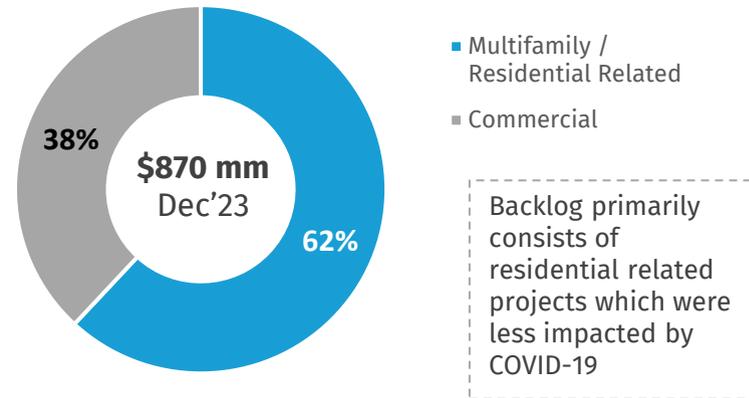

Single-Family Residential Contributing to Strong Revenues

- Continued growth into the single-family residential market through showroom openings across expanding geographic footprint (NYC and Charleston, SC now operational and Houston expected to be operational in the first quarter of 2024), with two more showrooms planned by the end of 2024, along with the introduction of new and innovative products
- Long term strategy continues to be supported by an expanding dealer base in underpenetrated geographies and geographic expansion within the Southeast and Southcentral U.S.

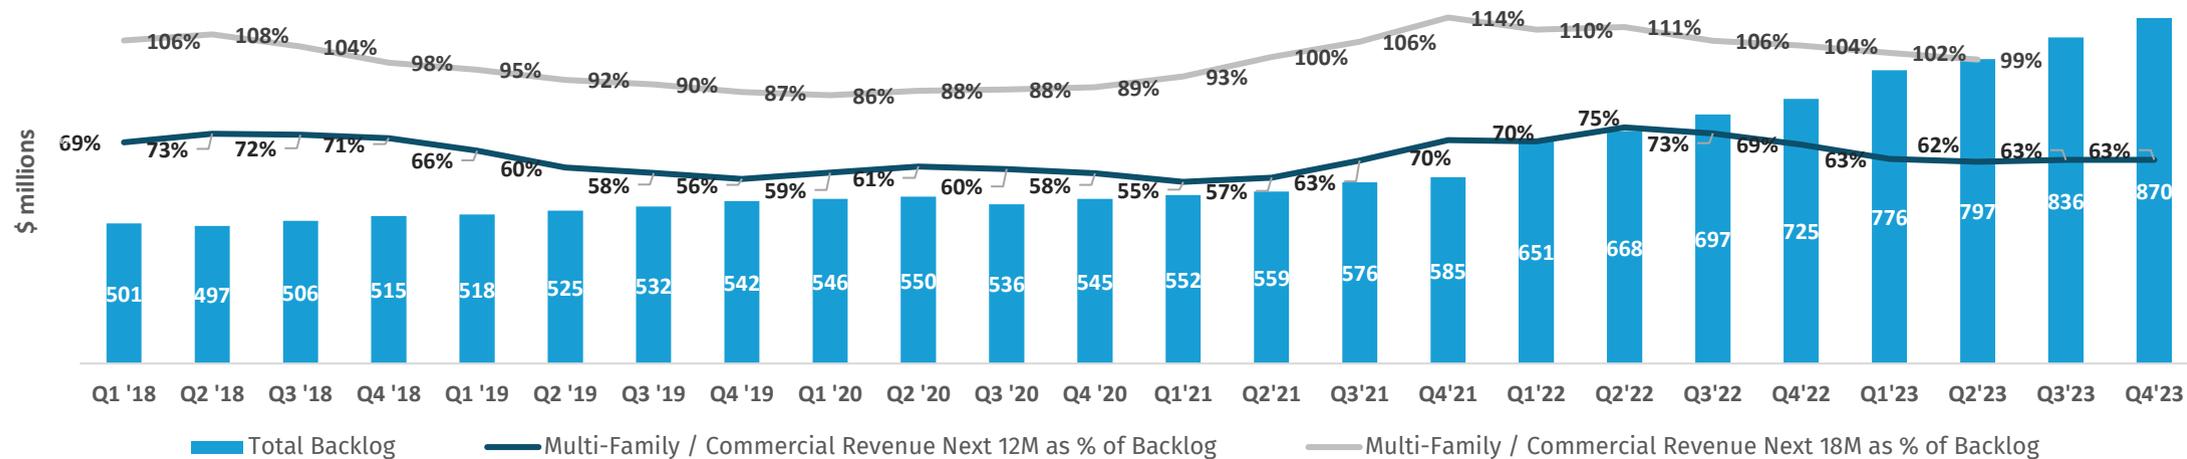

Effectively Positioned to Further Penetrate the Attractive U.S. Market With Demonstrated History of Converting Backlog to Revenue

