

# E-LA investment to support new Meta agreement

Additional details to be provided on 1Q26 earnings call

## Filing request highlights (docket TBD)

- Generation and transmission resources proposed in connection with service to a new data center project in north Louisiana, including seven new CCCTs totaling more than 5,200MW and three battery energy storage systems
- Agreement includes important customer protections, consistent with or better than LPSC guidelines and Fair Share Plus commitment
- Electric service agreement provides for subscription up to an additional 2,500 MW of renewable resources under existing E-LA green tariff
- Agreement regarding funding of planned and potential nuclear uprates

Additional details, including financial implications, will be provided on 1Q26 call<sup>1</sup>

## Key dates

Date	Event
4Q26	Requested decision (per Lightning Initiative)

1. Financial implications will reflect the effects of customer contributions and other contract terms; a portion of the investment is beyond current outlook period
