Forward-Looking Statements

This presentation contains forward-looking statements, including, but not limited to, statements regarding Synopsys, Inc.'s (Synopsys, our or we) short-term and long-term financial targets, expectations and objectives; our businesses, business segments, strategies, partnerships, initiatives and opportunities, including, among other things, the reallocation of resources in our Design IP segment to higher growth opportunities and planned restructuring activities; industry growth and technological trends, such as artificial intelligence, including our development and planned commercialization thereof; business and market outlook; the potential impact of the uncertain macroeconomic environment and global economic conditions on our financial results; the impact of current and future U.S. and foreign trade regulations, government actions and regulatory changes, such as export control restrictions and tariffs; the ANSYS, Inc. (Ansys) integration and its expected impact, including expected synergies and the timing thereof, our ability to create joint solutions as a combined company, and related accounting changes; planned and recently completed acquisitions or divestitures, and their anticipated timing and impact; our key customers, customer concentration, customer engagement, customer demand and market expansion; results and strategies related to our products, technology and services, including product development and our planned product releases and capabilities; the expected realization of our contracted but unsatisfied or partially unsatisfied performance obligations (backlog); planned stock repurchases; our expected tax rate; and the status, expected outcome or expected impact of litigation and/or regulatory investigations. These statements involve risks, uncertainties and other factors that could cause our actual results, time frames or achievements to differ materially from those expressed or implied in such forward-looking statements. Such risks, uncertainties and factors include, but are not limited to: macroeconomic conditions and geopolitical uncertainty in the global economy; uncertainty in the growth of the semiconductor and electronics industries; the highly competitive industry we operate in; actions by the U.S. or foreign governments, such as the imposition of additional export restrictions or tariffs; consolidation among our customers and our dependence on a relatively small number of large customers; risks and compliance obligations relating to the global nature of our operations; failure to realize the benefits expected from the transactions we complete, including the acquisition of Ansys (the Ansys Merger) or unexpected difficulties or expenditures arising therefrom; risks related to inaccuracies in, or failures to achieve, our operational and business metrics or forecasts of growth; and more. Additional information on potential risks, uncertainties and other factors that could affect Synopsys' results is included in filings we make with the Securities and Exchange Commission (the SEC) from time to time, including in the sections entitled "Risk Factors" in our latest Annual Report on Form 10-K and in our latest Quarterly Report on Form 10-Q. The financial information contained in this presentation should be read in conjunction with the consolidated financial statements and notes thereto included in Synopsys' most recent reports on Forms 10-K and 10-Q, each as may be amended from time to time. Synopsys' financial results for its third quarter of fiscal year 2026 are not necessarily indicative of Synopsys' operating results for any future periods. The information provided herein represents Synopsys' expectations and beliefs as of August 26, 2026. Synopsys undertakes no duty, and does not intend, to update any forward-looking statement, whether as a result of new information, future events or otherwise, unless required by law.

Regulation G

In addition to financial results prepared in accordance with Generally Accepted Accounting Principles (GAAP), this presentation also contains certain non-GAAP financial measures as defined by the SEC in Regulation G. When possible, Synopsys provides a reconciliation of non-GAAP financial measures to their most closely applicable GAAP financial measures. Reconciliations of certain of the non-GAAP financial measures (either contained in this presentation or given verbally) to their most comparable GAAP measures are included in this presentation, along with the third quarter of fiscal year 2026 earnings release and financial supplement, each dated August 26, 2026 and available in the investor relations portion of Synopsys' corporate website at www.synopsys.com and furnished with our Current Report on Form 8-K filed with the SEC on August 26, 2026. Synopsys is unable to provide a full reconciliation of its long-term, multi-year target for annual non-GAAP EPS growth and certain fourth quarter and full fiscal year 2026 non-GAAP financial targets to the corresponding GAAP financial measures on a forward-looking basis because Synopsys believes that it would not be possible for it to have the required information necessary to quantitatively reconcile such measures with sufficient precision without unreasonable efforts due to, among other things, the potential variability and limited predictability of the excluded adjustment items necessary for a full reconciliation such as certain acquisition/divestiture related items, tax deduction variability, changes in the fair value of non-qualified deferred compensation plan, and gains (losses) on the sale of strategic investments. For the same reasons, Synopsys is unable to address the probable significance of the unavailable information. Investors are encouraged to review Item 2.02 of Synopsys' Current Report on Form 8-K filed on August 26, 2026, available at http://www.sec.gov, for additional information about the measures Synopsys uses to evaluate its core business operations.

Long-term Financial Objectives[1]

OUR COMBINED COMPANY LONG-TERM, MULTI-YEAR OBJECTIVES ARE:

REVENUE

Industry-leading double-digit growth

Design Automation: double digits

Design IP: mid-teens

MARGIN

Long-term non-GAAP operating margins in mid 40s

Long-term unlevered free cash flow margins in mid 30s

EARNINGS

Non-GAAP EPS growth in the high-teens range

[1] These multi-year objectives are provided as of August 26, 2026. See the section titled, “Regulation G” on Slide 2 for more information.