Backlog by End Market

- Solid single-family residential growth trajectory not fully captured in backlog given shorter term “spot” duration of projects
- Record Backlog of \$870 mm, up ~20% YoY, representing ~1.7x LTM multi family and commercial revenues. Pipeline of project increasing with continued growth expected for the rest of the year
- U.S. backlog of \$814 mm, representing 94% of total backlog, led by market share gains, geographical diversification and strong activity in the Southeast U.S., our strongest region, currently outperforming most of the country
- Book-to-bill ratio of 1.2x in Q4'23 with strong bidding activity signaling attractive project opportunities in the near future and adding to a solid book-to-bill ratio above 1.1x for the past 12 consecutive quarters
- Virtually no project cancellations historically given late-stage installation of windows into largely completed buildings
- Given this dynamic, the Company has very strong visibility over the next 18 months over approximately 60% (commercial segment) of its revenues. Residential construction has avenues of growth related to the showroom expansion and the entrance into the vinyl window segment

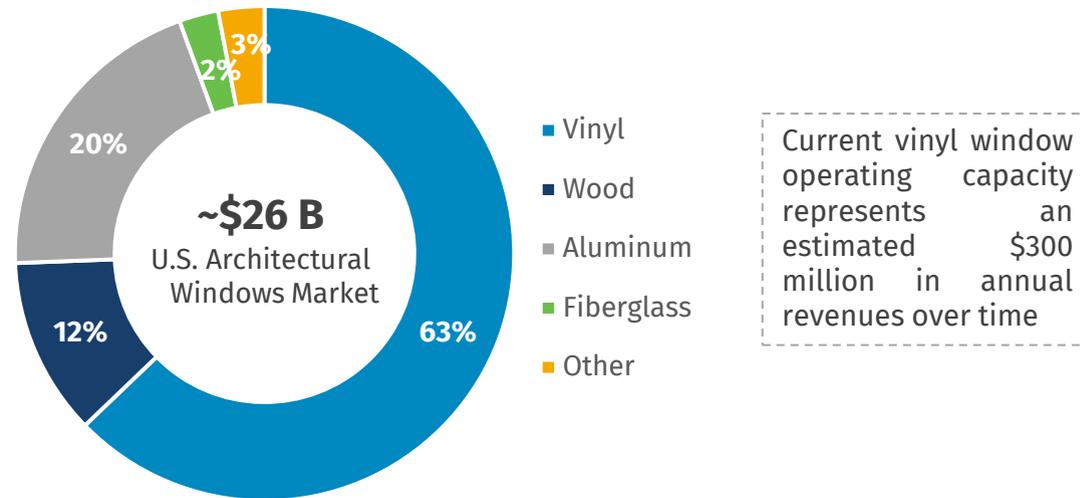

Backlog to Revenue Conversion

Historically, ~65% of multi-family and commercial revenue in backlog rolls off within 12 months and ~99% of the backlog rolls off within 18 months. This dynamic provides strong backing to support double digit revenue growth in 2024

Recent Strategic Entry into Vinyl Windows More than Doubles Addressable Market

Significant Addressable Market Potential¹

- More than doubles addressable market with an opportunity to add ~\$300mm in annual revenues once production lines are fully ramped up
- Further strengthens geographic expansion, given vinyl's adaptability for various weather conditions and efficient thermal performance to address increased demand for energy efficiency
- Attractive synergies given that 1) many existing dealer customers already sell both aluminum and vinyl windows and 2) ability to leverage manufacturing expertise and vertically integrated operations

Operational Update

- Completed installation of 3 full vinyl window production lines with ability to serve the US and LatAm
- Began shipping vinyl windows in December 2023
- TGLS vinyl sales & marketing primarily focused on North Florida, Alabama, South Carolina, North Carolina & Georgia. Expansion in the northeast U.S. supported by existing NYC showroom
- Early quotes and sampling carried out through 30-40 legacy dealers in central and northern Florida which already carried both aluminum & vinyl products. New distributors signed in northern Florida in 2024
- Showrooms already displaying legacy aluminum window lines plus new vinyl designs
- Cadence of orders expected to start ramping up after Q2'24, once clients have sampled and tested these products

Notes:

1. External sources include IBISWorld, Fenestration and Glazing Industry Alliance (FGIA), Insight Partners and Arizton Advisory and Intelligence

Vertically-Integrated, Well-Situated, Cutting-Edge Manufacturing Operations Drive Industry Leading Margins

Fully Vertically Integrated Operations

- Tecnoglass' integration across the architectural glass and window value chain provides significant control over a substantial portion of its costs, representing a structural advantage relative to industry peers
- Stable glass supply and costs resulting from JV with St. Gobain which represents ~60% of glass purchases

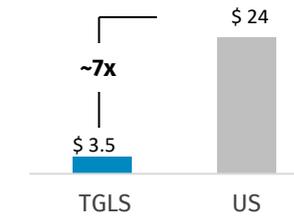

Strategic Location in Colombia

- Strategic location provides cost-effective marine transportation, with stable access to skilled workers and a connected supply chain, which minimize costs.
- **Location:** Barranquilla, Colombia
- **Plant Size:** 5.6 million square feet
- **Capacity:** approximately US \$1B
- **Employees:** ~9,000

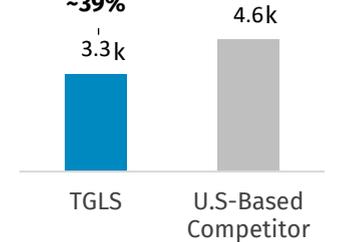

State-of-the-Art Manufacturing

- High-tech manufacturing facilitates the production process on an end-to-end basis, reducing lead times
- 15% energy savings from prior investments in renewables (solar panels)
- Utilizing co-generation through on-site natural gas emissions

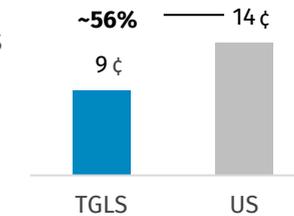

Labor Cost per Hour¹

Transportation Costs²

Energy Cost per Kwh³

Notes:

1. Federal Reserve Economic Data
2. Tecnoglass' estimate for land transportation from Midwest to major coastal cities
3. U.S Energy Information Administration

Operational Efficiencies Resulting from Structural Competitive Advantages

Competitive Advantage

Structural Operational Benefits

Fully Vertically Integrated Operations

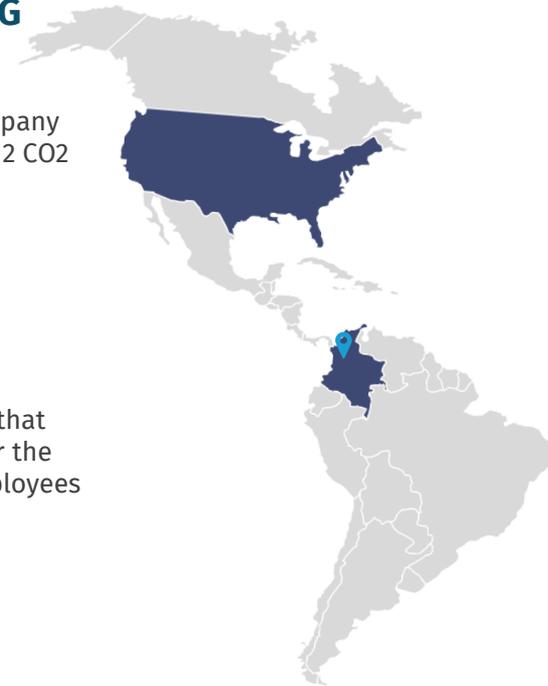

- | Lean Cost Structure | Below Average Lead Times | High Quality Product | Favorable Shipping | Favorable ESG Impact |
|--|--|---|--|--|
| <ul style="list-style-type: none"> Retain profit at every step of the production process and maintain significant control over a substantial portion of costs | <ul style="list-style-type: none"> Tight control over a short and efficient supply chain. Lead times have been reduced to 5 weeks | <ul style="list-style-type: none"> Control over every step of the production process ensures high quality at every stage | <ul style="list-style-type: none"> No transportation needed between different facilities, streamlining shipping processes | <ul style="list-style-type: none"> Simplified intra-company logistics lower Scope 2 CO2 Emissions |

Strategic Location in Colombia

- | | | | | |
|---|--|--|---|--|
| <ul style="list-style-type: none"> Benefit from efficient local costs denominated in Colombian pesos, most notably Labor at the equivalent of \$3/hour | <ul style="list-style-type: none"> Proximity to Miami (principal market), 4-day journey provides fast response times (near-shoring) | <ul style="list-style-type: none"> Access to skilled and committed labor providing production efficiency and low turnover | <ul style="list-style-type: none"> Strategic location near 3 of Colombia's 4 main ports Low shipping cost to the U.S. due to the Colombian net import trade imbalance | <ul style="list-style-type: none"> Social initiatives that generate value for the community and employees |
|---|--|--|---|--|

State-of-the-Art Manufacturing

- | | | | | |
|---|---|--|---|---|
| <ul style="list-style-type: none"> Automation increases efficiencies on an end-to-end basis reducing lead times, headcount and on-site damage, while increasing capacity | <ul style="list-style-type: none"> Utilization of advanced automation in manufacturing and warehousing for faster lead times | <ul style="list-style-type: none"> Utilization of state-of-the-art equipment and processes for top-notch products | <ul style="list-style-type: none"> Connected supply chain keeps intercompany transport costs <5% of revenues; Packaging designed to prevent breakage during shipping | <ul style="list-style-type: none"> Adoption of sustainable practices such as solar panels, natural gas usage, and waste reduction measures |
|---|---|--|---|---|

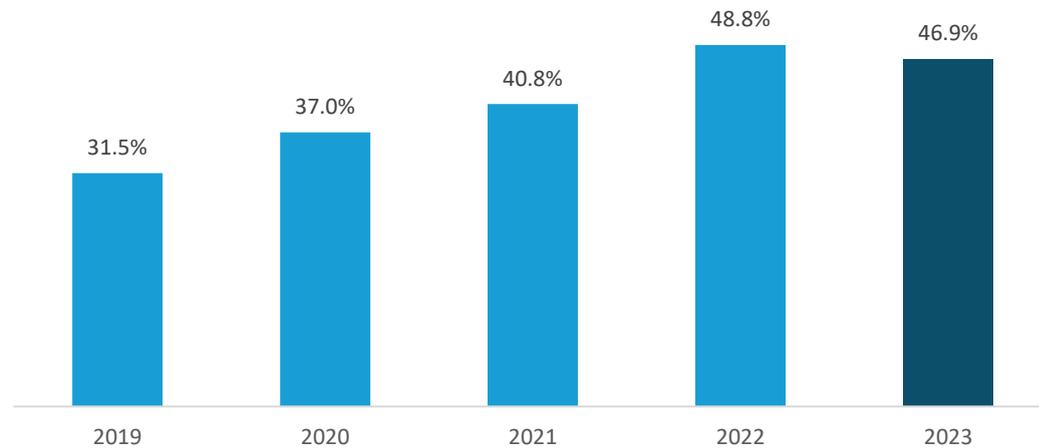

■ Tecnoglass Multi-Family / Commercial Reach
 📍 Barranquilla, Colombia

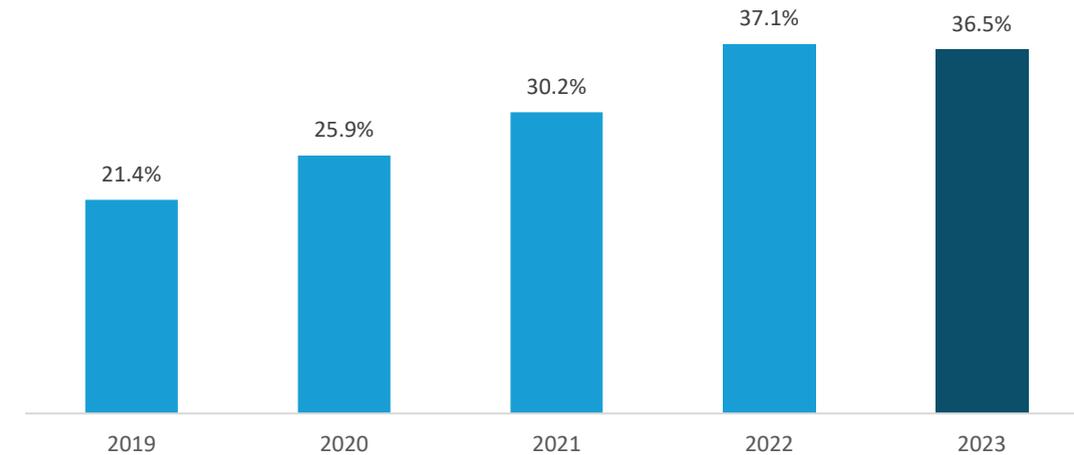

Structural advantages result in substantially shorter lead times than major competitors, unlocking opportunities for continued expansion and market share gains

Best in Class Profitability and Cash Flow Generation

Structurally Improved Gross Margin

Industry-Leading Adjusted EBITDA Margin

Gross margin increased to 46.9% as of 2023, up from 31.5% at the end of 2019. Three main factors have contributed to the improved margin profile:

1. Step-up in gross margin from structural and sustainable operational improvements related to automation initiatives
2. Diversification into the single-family residential end market driving accretive benefits to margins given the higher mix of manufacturing vs. installation revenues
3. Operating leverage on higher revenues have more than offset depreciation, labor, and other indirect manufacturing costs

Adjusted EBITDA increased to 36.5% as of 2023, up from 21.4% in 2019 driven by higher revenues along with stronger gross and operating margins

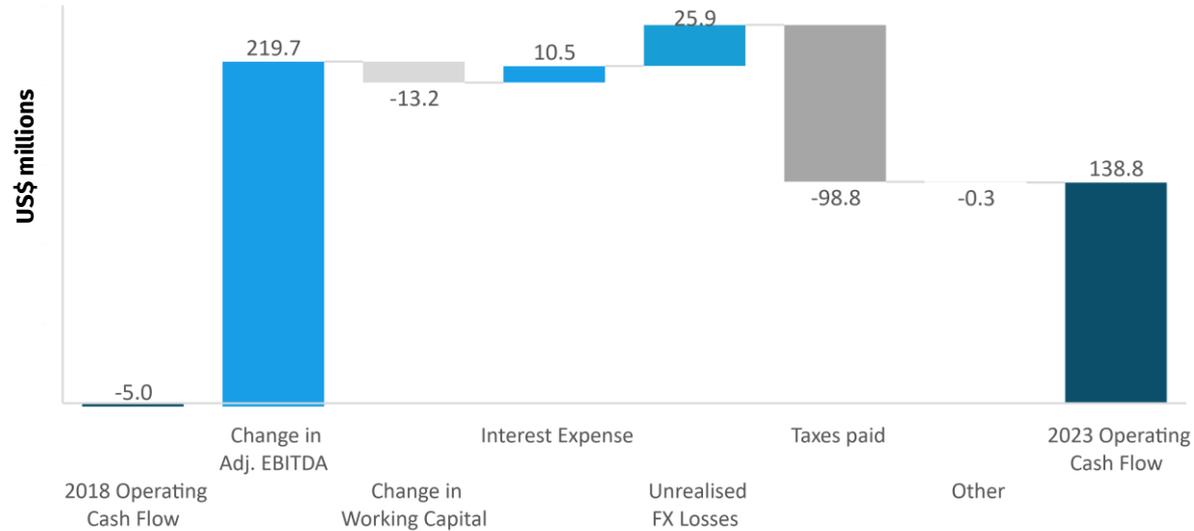

Stronger profitability and significant improvement in working capital metrics driving significant cash flow generation and low net leverage (Net Debt / LTM Adjusted EBITDA) levels

Notes:

Prior periods retroactively adjusted to include the historical financial results of Ventanas Solar, given the acquisition of VS was deemed to be a transaction between entities under common control.

Best in Class Profitability and Cash Flow Generation

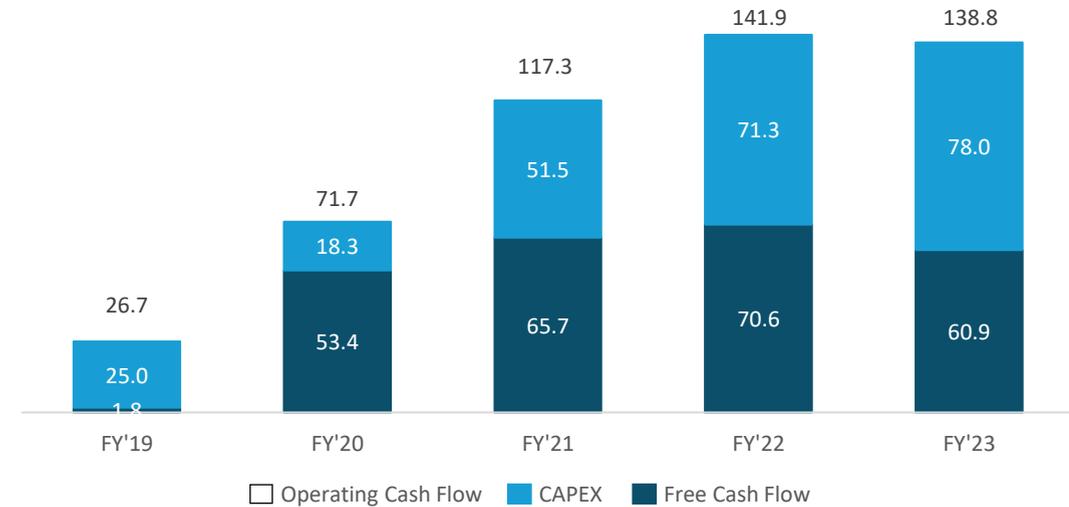

Operating Cash Flow Bridge (2018 – 2023)

- Tecnoglass has established a strong record of cash flow generation as a result of increased profitability, better working capital management, reduced interest expense and a more favorable mix of revenues
- Significant DSO improvement, from 90 in 2018 to 72 as of 2023, driven by improved collection efforts and a higher mix of revenues from single-family residential, which includes upfront payments, shorter sales cycles and no retainage; Company allows for 10-15 day transit times in addition to typical 60 day terms
- Interest expense savings achieved through reduction in both debt outstanding and weighted average interest rate

Improved Free Cash Flow

(\$ in Millions)

- Free Cash Flow of \$60.9 mm as of 2023, up from \$1.8 mm in 2019, driven by a stronger cash flow from operations on higher profitability YoY along with an efficient working capital management, more than offsetting a higher Capex spend following completed growth phase during the past several years
- Free cashflow expected to continue current trend given the completion of the current growth capex phase to get the Company's installed capacity to approximately \$1 B in manufacturing revenues

Disciplined Capital Allocation Supporting Leading Financial Returns

Strong Balance Sheet and Leverage Profile To Execute Growth

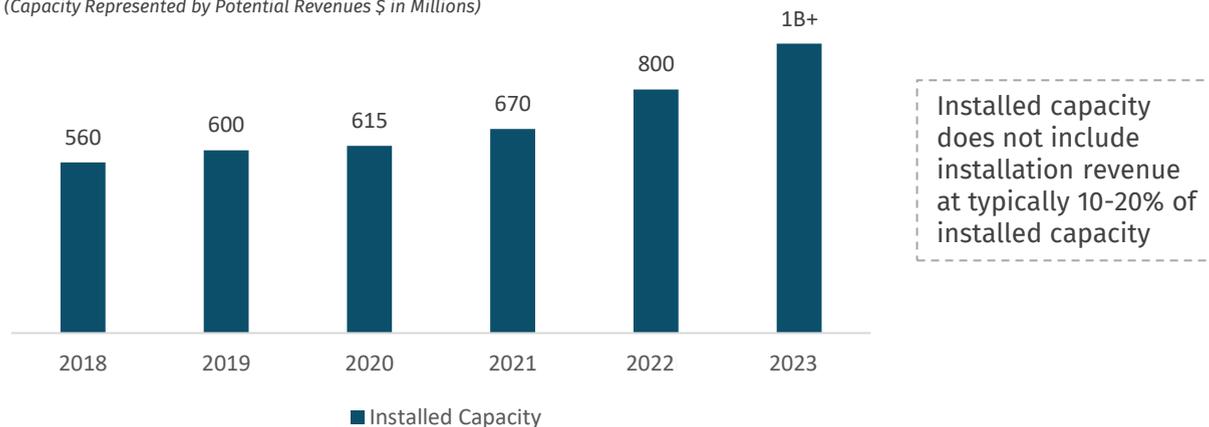

Liquidity of \$300 million, including cash of \$130 million and \$170 million available under committed revolver and other working capital lines

1 High Return Strategic Capex

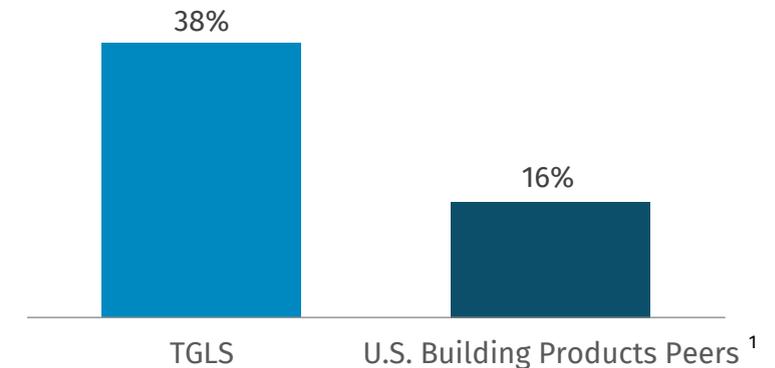

- Growth capital investments include automation projects, additional production lines and facility footprint expansion to address ongoing growth
- ~\$224m invested over the past three years have expanded operational capacity to approximately \$1B in annualized revenues
- Invested \$53.4mm in 2021, \$83.2 mm in 2022 and \$87.3 mm in 2023
- Operational expansion supported by continued backlog strength, single-family residential penetration and growing portfolio of innovative products

Installed Capacity

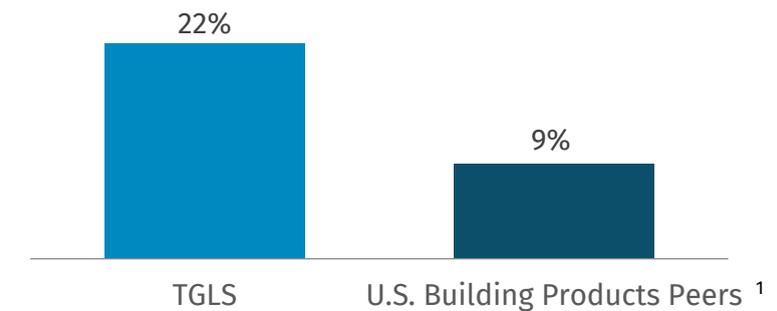

(Capacity Represented by Potential Revenues \$ in Millions)

3 Year Average ROE

3 Year Average ROIC

- Stronger profitability and significant improvement in working capital driving strong returns

Notes:

1. U.S. Building Products Peers include AMWD, APOG, AWI, AYI, AZEK, DOOR, FBIN, JBI, JELD, MBC, NX, PGTI, ROCK, SSD, and TILE for the three year period from Q4 2020 to Q4 2023.

Disciplined Capital Allocation Supporting Leading Financial Returns (Cont'd)

Strong Balance Sheet and Leverage Profile To Execute Growth

2 Dividend Payments

- ~\$49M of aggregate dividends paid since 2016
- In February 2024 the Board approved a quarterly cash dividend of \$0.11 per share, representing a 22% increase from previous dividend payments

3 Share Repurchase Program

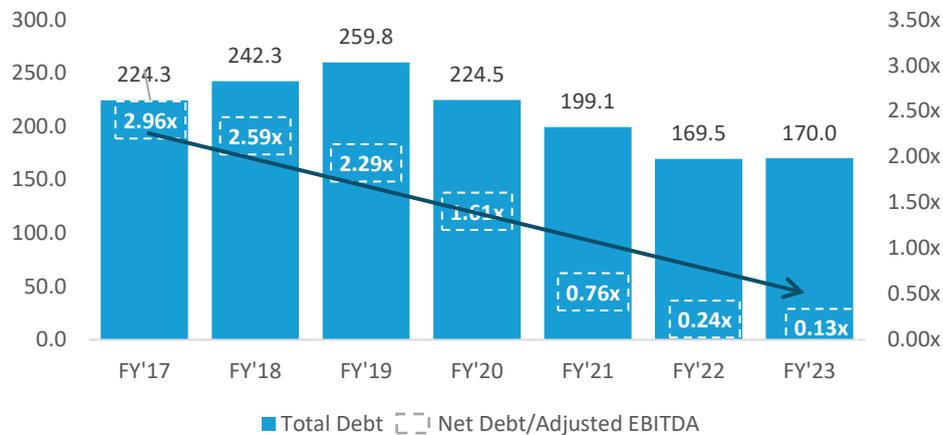

- Executed \$24 mm in share repurchases to date, almost half of the Company's Buyback Program of \$50 mm, returning significant cash to shareholders

4 Debt Repayment

- Strong cash flow and voluntary repayments of debt have resulted in all-time low net debt / LTM Adj. EBITDA¹ of 0.13x and no significant debt maturities until the end of 2026

Record-low Net Leverage¹

(\$ in Millions)

5 M&A

- Historically not active but will consider strategically convenient opportunities to diversify geographically or broaden product offerings while generating significant synergies

Notes:

1. Adjusted EBITDA excludes non-recurring and non-cash expenses mainly associated with non-cash foreign exchange transaction gains or losses, non-recurring professional fees and other non-core items, and include the proportional contribution of the Company's joint venture with Saint-Gobain.

Committed to ESG Principles

Leading Eco-Efficiency and Innovation

Tecnoglass aims to become a certified carbon neutral company in 2024. Already a carbon neutral company as of 2021 and expected to be carbon neutral company as of 2022 in the first semester 2024

Proactively invested in carbon credits from third-party renewable energy projects equivalent to the carbon captured by over 850,000 trees to offset emissions of 2021

In 2017 was a pioneer in Colombia, investing in a solar panel project with +15,000 roof-mounted panels, reducing since its inception over 10,000 CO2e per year.

Inaugurated a cogeneration project with two gas engines, expected to reduce approximately an incremental 5,500 tons of CO2e per year

Developing circular economy strategy focused on resource optimization, sustainable production practices and promoting the extension of product life-cycle

Registered +150 IP rights related to product development
Earned the Miami-Dade County Notice of Acceptance, one of the most demanding certificates in the industry and a requirement to market hurricane-resistant glass in Florida
NFRC (National Fenestration Rating Council) Energy Efficient Products.
FBC (Florida Building Code) Hurricane protection products

Tecnoglass reaffirms its commitment to fight climate change through a carbon neutrality strategy, focused on renewable energy, energy efficiency, and greenhouse gas offset projects

Green Revenues

68%

of our revenues are Impact Resistant (Hurricane), reflecting the increasing demand for resilient solutions in regions vulnerable to extreme weather events

65%

of our revenues come from Energy Efficient products, including IGUs and low emissivity glass, providing greener and more efficient cooling or heating energy usage

84%

of our Low-E products are equipped with double or more coatings, providing superior performance sought in sustainable building solutions

Over 85% of Tecnoglass' total revenues are considered Green Revenues, including low emissivity and impact-resistant glass and windows, contributing to reducing global emissions and mitigating climate change effects

Committed to ESG Principles

Enhancing our Environment

As of December 2023, +85% of our ~9,000 employees have participated and benefited in social well-being programs offered by the Company

Employee salaries are 15% above minimum wage in Colombia on average

First company to train its top management employees in Business and Human Rights in cooperation with the Colombian Public Ministry agency

LTIFR below industry and nationwide metrics

Employee benefits:

Medical unit free of charge for employees offering general medicine, optometry, dentistry and psychology services.

Home improvement grants for employees with 10+ years at the Company

Scholarship program for higher education

Sports center with baseball and soccer fields

29% of our employees received school supply kits for the start of the school year for their children, promoting discipline in their studies

An additional +1,400 school supply kits were delivered in our area of influence in Barranquilla

Investment in public spaces for urban transformation in our area of influence (La Ventana al Mundo, La Ventana de Campeones, Police Stations, Fire Station, Renovation of Public Schools)

Total social investment of \$3.6 mm and \$2.0 mm during FY'23 and FY'22

Ventana de Campeones
Barranquilla, Colombia

Committed to ESG Principles

Promoting Continuous, Ethical and Responsible Growth

Ethical Governance and Board Composition

Board composition: 5 independent & 2 executive
Diverse industry expertise, including broad experience in the construction industry
Board attendance: +75% YoY

Independent oversight and transparent decision-making:
Non-executive Chairman of the Board
All committees conformed by independent members

Annual performance evaluation of directors to ensure effectiveness and continuous improvement

Compensation packages rewarding executives for value creation
Performance-based compensation

Independent internal audit, dedicated to evaluating and enhancing controls and governance processes with full transparency, directly reporting to the Audit Committee

Global robust ethics and compliance program to address AML/FT, FCPA, fraud and to ensure security in the international supply chain

Quarterly controls in place to identify, approve and disclose Related Party Transactions, ensuring transparency and compliance

Highly Experienced and Dedicated Management Team

José Manuel Daes
CEO - Director

40+ years of executive experience in the industry, responsible for ethical management, driving growth, and maximizing shareholder value

Christian Daes
COO - Director

40+ years of experience industry expertise, driving corporate strategy through innovation, technology, automation, alternative energy, and stakeholder solidarity

Santiago Giraldo
CFO

MBA graduate with 25+ years of experience in capital markets, debt, treasury, and M&A. Prioritizes transparency and timely reporting, fostering investor relations and aligning long-term projects with the company's strategy

Andrea Zambrano
General Counsel

LLM graduate with 18 years of experience in corporate law, M&As, corporate finance and compliance programs. Strategic advisor in governance and sustainability, integrating environmental and social considerations in the organization's decision-making process

Historic KPI Accomplishments:

- Implemented GRI Standards for Sustainability Report
- Completed automation projects for aluminum inventory, sorting and laminated glass transformation
- LTIFR measured annually, results below industry metrics
- Incremental analyst coverage
- Stringent financial metrics (Adjusted EBITDA, Net Sales, Backlog, Gross Profit, Financial Costs, Tax Planning)
- Completed carbon footprint measurement with 2016 as baseline and measured YoY
- Colombian operating companies certified as AEO in exporter and importer category and US subsidiary as C-TPAT Tier 3

FY 2023 Key Takeaways

Key Takeaways			
\$ \$833.3 MM Total Sales	 16.3% YoY Growth	\$ \$795.1 MM Total U.S. Sales	 15.5% YoY Growth
\$ \$390.9 MM Gross Profit	 46.9% Margin	\$ \$259.8 MM Operating Income	 31.2% Margin
\$ \$304.1 MM Adjusted EBITDA ¹	 36.5% Margin	\$ \$189.3 MM Adjusted Net Income ¹	 \$3.98 Adjusted EPS
\$ \$138.8 MM Operating Cash Flow	 -2.2% YoY Growth	\$ \$870.1 MM Backlog	 20.0% YoY Growth

- Record FY'23 revenues, gross profit, operating income, Adj. EBITDA, and Adj. Net Income
- Solid growth in multi-family and commercial activity, up 21.4% YoY to \$497.9 mm as we execute on our growing backlog.
- Continued growth in the SF residential market, up 9.5% YoY to a record \$335.4 mm, driven by growing dealer network, geographic expansion and innovative products
- Gross profit margin of 46.9% remained resilient despite unfavorable FX dynamics and higher mix of installation revenue
- Adj. EBITDA grew 14.5% YoY to a record \$304.1 mm at a 36.5% margin
- Adjusted net income of \$189.3 mm or Adj. EPS of \$3.98, up 19.4% YoY
- Strong operating cash flow of \$138.8 mm driven by higher profitability and enhanced working capital management, further strengthening financial flexibility to execute expected growth and produce free cash flow of \$60.9 mm
- Record backlog of \$870.1 mm, up ~20% YoY, representing a book-to-bill ratio of 1.2x

Notes:

1. Adjusted EBITDA excludes non-recurring and non-cash expenses mainly associated with non-cash foreign exchange transaction gains or losses, non-recurring professional fees and other non-core items, and include the proportional contribution of the Company's joint venture with Saint-Gobain.

2024 Outlook

- Expect double-digit revenue growth for full year 2024
 - Supported by record backlog, new vinyl initiative, showroom openings and geographical expansion
- Q1'24 revenue expected to be the seasonal low quarter and increase sequentially thereafter
 - Based on the timing of projects, scheduled maintenance in January and the expected ramp up period for vinyl products
- Full year 2024 gross margin expected to be in the mid 40% range
 - Accounts for a higher mix of installation revenue and assumes continued stable FX rates for 2024, resulting in an unfavorable year-over-year comparison based on a COP\$4,325 avg for 2023
- Expect higher YoY free cash flow during full year 2024
 - Completed the majority of capital expenditures related to facility automation, expansion and vinyl-related investments in 2023

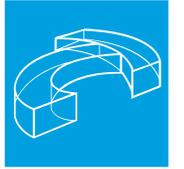

Notes:

1. Adjusted EBITDA excludes non-recurring and non-cash expenses mainly associated with our bond issuance and respective extinguishment of former debt, acquisition related costs and other non-recurring items

Adjusted EBITDA	61,978	87,243	304,117	265,664

Notes:

1. Adjusted EBITDA, Adjusted EBIT and Adjusted Net Income are not measures of financial performance under generally accepted accounting principles ("GAAP"). Management believes Adjusted EBITDA, Adjusted EBIT and Adjusted Net Income, in addition to operating profit, net income and other GAAP measures, is useful to investors to evaluate the Company's results because it excludes certain items that are not directly related to the Company's core operating performance. Investors should recognize that Adjusted EBITDA, Adjusted EBIT and Adjusted Net Income might not be comparable to similarly-titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance prepared in accordance with GAAP. Because GAAP financial measures on a forward-looking basis are not accessible, and reconciling information is not available without unreasonable effort, we have not provided reconciliations for forward-looking non-GAAP measures.

Non-GAAP Reconciliation¹

Net Debt, Leverage and Total Investment Reconciliations

Figures in U.S. \$k

	As of December 31,	
	2022	2023
Short Term Debt and Current Portion of Long Term Debt	504	7,002
Long Term Debt	168,980	163,004
Gross Debt	169,484	170,006
Cash at the end of the period	103,671	129,508
Net Debt	65,813	40,498
LTM Adjusted EBITDA	265,664	304,117
Net Debt / LTM Adjusted EBITDA	0.25x	0.13x

Notes:

1. Total Investment and Free Cash Flow are not financial measures under generally accepted accounting principles ("GAAP"). Management believes this measurements are useful to investors to evaluate the Company's performance. Total Investment includes Capex or cash acquisition of property and equipment, assets acquired under capital lease and assets acquired with debt. Free Cash Flow is calculated as cash (used in) provided by operating activities (-) Capex or cash acquisition of property and equipment. Free Cash Flow do not include assets acquired under capital lease or debt. Investors should recognize Total Investment and Free Cash Flow might not be comparable to similarly-titled measures of other companies. These measures should be considered in addition to, and not as a substitute for or superior to, any measure prepared in accordance with GAAP. Because GAAP financial measures on a forward-looking basis are not accessible, and reconciling information is not available without unreasonable effort, we have not provided reconciliations for forward-looking non-GAAP measures.
